

Proposed support/work related to Action Area 4 on non-economic loss and damage

4a) Raise awareness of the nature and extent of non-economic losses and of how to integrate measures to reduce the risk of non-economic losses in comprehensive approaches to addressing loss and damage associated with the adverse effects of climate change

Proposed activities:

- Raise awareness among wider research community and public through website on non-economic loss and damage (www.climate-neld.com) -> specifically requested information can be included
- Raise awareness of non-economic loss and damage among wider public through creation of repository of case studies on non-economic loss and damage -> share on website, including multi-media formats such as videos and photo-films
- Raise awareness among research community through dissemination of information on non-economic loss and damage in relevant networks -> send main research questions to research mailing lists and platforms
- Pool existing information / generate clearer understanding of good practice in integrating non-economic loss and damage in decision-making processes -> write report / publish results on website (provided funding available)

4b) Establish an expert group to develop inputs and recommendations to enhance data on and knowledge of reducing the risk of and addressing non-economic losses, including how to factor these into the planning and elaboration of measures to address loss and damage associated with the adverse effects of climate change

Proposed activities:

- Coordinate between WIM Excom and participants at the Expert Workshop on Non-Economic Loss and Damage, held at German Development Institute 26&27 August 2015 ("NELD network")
- Organize workshop on good practice in including non-economic loss and damage in decision-making and planning processes (provided funding available)
