Environment and Energy

RESOURCE LINK

Access

Topic(s)

Energy, Just Transition

DESCRIPTION

The Just Transitions Toolbox for Coal Regions helps stakeholders working on a just energy transition find resources to build capacity at the individual, regional, and institutional levels.

Rather than strict recommendations, this hyperlinked pdf tool provides global examples of strengths and drawbacks of current transition practices that stakeholders can apply to projects in their own region.

It includes five sections with information on strategies, governance, energy, industry and employment.
