

Action Area 2: Comprehensive risk management approaches

(16:10-17:30, 28 April 2016)

Facilitator:

Rapporteur:

Action Area 2

Enhance the understanding of, and promote, comprehensive risk management approaches (assessment, reduction, transfer, retention), including social protection instruments and transformational approaches, in building long-term resilience of countries, vulnerable populations and communities

Activity (a)

Identify tools, technologies, good practices and lessons learned, including with respect to policies and data standards, instruments such as insurance and social protection, and transformational approaches, to facilitate comprehensive risk management

Activity (b)

Identify gaps and identify or develop methodologies to be used by national governments to enhance knowledge and understanding of comprehensive risk management approaches, including issues related to finance, data, technology, regulatory environments and capacity-building, which may feed into NAPs and other relevant processes, as appropriate

Activity (c)

Engage United Nations agencies, multilateral financial institutions, bilateral channels and the private sector to identify how to enhance the implementation of comprehensive risk management approaches related to addressing loss and damage associated with the adverse effects of climate change

Activity (d)

Establish a technical expert panel or group, extending invitations to relevant bodies under the Convention and relevant United Nations organizations, the private sector, expert bodies and relevant initiatives that could provide technical support and guidance on comprehensive risk management and transformational approaches (which could include issues related to action areas 5 and 7 of this workplan)

Tasks for the working group

- Finalize the ToRs for a technical expert panel or group in the context of activity (d).
- Develop guidance for the secretariat to undertake initial work in the context of activity (a).
