DESCRIPTION

Within countries, various policy processes have been established to outline individual commitments and strategies for meeting the objectives therein.

These include strategies aimed at achieving the SDGs; National Adaptation Plans (NAPs) and Nationally Determined Contributions (NDCs) under the Paris Agreement; and Disaster Risk Reduction (DRR) strategies under the Sendai Framework.

These series of alignment briefs support the process of aligning these different processes, which in turn can increase coherence, efficiency and effectiveness towards development outcomes that are resilient and sustainable.
