Suggestions from the breakout group on the side event at COP22

Background
- Include a reference to the SCF 2016 Forum
- Include the entire Action Area 7 and its activities

Scope and objectives
- Look beyond insurance financial instruments; take the impact as a starting point (e.g. SLR, desertification, ocean acidification, etc.)
- Raise awareness of the outcomes of the SCF 2016 Forum
- Identify gaps, challenges, constraints (e.g. based on SCF Forum ppts and report backs, available online)
- How bilateral and multilateral institutions incorporate climate risk into investments (Action Area 7, activity (a))
- Innovative financial instruments and tools (e.g. combination/sequencing public and private finance; performance-based budgeting)
- Encourage collaboration between experts on SOEs and experts on financial instruments (before the side event)?
- Case studies (e.g. ???)
- Outline the scope of the SCF 2016 Forum and what was not covered (through a poster/presentation)

Format *(90 mins)*
- Short presentation, followed by roundtable/brainstorming session around a set of questions (to allow space for discussion)
- Report back of outcomes of the SCF Forum and a snapshot of the gaps → brainstorming session
- Pick three different examples of types of impacts and dedicate 30 minutes to each
- Break out into sub-groups (challenges: right audience/time and space constraints)
- Panel to answer questions: each panelist to come up a case study as a background document made available online prior to side event

Potential speakers
- *Challenge of identifying speakers on innovative financial instrument and tools*
  - Expert from different backgrounds (financial/quasi-financial, multilateral institutions) to brainstorm on a particular SOEs
  - Delegates from ministries of finance
  - Bilateral and multilateral institutions; research on community
- Experts who made submissions on AA7/those who participated in SCF 2016 Forum
- Extreme Climate Facility/ARC

Timelines: Time constraints (1 month left to finalize concept note; identify and invite speakers)

Way forward: Invite comments, suggestions, ideas in relation to the side event (to Orville or secretariat)
