Topic(s)

Adaptation, LULUCF (land use, land-use change and forestry)

DESCRIPTION

Each year, UN forest day celebrates and raises awareness of the importance of forest by organizing broad range of events, mainly for enhancing knowledge about the significant role of forests in Adaptation; and Mitigation; efforts.

In conjunction with that this webinar highlights the significant role forests play for the health of people, animals, and the environment.

It also highlights the Future Policy Gold Award Winner Rwanda' s Forest Policy.

It will also hear about the Great Green Wall for the Sahara and the Sahel Initiative, the most ambitious climate-change Adaptation; and Mitigation; response under implementation worldwide.

The webinar is part of the UN Decade on Ecosystem Restoration, which aims to accelerate action for the protection and restoration of ecosystems all around the world, for the benefit of people and nature.
