

Mr. Hussein Alfa Nafu
Ms. Outi Honkatukia
Co-Chairs of the Standing Committee on Finance

Date: 14 October 2015

Reference: YN/MNK/cma

Dear Mr. Nafu, Dear Ms. Honkatukia,

On behalf of the Executive Committee of the Warsaw International Mechanism for Loss and Damage associated with Climate Change Impacts (hereinafter referred to as the Executive Committee) and in our capacity as its Co-Chairs, we are pleased to inform you that the Executive Committee held its first meeting from 24 to 26 September 2015, and that we have successfully launched the implementation of our two-year workplan.

In this initial communication, we would like to present, for the consideration by the Standing Committee on Finance, opportunities to enhance coherence between the efforts of our two Committees. Please see Annexes I and II to this letter for invitations on specific areas of collaboration.

The Conference of the Parties (COP), at its nineteenth session, established the Warsaw International Mechanism to address loss and damage associated with the adverse effects of climate change through its three main functions: enhancing knowledge and understanding of comprehensive risk management approaches; strengthening dialogue, coordination, coherence and synergies among relevant stakeholders; and enhancing action and support, including finance, technology and capacity building. The Executive Committee is mandated to guide the implementation of these functions. The COP, at its twentieth session, approved an initial two-year workplan of the Executive Committee.

The Executive Committee recognizes that the work areas of various constituted bodies under the UNFCCC process are assisting Parties in various ways to address loss and damage associated with the adverse effects of climate change, in line with provisions contained in decisions 3/CP.18 and 2/CP.19 and in our two-year workplan. Therefore, while we are writing to you regarding a specific activity within our workplan, we, as a newly constituted body under the Convention, would like to take this opportunity to convey our interest in establishing a channel of communication with the Standing Committee on Finance with a view to exploring opportunities for enhancing synergies and developing ongoing collaboration between our two Committees.

The Executive Committee looks forward to hearing from you as soon as practical, whether and how your Committee intends to respond to this request. We are happy to answer any questions you may have as you consider this invitation.

Sincerely yours,

(Signed by)

Pepetua Latasi and Shereen D'Souza
Co-Chairs of the Executive Committee

Annexes

Annex 1: Invitation in the context of Action Area 1 of the workplan of the Executive Committee

Annex 2: Invitation in the context of Action Area 7 of the workplan of the Executive Committee

Annex 3: Results of preliminary mapping of mandate/workplan of relevant bodies

Annex 4: Results of preliminary mapping of knowledge products of relevant bodies

Useful links:

- <Two-year workplan of the Executive Committee>.
- <Decision 2/CP.19 on the Warsaw International Mechanism for Loss and Damage associated with Climate Change Impacts>.
- <Decision 3/CP.18 on approaches to address loss and damage associated with climate change impacts>.

Annex I

Action Area 1 of the workplan focuses on enhancing the understanding of how loss and damage associated with the adverse effects of climate change affect particularly vulnerable developing countries, segments of the population that are already vulnerable owing to geography, socioeconomic status, livelihoods, gender, age, indigenous or minority status or disability, and the ecosystems that they depend on, and of how the implementation of approaches to address loss and damage can benefit them.

To initiate this Action Area, the Executive Committee would like to invite the Standing Committee on Finance to consider making efforts to reduce and avert losses and damages among particularly vulnerable developing countries, vulnerable populations and the ecosystems that they depend on, as the Standing Committee on Finance undertakes its work, and to share the outcomes with the Executive Committee.

The expected result of this activity, as stated in the workplan approved by the COP, is that the consideration of particularly vulnerable developing countries, vulnerable populations and the ecosystems that they depend on becomes a cross-cutting topic, and becomes integrated across the relevant work under the Convention.

Accordingly, we would appreciate if you could provide the Executive Committee, in writing (e.g. a succinct narrative report) with:

1. How the Standing Committee on Finance envisages including in its work, specific and tangible ways to reducing or averting loss and damage in particularly vulnerable developing countries, vulnerable populations and the ecosystems that they depend on;
2. Information on specific action that the Standing Committee on Finance is taking in key areas relevant for work on loss and damage.

