## DESCRIPTION

The Climate Helpdesk provides targeted technical assistance to developing countries, government agencies and other members to advance ambitious climate action.

It is a global advisory network providing rapid, high quality, short-term technical assistance for developing countries.

The Climate Helpdesk is a joint service offered by two global initiatives: LEDS GP and the Partnership on Transparency in the Paris Agreement (PATPA).

The Secretariat of the Climate Helpdesk is hosted by the GIZ Support Project for the Implementation of the Paris Agreement (SPA).
