OF THE BERLIN MANDATE**

Revised text under negotiation

Note by the secretariat

1. At its first session, the Conference of the Parties (COP) agreed to “begin a process to enable it to take appropriate action for the period beyond 2000, including the strengthening of the commitments of the Parties included in Annex I to the Convention (Annex I Parties) in Article 4, paragraph 2(a) and (b), through the adoption of a protocol or another legal instrument” (decision 1/CP.1, the “Berlin Mandate”).
2. The COP decided that this process should be conducted in an open-ended ad hoc group of Parties, the “Ad Hoc Group on the Berlin Mandate” (AGBM), “with a view to adopting the results at the third session of the Conference of the Parties” (decision 1/CP.1, para. 6).
3. The results of the work of the AGBM on a protocol or another legal instrument, as approved by the AGBM at the first part of its eighth session (see FCCC/AGBM/1997/8, para. 17), are contained in the revised text under negotiation which follows. This text has been prepared on the understanding that the consolidated negotiating text by the Chairman (FCCC/AGBM/1997/7), the reports by the Chairmen of informal consultations conducted at AGBM 7 (FCCC/AGBM/1997/INF.1), the negotiating text by the Chairman (FCCC/AGBM/1997/3/Add.1 and Corr.1) and the original proposals from Parties contained in relevant miscellaneous documents (FCCC/AGBM/1996/MISC.2/Add.1-4 and FCCC/AGBM/1997/MISC.1/Add.1-10), also remain under negotiation.

4. In the revised text under negotiation which follows, Parties may note that, in certain cases, the numbering of Articles and paragraphs and the letters used to denote Annexes differs from that used in previous texts.

5. The revised text under negotiation is presented to the Conference of the Parties at its third session as a basis for the fulfilment of the Berlin Mandate.

⁴ The Group of 77 and China requested that paragraphs 17 and 18 above, which reproduce part of that group's proposal contained in document FCCC/AGBM/1997/MISC.1/Add.6, be included in this text. It should be noted that, due to lack of time, it was not possible to enter into discussion on this matter during informal consultations conducted at the first part of the eighth session of the AGBM.

⁵ A Party previously proposed text, which can be found as paragraph 20 in annex I of document FCCC/AGBM/1997/INF.1, to cover the situation in which member States of regional economic integration organizations and the organizations themselves were Parties to this instrument and sought to undertake quantified emission limitation and reduction commitments as such. The text also covers possible future enlargement of regional economic integration organizations.

Article 5⁶

1. Each Party included in Annex I [or acting under Article 10] shall have in place, [no later than one year prior to the start of the first budget period,] a national system for the estimation of anthropogenic emissions by sources and removals by sinks of all greenhouse gases not controlled by the Montreal Protocol. Guidelines for such national systems, which shall incorporate the methodologies specified in paragraph 2 below, shall be decided upon by the Meeting of the Parties at its first session.

2. Methodologies for estimating anthropogenic emissions by sources and removals by sinks of all greenhouse gases not controlled by the Montreal Protocol shall be those accepted by the Intergovernmental Panel on Climate Change and agreed upon by the Conference of the Parties to the Convention at its third session. Where such methodologies are not used, appropriate adjustments shall be applied according to methodologies agreed upon by the Meeting of the Parties at its first session. Based on the work of, *inter alia*, the Intergovernmental Panel on Climate Change and advice provided by the Subsidiary Body for Scientific and Technological Advice, the Meeting of the Parties shall regularly review and, as appropriate, revise such methodologies and adjustments, taking fully into account any relevant decisions by the Conference of the Parties to the Convention. Any revision to methodologies or adjustments shall only be used for the purposes of ascertaining compliance with commitments under Article 3 in the case of those commitments that are adopted subsequent to that revision [, unless otherwise decided by the Meeting of the Parties].

[3. The global warming potentials used to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks of greenhouse gases not controlled by the Montreal Protocol listed in Annex A shall be those accepted by the Intergovernmental Panel on Climate Change and agreed upon by the Conference of the Parties to the Convention at its third session. Based on the work of, *inter alia*, the Intergovernmental Panel on Climate Change and advice provided by the Subsidiary Body for Scientific and Technological Advice, the Meeting of the Parties shall regularly review and, as appropriate, revise the global warming potential of each such greenhouse gas, taking fully into account any relevant decisions by the Conference of the Parties to the Convention. Any revision to a global warming potential shall only apply to those commitments under Article 3 that are adopted subsequent to that revision [, unless otherwise decided by the Meeting of the Parties].]