To assist you in responding to the above request, the secretariat has prepared a preliminary analysis of the mandates and work of some of the relevant bodies or processes under the Convention, which may have contributed and/or would contribute to, efforts on avoiding and reducing loss and damage associated with climate change impacts. Please see annexes III and IV to this letter. We hope that you would find this preliminary analysis useful.

Annex II

Action Area 7 of the workplan focuses on encouraging comprehensive risk management by the diffusion of information related to financial instruments and tools that address the risks of loss and damage associated with the adverse effects of climate change to facilitate finance in loss and damage situations in accordance with the policies of each developing country and region, taking into account the necessary national efforts to establish enabling environments.

Under this Action Area, the Executive Committee would like to invite the Standing Committee on Finance to:

1. Include information on financial instruments that address the risks of loss and damage associated with the adverse effects of climate change, in your next biennial assessment and overview of climate finance flows;¹
2. Dedicate your 2016 Forum to financial instruments to address the risk of loss and damage associated with the adverse effects of loss and damage.²

The expected results from these activities, as stated in the workplan approved by the COP, is improved understanding by public bilateral and multilateral institutions and funds, private financial institutions and developed and developing countries on the range of financial instruments and tools to enhance action and support, including finance, technology and capacity-building, to address loss and damage associated with the adverse effects of climate change.

In line with our mandate to complement, draw upon the work of and involve, as appropriate, existing bodies under the Convention, the Executive Committee stands ready to work with the Standing Committee on Finance in achieving these expected results from Action Area 7, including helping to compile the necessary data and any further action related to the aforementioned activities.

In relation to item 1 above, we would encourage you to take into account, including their strengths and limitations: comprehensive risk management capacity with risk pooling and transfer; catastrophe risk insurance; contingency finance; climate-themed bonds and their certification; catastrophe bonds; reserve funds; insurance; contingent debt; insurance-linked securities; and financing approaches to making development climate resilient, among other innovative financial instruments and tools.

In considering these instruments and tools, we would also encourage you to assess associated costs, benefits, effects on incentives to adapt, and risks attributable to utilizing these instruments and tools, including political ones. In making this assessment, we would like you to consider including examples of financial instruments and tools currently being employed to address loss and damage associated with the adverse effects of climate change, as well as an analysis of gaps in financial instruments and tools that address the risks of loss and damage.

The Executive Committee assures you of our close cooperation as your Committee advances its work on these two activities, including participating in any review process(es) of the draft biennial assessment before publication, as well as in any preparatory action required for the 2016 Forum.

¹ Action Area 7, activity (c) of the initial two-year workplan of the Executive Committee.

² Action Area 7, activity (e) of the initial two-year workplan of the Executive Committee.

Annex III: Preliminary mapping of relevant mandates and current activities included in the workplans of relevant constituted bodies and work programmes under the Convention against the Action Areas of the 2-year workplan of the Executive Committee of the Warsaw International Mechanism for Loss and Damage³

