DESCRIPTION

You will be able to learn from this course:

1.

Understand and explain the world's most pressing problems with a specific focus on poverty & inequality, ecosystem degradation and biodiversity loss, and climate change.

2.

Critically analyze the Sustainable Development Goals (SDGs) and their relationship to the world's most pressing problems.

3.

Use frameworks and evidence necessary to develop solutions.

4.

Assess relevant solutions that would help realize the SDGs and at the same time solve the pressing problems.

5.

Apply skills learned to implement solutions.
