

# Uganda's Climate Action MRV Tool (SCALA)

## Providing Institution(s)

Food and Agriculture Organization of the United Nations (FAO), United Nations Development Programme (UNDP)

## RESOURCE LINK

Access

## Topic(s)

Enhanced Transparency Framework (ETF)

## DESCRIPTION

Uganda developed an integrated Monitoring, Reporting and Verification (MRV) Tool that is a user-friendly web-based platform hosted by the Ministry of Water and Environment.

The purpose of this MRV Tool is to enhance data collection, reporting and tracking five components which include the reporting at the national level for developing climate change reports, such as the annual NDC report on how Uganda's targets have been achieved and the Biannual Transparency Report (BTR).

The Tool will ultimately enhance transparency at the ministerial level and help streamline their work.

## Geographical reach

National, Africa

## Target level of capacity building

Institutional
