Access

Topic(s)

Global climate action (GCA)

DESCRIPTION

The Climate Action Aggregation Tool (CAAT) explains the step-by-step process laid out in the ICAT Non-State and Subnational Action Guide and was developed to support government experts, analysts and policymakers to identify, quantify and aggregate the impact of non-state and subnational actions.

As a result, they can be integrated into mitigation targets, projections and scenarios in support of policy development, policy evaluation and target-setting.
