DESCRIPTION

Enhance resilience and adaptive capacity to climate change for selected communities in various counties in Kenya in order to increase food security and environmental management.

The programme presents five components:

Component 1: Enhancing Climate Change resilience for improved food security in selected Counties.

Component 2: Improving climate resilient water management systems to enhance food security in selected Counties in Kenya.

Component 3: Increasing resilience to the effects of rise in sea level and shoreline changes through Integrated Shoreline and Mangrove Ecosystem Management in the Coastal region of Kenya.

Component 4: Disaster risk reduction and increasing preparedness among targeted vulnerable communities.

Component 5: Strengthening institutional capacity and knowledge management on climate change adaptation.
