

Intervention made by Malawi on behalf of the Least Developed Countries, 4 June 2014, 10 - 1pm

Agenda item 12: Capacity building

a) Capacity-building under the Convention Capacity-building under the Kyoto Protocol.

Mr. Chair, capacity building plays an important role for LDCs, to enable our countries to implement effectively the provisions of the Convention and the Kyoto Protocol. Our Group is of the view that the work programme of the capacity building forum that was due in an earlier session has to be formalized as soon as possible. Let me also highlight that for the effective implementation of the activities of the work programme, there should be assurance of financial support from developed countries. And the support should be provided to developing countries, particularly LDCs, through appropriate channels including the provision of direct access, so that it reaches to target groups effectively.

I thank you Mr Chairman.
