

Agenda item 4.c.ii

# Key messages and recommendations on enabling environment to promote endogenous capacities and technologies

TEC/2021/23/10

Technology Executive Committee, 23<sup>rd</sup> meeting

7–10 September 2021 – virtual meeting

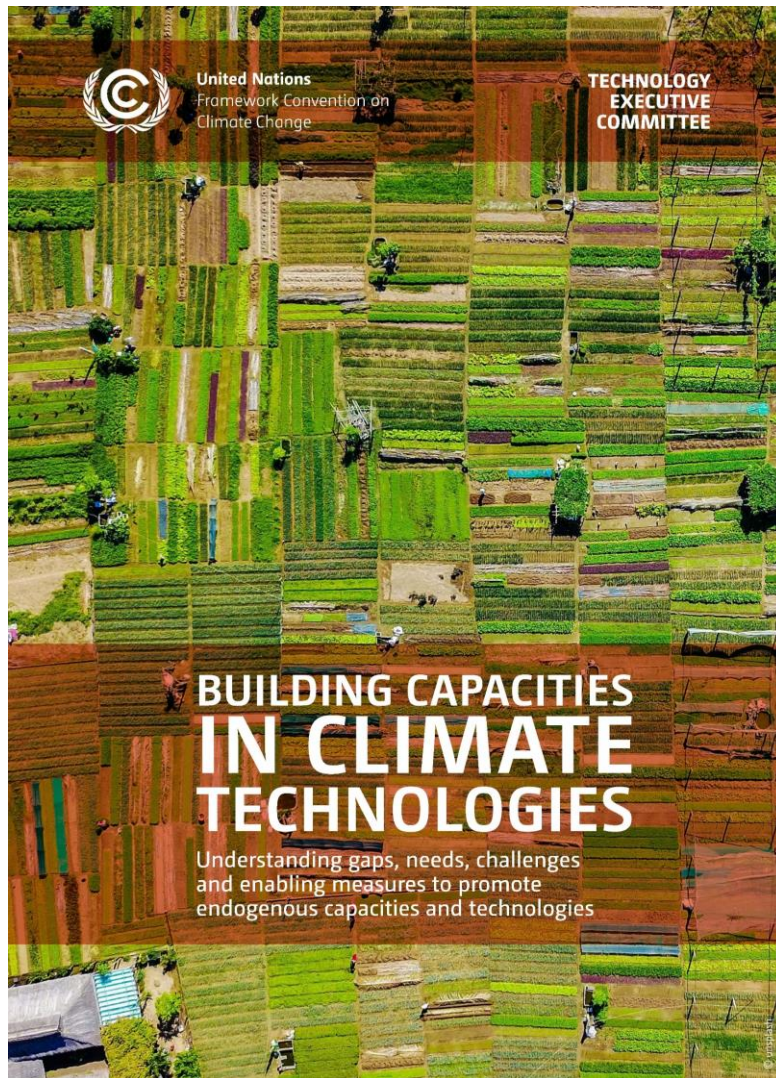

**Kinga Csontos, TEC member**

Task force Enabling environment and Capacity-building

## Background

- TEC22 discussed the full finding of the analysis on needs, gaps, challenges, and enabling measures to develop and enhance endogenous capacities and technologies (TEC 2021/22/10)
- All key findings and recommendations were endorsed by the TEC, with new recommendations added on: Research and innovation system and collaboration
- Taskforce EECB finalized the report post-TEC22 (May)
- The report was sent for design for publication (June)
- The report was published in July:  
<https://unfccc.int/ttclear/endogenous/index.html>

- Draft key messages and recommendations to COP/CMA (TEC/2021/23/10) were prepared based on:
  - Executive summary and Conclusions and recommendations sections of the report;
  - Further inputs by the taskforce.

*Thank you!*
