

Agenda item 4.a.iii

Key messages and recommendations on international collaborative RD&D

TEC/2021/23/6

Technology Executive Committee, 23rd meeting
7–10 September 2021 – virtual meeting

Dinara Gershinkova, TEC member
TEC Innovation task force

Background

Under activity 2 of the thematic area of innovation of its workplan for 2019–2022, the TEC produced:

- A compilation of **good practices and lessons learned in relation to international collaborative RD&D** initiatives; and
- **RD&D executive summaries** for targeted audiences: domestic policymakers, research and academic institutions, international organizations, private sector actors.

Draft key messages and recommendations to COP/CMA (TEC/2021/23/6) were prepared by the Innovation task force based on:

- The RD&D compilation and the executive summaries.

They build on **same language** used in the these two publications, which were discussed and cleared by TEC members in previous meetings

Thank you!