Action area 1: Enhance the understanding of how loss and damage associated with the adverse effects of climate change affect particularly vulnerable developing countries, segments of the population that are already vulnerable owing to geography, socioeconomic status, livelihoods, gender, age, indigenous or minority status or disability, and the ecosystems that they depend on, and of how the implementation of approaches to address loss and damage can benefit them	
AC	<p><i>Mandate</i></p> <ul style="list-style-type: none"> Strengthening, consolidating and enhancing the sharing of relevant information, knowledge, experience and good practices, at the local, national, regional and international levels, taking into account, as appropriate, traditional knowledge and practices (Decision 1/CP.16, paragraph 20 (b))
NWP	<p><i>Mandate</i></p> <ul style="list-style-type: none"> Address the knowledge needs arising from, inter alia, the Cancun Adaptation Framework and other relevant workstreams and bodies under the Convention and the knowledge needs identified by Parties (Decision 17/CP.19, paragraph 1) Development of knowledge products to improve the understanding and assessment of impacts, vulnerability and adaptation in response to needs identified by Parties (Decision 17/CP.19, paragraph 2, (c)) Activities under the Nairobi work programme should integrate gender issues, indigenous and traditional knowledge, and the role of and impacts on ecosystems (Decision 17/CP.19, paragraph 7) Make publicly available a compilation of good practices and tools and available data collection initiatives for the use of local, indigenous and traditional knowledge and practices for adaptation, for consideration at SBSTA 44 (June 2016), building on existing knowledge-sharing platforms, including the database on best practices and available tools for the use of indigenous and traditional knowledge and practices for adaptation (SBSTA 41 conclusions, paragraph 18 (a)) Consider, in relevant knowledge products under the Nairobi work programme, the importance of integrating gender-sensitive approaches and tools, and local, indigenous and traditional knowledge and practices into national adaptation plans, including by

³ This preliminary result of mapping is for information only and should not preempt the consideration of the invitation by the relevant bodies.

	involving holders of local, indigenous and traditional knowledge, as appropriate (SBSTA 41 conclusions, paragraph 18 (c))
LEG	<p>Activities (Two-year rolling work programme of the Least Developed Countries Expert Group for 2014–2015; Rolling work programme for 2015)</p> <ul style="list-style-type: none"> • Complete and disseminate an information paper on strengthening gender considerations in adaptation planning and implementation in the LDCs; • Develop and disseminate an information paper on strengthening considerations regarding vulnerable communities in adaptation planning and implementation in the LDCs.
Action area 2: Enhance the understanding of, and promote, comprehensive risk management approaches (assessment, reduction, transfer, retention), including social protection instruments and transformational approaches, in building long-term resilience of countries, vulnerable populations and communities	
AC	<p>Activities</p> <ul style="list-style-type: none"> • Convene an expert meeting, led by members of the Adaptation Committee, on promoting livelihood and economic diversification to build resilience in the context of planning, prioritizing and implementing adaptation actions (3-year workplan, activity 18)
NWP	<p>Mandate</p> <ul style="list-style-type: none"> • The programme of work comprises two thematic areas, each with several action-oriented sub-themes: (a) Impacts and vulnerability: (i) Promoting development and dissemination of methodologies and tools for impact and vulnerability assessments, such as rapid assessments and bottom-up approaches, including as they apply to sustainable development; (v) Promoting the availability of information on the socio-economic aspects of climate change and improving the integration of socio-economic information into impact and vulnerability assessments; (b) Adaptation planning, measures and actions: (i) Promoting the development and dissemination of methods and tools for assessment and improvement of adaptation planning, measures and actions, and integration with sustainable development (Decision 2/CP.11, paragraph 3)

CGE	<p><i>Mandate</i></p> <ul style="list-style-type: none">• The Consultative Group of Experts on National Communications from Parties not included in Annex I to the Convention (CGE) shall have the objective of improving the process of and preparation of national communications and biennial update reports by Parties not included in Annex I to the Convention (non-Annex I Parties) by providing technical advice and support to such Parties (Decision 19/CP.19, Annex, paragraph 1) <p><i>Activities</i></p> <ul style="list-style-type: none">• Update CGE training materials and translate them into other official UN languages: Update of vulnerability and adaptation (V&A) assessment training materials (Workplan for 2015)• Conduct regional hands-on training workshops on vulnerability and adaptation assessment (for Asia-Pacific and Eastern Europe; Latin America and the Caribbean; Africa) (by end of 2015) (Workplan for 2015-2018)
LEG	<p><i>Mandate</i></p> <ul style="list-style-type: none">• Provide technical guidance and support to the NAP process (Decision 5/CP.17, paragraph 13)• To provide technical guidance and advice on the identification of medium- and long-term adaptation needs, their integration into development planning and the implementation of identified adaptation activities (Decision 6/CP.16, paragraph 2)• Strengthening gender-related considerations and considerations regarding vulnerable communities within least developed country Parties (Decision 6/CP.16, paragraph 2) <p><i>Activities</i> (Two-year rolling work programme of the Least Developed Countries Expert Group for 2014–2015; Rolling work programme for 2015)</p> <ul style="list-style-type: none">• Develop and disseminate a publication presenting an overview of the process to formulate and implement NAPS and an overview of the guidelines for NAPs, including a glossary of commonly used terms and answers to frequently asked questions on NAPs, in English, French and Portuguese;• Develop materials for use by countries at the national level on awareness and training activities in the process to formulate and implement NAPs;• Respond to individual requests from Parties for technical guidance and support on the process to formulate and implement NAPs, including through the provision of comments and feedback on draft NAPs, and the sharing of experiences and lessons learned;

