## DESCRIPTION

This high-level virtual event fostered discussion of the evidence of nature-based solutions (NbS) to provide long-term social, ecological and economic benefits.

The event explored the systemic barriers for adoption of NbS such as knowledge and financial gaps as well as the need to require capacity at all levels in government and private sector, down to the action level where the capacity gap prevails.

The outcome of the event was a practical understanding of the multiple advantages of NbS, including climate Mitigation; and Adaptation; as well as ecological, social, and economic benefit
