## DESCRIPTION

This course Principles of Sustainable Finance explains how the financial sector can be mobilized to counter this.

Using finance to achieve social goals we can divert the planet and its economy from its current path to a world that is sustainable for all.

Throughout this course, you will learn about the UN Sustainable Development Goals, how social and environmental factors should not be regarded as externalities, you will learn more about sustainable banking and asset management, about effective engagement, sustainable scenario analysis and long-term value creation.

At the end of this course, you will understand how sustainable finance can be used as a tool to steer the sustainability transition.