	<ul style="list-style-type: none"> • Organize the NAP Expo every year; • Continue to further develop NAP Central to serve as a universally accessible web-based central repository and hub for information pertinent to the process to formulate and implement NAPs; • Conduct regional training workshops on NAPs for the LDCs.
Action area 3: Enhance data on and knowledge of the risks of slow onset events and their impacts , and identify ways forward on approaches to address slow onset events associated with the adverse effects of climate change with specific focus on potential impacts, within countries and regions	
	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • <p><i>Activities</i></p> <ul style="list-style-type: none"> •
Action area 4: Enhance data on and knowledge of non-economic losses associated with the adverse effects of climate change and identify ways forward for reducing the risk of and addressing non-economic losses with specific focus on potential impacts within regions	
	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • <p><i>Activities</i></p> <ul style="list-style-type: none"> •
Action area 5: Enhance the understanding of the capacity and coordination needs with regard to preparing for, responding to and building resilience against loss and damage associated with extreme and slow onset events, including through recovery and rehabilitation	
Capacity-building	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • The COP requested the SBI to further enhance the monitoring and review of the effectiveness of capacity-building by organizing an annual in-session Durban Forum for in-depth discussion on capacity-building with the participation of Parties, representatives of the relevant bodies established under the Convention, and relevant experts and practitioners, with a view to sharing their experiences and exchanging ideas, best practices and lessons learned regarding the implementation of capacity-building activities (Decision 2/CP.17, paragraph 144)
Research and systematic	<ul style="list-style-type: none"> • The COP expresses its appreciation to the Global Climate Observing System for preparing the <i>Implementation Plan for the Global Observing System for Climate in Support of the UNFCCC</i> (hereinafter referred to as the implementation plan). The COP requests the secretariat of the Global Climate Observing System to provide information to the Subsidiary Body for Scientific and Technological Advice

observation	<p>at its twenty-third session (November–December 2005) and, as required, at subsequent sessions, on how the actions identified in the implementation plan are being implemented (Decision 5/CP.10, paragraphs 1 and 6)</p> <ul style="list-style-type: none"> • The SBSTA expressed its appreciation to CEOS for its update on progress made by space agencies providing global observations in their coordinated response to relevant needs of the Convention. It noted the importance of continuing and sustaining satellite observations on a long-term basis, and the role of CEOS in promoting full and open data sharing, in order to support the work under the Convention. It invited CEOS to provide, by SBSTA 41, an updated report on progress made by space agencies providing global observations in their coordinated response to relevant needs of the Convention (SBSTA 37 conclusions, paragraph 41) • The SBSTA also noted with appreciation the information provided by WMO on the developments regarding the implementation of the Global Framework for Climate Services (GFCS) and the outcome of the first session of the Intergovernmental Board on Climate Services (IBCS). The SBSTA invited WMO to provide, at SBSTA 41, information on the outcome of the second session of the IBCS, to be held in November 2014 (SBSTA 39 conclusions, paragraph 43) • The COP requests the Subsidiary Body for Scientific and Technological Advice to regularly consider research needs and systematic observation relating to the Convention in order to inform Parties about ongoing and planned activities of regional and international climate change research programmes, and to communicate Parties' views on research needs and priorities to the scientific community, as necessary (Decision 9/CP.11, paragraph 5).
<p>Action area 6: Enhance the understanding of and expertise on how the impacts of climate change are affecting patterns of migration, displacement and human mobility; and the application of such understanding and expertise</p>	
	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • <p><i>Activities</i></p> <ul style="list-style-type: none"> •
<p>Action area 7: Encourage comprehensive risk management by the diffusion of information related to financial instruments and tools that address the risks of loss and damage associated with the adverse effects of climate change to facilitate finance in loss and damage situations in accordance with the policies of each developing country and region, taking into account the necessary national efforts to establish enabling environments. These financial instruments and tools may include: comprehensive risk management capacity with risk pooling and transfer; catastrophe risk insurance; contingency finance; climate-themed bonds and their certification; catastrophe bonds; and financing approaches to making development climate resilient, among other innovative financial instruments and tools</p>	
AC	<i>Mandate</i>