⁶ The Alliance of Small Island States (AOSIS) has indicated that it would require further consultations on this Article, pending the elaboration of the term “net” under Article 3.1.

[Article 6⁷

 - (b) Emissions trading shall be supplemental to domestic policies and measures [, which should provide the main means] [for the purposes] of meeting commitments under Article 3; and
 - (c) A Party whose emissions are in excess of its emissions budget in any budget period may acquire, but may not transfer, emissions allowed.
4. The Meeting of the Parties shall, at its first session or as soon as practicable thereafter, decide upon modalities, rules and guidelines for emissions trading, as provided for in paragraph 1 above, including methodologies for verification and reporting.
5. If a question of a Party's implementation of the requirements of Articles [2, 3,] 5 or 8 is identified in accordance with the provisions of Article 9, transfers and acquisitions of emissions allowed may continue to be made, provided that any such emissions allowed may not be used by any Party to meet its obligations under Article 3 until any issue of compliance is resolved. If a question of a Party's implementation of paragraph 3(c) above is identified in accordance with the provisions of Article 9, the provisions of this paragraph shall apply only to transfers of emissions allowed by that Party.]

 - [(e) Joint implementation projects can be undertaken by two or more Parties;]
 - (f) Joint implementation projects shall be supplemental to domestic policies and measures [, which should provide the main means of meeting commitments under Article 3];

⁸ The Group of 77 and China have requested the deletion of this Article. Other Parties, including the United States and the European Community and its member States, have indicated that they would require further consultations on this Article.

(g) Joint implementation projects shall be assessed on a project basis. Credits shall be calculated and allocated on an annual basis. They shall be subject to stringent emission reduction [or removal] verification and accountability methodologies. For each project, a baseline shall be established, against which the net environmental benefits of greenhouse gas emission mitigation and reduction achieved by the joint implementation project can be compared; and

(h) Parties shall report on joint implementation projects in their national communications using guidelines to be adopted by the Meeting of the Parties at its first session and periodically reviewed thereafter.

If a decision is taken by the Conference of the Parties to the Convention at the conclusion of the pilot phase of activities implemented jointly, in accordance with decision 5/CP.1 of the Conference of the Parties to the Convention at its first session, to allow joint implementation with Parties not included in Annex I, then Parties included in Annex I [or acting under Article 10] may, jointly with other Parties, undertake projects aimed at limiting or reducing anthropogenic emissions of greenhouse gases listed in Annex A in any sector of the economy, in conformity with the rules of this Article and the decisions adopted for this purpose by the Meeting of the Parties.]

7. If a question of a Party's implementation of the requirements of this Article is identified in accordance with the provisions of Article 9, transfers and acquisitions of emission credits may continue to be made after the question has been identified, provided that any such credits may not be used by any Party to meet its obligations under Article 3 until any issue of compliance is resolved.]

Article 8

[Annex B²²

1. The process of establishing quantified emission limitation and reduction objectives for each Party subject to Article 3.2 shall take into account the differences in starting points and approaches, economic structures and resource bases, the need to maintain strong and sustainable growth, available technologies and other individual circumstances, as well as the need for equitable and appropriate contributions by each of these Parties to the global effort. To this effect the differences in the following factors, fully substantiated by readily available official data, shall be taken into account, as appropriate, in the case of each Party:

- (a) Carbon dioxide equivalent emissions per capita of the greenhouse gases listed in Annex A;
- (b) Carbon dioxide equivalent emissions per unit of gross domestic product of the greenhouse gases listed in Annex A;
- (c) Gross domestic product per capita;
- (d) Gross domestic product per capita growth;
- (e) Effective emissions in a given time period, defined as the increase in global mean surface temperature at the end of the period, as determined by an agreed climate change model, resulting from both the net anthropogenic emissions of an agreed set of greenhouse gases in each year of that time period and from the initial concentrations of those greenhouse gases at the beginning of the period;
- (f) Projected population growth;
- (g) Emission intensity of gross domestic product;
- (h) Emission intensity of exports;
- (i) Fossil fuel intensity of exports; and
- (j) Share of renewable energy in energy supply.

2. In addressing national circumstances in their communications, Parties shall include data relating to the above factors, as appropriate.]
