DESCRIPTION

NDC preparation and implementation in EaP countries is a report that highlights the key processes and outcomes of the EU4Climate Project, which assists governments in the six Eastern Partnership countries— Armenia, Azerbaijan, Belarus, Georgia, the Republic of Moldova and Ukraine—to take action against climate change.

Specifically, the report presents case studies of EU's support for these countries in implementing the Paris Climate Agreement and in improving climate policies and legislation, with an ambition of limiting climate change impact on citizens' lives and making them more resilient to it.