	<ul style="list-style-type: none"> • Providing information and recommendations, drawing on adaptation good practices, for consideration by the COP when providing guidance on means to incentivize the implementation of adaptation actions, including finance, technology and capacity-building and other ways to enable climate-resilient development and reduce vulnerability, including to the operating entities of the financial mechanism of the Convention, as appropriate (Decision 2/CP.17, paragraph 20(d)) <p><i>Activity</i></p> <ul style="list-style-type: none"> • Prepare, in collaboration with the TEC, SCF and LEG, an input document with information and recommendations for further actions, drawing on results of the workshop and synthesis paper on means of implementation; other relevant work completed during 2013-2015; adaptation good practices; information communicated by Parties on their monitoring and review of adaptation actions, support provided and received, possible needs and gaps and other relevant information, including information communicated under the Convention; for consideration by the COP when providing guidance on means to incentivize the implementation of adaptation actions, including finance, technology and capacity-building, and other ways to enable climate-resilient development and reduce vulnerability (Elaboraton of activities included in the 3-year workplan, workstream on technical support and guidance to the Parties on means of implementation) • Convene an in-session side event at COP 21 to present recent work of the AC on means of implementation and to discuss technical challenges and best practices in the experience of developing countries in accessing means to incentivize the implementation of adaptation actions, including finance, technology and capacity-building and other ways to enable climate-resilient development and reduce vulnerability (Elaboraton of activities included in the 3-year workplan, workstream on technical support and guidance to the Parties on means of implementation)
CGE	<p><i>Activities</i></p> <ul style="list-style-type: none"> • Illustrative brochures on financial, technical and capacity-building resources (by 2016) (Workplan for 2015-2018)
LEG	<p><i>Activities</i></p> <ul style="list-style-type: none"> • Compile information on bilateral and multilateral sources of funding to support the implementation of national adaptation programmes of action (NAPAs) and the process to formulate and implement NAPs (to be posted on NAP Central) (Rolling work programme for 2015)
SCF	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • Organizing a forum for the communication and continued exchange of information among bodies and entities dealing with climate change finance in order to promote linkages and coherence (Decision 2/CP.17, paragraph 121 (a))

