

## **Nationally appropriate mitigation commitments or actions by developed country Parties (Agenda item 3(b)(i))**

### **Informal note**

*In progressing their work, Parties may wish to further elaborate the elements and options contained in the bullet points below, add to them, or remove from them, as appropriate; Parties may also wish to consider the questions below;*

#### ***Framing elements***

- Reference to relevant decisions
- Acknowledgment of targets, and associated assumptions and conditions
- Acknowledgment of the role of biennial reports and international assessment and review
- Acknowledgment of the value of ex ante information
- Acknowledgment of the need to elaborate rigorous, robust and transparent approaches to measure progress towards achievement of targets
- Other references as needed

#### ***On the economy-wide emission reduction targets and their implementation***

- Any further guidance for the Parties for the implementation of the targets as a basis for action until 2020?

#### ***On measuring progress towards achieving the targets***

- Other issues in relation to measuring the progress? Common approaches, that need to be taken forward? If so, by which bodies?
- Options for accounting and reporting tools that can help compare mitigation efforts?

#### ***On mitigation ambition***

- Encouraging developed country Parties to increase the ambition of their targets?
- Enabling the understanding and enhancing the comparability of mitigation efforts by developed country Parties?

#### ***On other issues***

- Whether additional work may be needed beyond COP 18? And if so, under which body?
