# iii. Updates on the Joint Biennial Technology Mechanism NDE Survey

Agenda item TEC: 8. CTCN AB: 6 [TEC/2024/28/16 and AB/2024/23/6.2]

CTCN AB – Friday, 19 April 2024

Daye Eom

# Importance of Technology Mechanism NDE Survey

- Two bodies invite NDEs biennially to contribute to the process of monitoring and evaluating the impact, through a joint survey. (decision 15/CP.23 and 15/CMA.1)
- The focus of the survey was **on long-term impacts** and actions taken, after support was provided :
  - 1st NDE survey in 2020 (27 NDEs received support from the CTCN responded)
  - 2<sup>nd</sup> NDE survey in 2022 (45 NDEs received support from the CTCN responded)
- NDEs are agents for change. Inputs and reviews from NDEs allow Technology Mechanism to learn, improve and provide more coherent support.
- The results of NDE survey are used as a source of information for the PATM/GST/BTR (decision 16/CMA.1, annex, para. 1.).

## Biennial UNFCCC Technology Mechanism NDE Survey

Dear Sir/Madam,

The following survey collects information on the support received by countries from the Climate Technology Centre and Network (CTCN) and the Technology Executive Committee (TEC).

As key stakeholders of the CTCN and the TEC, National Designated Entities (NDEs) are invited to contribute to the monitoring & evaluation (M&E) process by completing this survey. The individual responses to this survey are key to informing and improving our work. They will be used to identify success stories and best practise to be shared, as well as to identify lessons for improvement. They will also be used as a source of information for the Periodic Assessment of the Technology Mechanism (PATM), feeding into Global Stocktake.

# COP mandate on Technology Mechanism NDE Survey

- COP 27 (Decisions 18/CP.27 & 19/CMA.4) mandate to “identify new ways to invite feedback from NDEs on the impact of the work of the TM such as through more **practical and effective surveys**”
- Ongoing preparations for the 3rd Technology Mechanism NDE survey, with enhanced approaches on the following:
  1. Tailored questions for three stakeholder categories (details to be shared in AB M&E session)
  2. Improved communication and outreach strategy to enhance responses from NDEs

# 1. Refine survey questions applicable to all NDEs

- Most of questions in the past surveys were only relevant to country **NDEs who received TAs**.
  - Add relevant questions for
    - Non-Annex I with no TA experience - Country NDEs yet to receive TA support
    - Impacts for other service areas (capacity building, networking)
    - Annex I - Country NDEs with ability to provide support to the CTCN

	Non-Annex I NDEs mostly  (countries benefiting from technical assistance support)	Non-Annex I NDEs  (countries yet to receive technical assistance support)
Part I. Past engagement	✓	✓
Part II. Technical Assistance Outcomes and Impacts	✓	

	Non-Annex I NDEs mostly  (countries benefiting from technical assistance support)	Non-Annex I NDEs  (countries yet to receive technical assistance support)	Annex I NDEs  (countries with ability to provide support)
Part I. Past engagement and <b>level of awareness on the role of NDEs</b>	✓	✓	✓
Part II. Technical Assistance Outcomes and Impacts	✓		
<b>Part III. Capacity Building and Networking Outcomes and Impacts</b>	✓	✓	
<b>Part V. Engagement with Annex I Countries</b>			✓

## 2. Strengthen outreach strategy

- To raise the profile of the Survey and ensure a high response rate, the communications and outreach strategy will be revamped. Both bodies will use following ways to :
  - Emphasize/communicate the monitoring of progress is a part of mandatory roles and duties of the NDEs
  - Use regional NDE fora to encourage survey in person
  - One-on-one communication and follow-up
  - Offer incentives to encourage survey completion, eg:
    - Feature success stories on social media and websites to create visibility
    - Share the understanding that the extent to which NDEs actively share cases in this survey could facilitate the future support of the CTCN
  - Use TEC and CTCN AB members' influence to encourage participation (suggestions from last joint session)

# Next Steps

- (April ~ May) Translate survey questions in three languages
- (May ~ July) Launch survey in May, implement communication and outreach strategy, and collect responses until July
- (July ~ November) Analyze results and report findings in 2024 Joint Annual Report and TEC 29/CTCN AB 24

## Supported by

Part	Questions
Part I. Past engagement and level of awareness on the role of NDEs	Past engagements with the CTCN Level of awareness on the roles of NDE
Part II. Technical Assistance Outcomes and Impacts	Experiences on the receipt/provision of TA support Outcomes/Impacts of TA and willingness about the follow-on support from the CTCN
Part III. Capacity Building and Networking Outcomes and Impacts	Experiences on the participation of capacity building and networking activities Expectations/needs on the capacity building and networking activities
Part V. Engagement with Annex I Countries	Rationale and satisfaction about the support provided to the CTCN Relevant programmes/opportunities that the CTCN to be aware of
Part V.I. Contribution of TEC policy recommendations and publications	Uptake of the TEC publications and impact of the TEC work