	<ul style="list-style-type: none"> • Preparing a biennial assessment, overview of climate finance flows, to include information on the geographical and thematic balance of such flows, drawing on available sources of information, including national communications and biennial reports of both developed and developing country Parties, information provided in the registry, information provided by Parties on assessments of their needs, reports prepared by the operating entities of the financial mechanism, and information available from other entities providing climate change finance (Decision 2/CP.17, paragraph 121 (f)) • The COP requested the SCF, in the context of the preparation of its biennial assessment and overview of climate finance flows, to consider ongoing technical work on operational definitions of climate finance, including private finance mobilized by public interventions, to assess how adaptation and mitigation needs can most effectively be met by climate finance, and to include the results in its annual report to the COP (Decision 3/CP.19, paragraph 11)⁴
	<p><i>Activities</i></p> <ul style="list-style-type: none"> • Preparation of the second biennial assessment and overview of climate finance flows for consideration by COP 22 (Workplan for 2013-2015, activity 1 (f)) • Preparation of the fourth forum of the SCF to be held in 2016.
<p>Work programme on long-term finance</p>	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • Secretariat to organize annual in-session workshops on long-term climate finance which, in 2015 and 2016, will focus on the issues of adaptation finance, needs for support to developing countries and cooperation on enhanced enabling environments and support for readiness activities (Decision 3/CP.19, paragraph 12) <p><i>Activities</i></p> <ul style="list-style-type: none"> • Preparation for the 2016 in-session workshop on long-term climate finance (Decision 3/CP.19, paragraph 12) • Preparation of a summary report on the in-session workshop for consideration by the COP and the high-level ministerial dialogue on climate finance (Decision 3/CP.19, paragraph 12)

⁴ Further mandates to the SCF in relation to its work on the biennial assessment and overview of climate finance flows are included in decisions 1/CP.18, paragraph 71; 5/CP.18, paragraph 11; 3/CP.19, paragraph 11 and 6/CP.20 paragraph 11.

Action area 8: Complement, draw upon the work of and involve, as appropriate, existing bodies and expert groups under the Convention, as well as relevant organizations and expert bodies outside the Convention at all levels, as the Executive Committee executes the above-mentioned elements of the workplan

AC	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • Providing technical support and guidance to the Parties, respecting the country-driven approach, with a view to facilitating the implementation of adaptation activities, including those listed in paragraphs 14 and 15 of decision 1/CP.16, where appropriate (Decision 1/CP.16, paragraph 20 (a)) • Promoting synergy and strengthening engagement with national, regional and international organizations, centres and networks, in order to enhance the implementation of adaptation actions, in particular in developing country Parties (Decision 1/CP.16, paragraph 20 (c)) • The COP requested the Adaptation Committee to engage and develop linkages through the Conference of the Parties with all adaptation-related work programmes, bodies and institutions under the Convention, including the Least Developed Countries Expert Group, the Consultative Group of Experts on National Communications from Parties not included in Annex I to the Convention, the Technology Executive Committee, the Nairobi work programme on impacts, vulnerability and adaptation to climate change, the work programme on loss and damage and the operating entities of the financial mechanism of the Convention, as appropriate (Decision 2/CP.17, paragraph 99) • The COP requested the Adaptation Committee to engage with, and draw on the expertise of, relevant institutions, organizations, frameworks, networks and centres outside of the Convention, including those at the intergovernmental, regional, national and, through them, subnational levels, where appropriate (Decision 2/CP.17, paragraph 100) <p><i>Activities</i></p> <ul style="list-style-type: none"> • Ongoing work of the AC's Task Force on national adaptation plans (NAP TF) (Workplan of the NAP TF 2014-2015)
NWP	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • Development of linkages with other relevant workstreams, including the national adaptation plan process, research and systematic observation and bodies under the Convention, including the Adaptation Committee, the Least Developed Countries Expert Group and the Technology Mechanism (Decision 17/CP.19, paragraph 2 (b))

	<ul style="list-style-type: none"> • The SBSTA concluded that the following actions to be undertaken by the secretariat under the guidance of the SBSTA Chair: (a) Enhancing collaboration with global and regional knowledge networks and Nairobi work programme partner organizations in order to strengthen the production and dissemination of knowledge on adaptation; and (b) Inviting regional centres and networks to serve as regional knowledge platforms for the implementation of the activities under the Nairobi work programme (SBSTA 40 conclusions, paragraph 18) • The SBSTA requested the secretariat to invite and engage regional centres and networks by SBSTA 44 (June 2016), for the regional centres and networks to use knowledge sharing modalities, as appropriate and subject to the availability of financial resources, to produce information by SBSTA 43 (December 2015) and to report the outcomes of the regional activities by SBSTA 44, on: (a) Tools and methods that are available and implemented for adaptation planning addressing the four issues of ecosystems, human settlements, water resources and health; (b) Good practices and lessons learned in relation to adaptation planning, including monitoring and evaluation, addressing the four issues of ecosystems, human settlements, water resources and health; (c) Good practices and lessons learned related to processes and structures for linking national and local adaptation planning) (SBSTA 40 conclusions, paragraph 26) • The SBSTA requested the secretariat, under the guidance of the Chair of the SBSTA, to prepare and communicate knowledge products, as appropriate, based on the outcomes from activities (submissions on (a) Available and implemented tools and methods for adaptation planning processes addressing the four issues of ecosystems, human settlements, water resources and health; (b) Good practices and lessons learned in relation to adaptation planning processes, including on monitoring and evaluation, addressing the four issues of ecosystems, human settlements, water resources and health; (c) Good practices and lessons learned related to processes and structures for linking national and local adaptation planning; case studies that highlight good practices and lessons learned; information produced by regional centers and networks) by SBSTA 45 (November–December 2016) (SBSTA 40 conclusions, paragraph 27)
CGE	<p><i>Activities</i></p> <ul style="list-style-type: none"> • Mapping of areas of collaboration and cooperation with other experts bodies and constituted bodies under the Convention: Identify possibilities for and develop collaboration and cooperation with other expert groups and constituted bodies under the Convention (Workplan for 2015-2018) • Mapping of areas of collaboration and cooperation with other global initiatives, IGOs and other relevant stakeholders: (Workplan for 2015-2018) • List of relevant channels available to enhance communication and outreach: Identify existing mechanisms and networks whereby non-Annex I Parties collaborate for the development of their National Communications and assess their potential as a tool to enhance communication and outreach between the CGE and its stakeholders (by 2015) (Workplan for 2015-2018)

	<ul style="list-style-type: none"> • Focused/targets communication products, such as brochure, pamphlets: Develop communication products targeting experts and global networks in non-Annex I Parties to disseminate ‘quick-win’ ideas and information on NCs and BURs, targeting national experts (Workplan for 2015-2018) • Online resource platform: Develop/update/maintain a web platform for CGE members to collaborate between sessions and meetings (Workplan for 2015-2018) • Enhanced outreach to wider group of stakeholders: Create a formal network of experts and practitioners involved in the process of and preparation of NCs and BURs, by region to serve as a vehicle for the dissemination of relevant information from the CGE to stakeholders (Workplan for 2015-2018)
LEG	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • The COP requested the Least Developed Countries Expert Group to invite the Adaptation Committee and other relevant bodies under the Convention to contribute to its work in support of the national adaptation plan process; and to report, as appropriate (Decision 5/CP.17, paragraph 17)
SCF	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • The COP called upon the Standing Committee on Finance to further enhance its linkages with the Subsidiary Body for Implementation and the thematic bodies of the Convention as mandated by Decision 2/CP.17, paragraph 121(b) (Decision 7/CP.19, paragraph 10)
TEC	<p><i>Mandate</i></p> <ul style="list-style-type: none"> • Seek cooperation with relevant international technology initiatives, stakeholders and organizations, and promote coherence and cooperation across technology activities, including activities under and outside of the Convention (Decision 1/CP.16, paragraph 121 (f)) <p><i>Activities</i></p> <ul style="list-style-type: none"> • Discuss strategic issues and possible activities that the TEC could undertake on matters relating to the roles of technology and the Technology Mechanism, in the medium- and long-term horizons, taking into account outcomes of the work of the Intergovernmental Panel on Climate Change, in collaboration with the CTCN, as required (Rolling plan 2014-2015, activity 6.1 – has been postponed to 2016) • Exchange views on emerging, future and cross-cutting issues relevant to technology development and transfer (Rolling plan 2014-2015, activity 6.2 – has been postponed to 2016)

Capacity-building	<p><i>Mandate</i></p> <ul style="list-style-type: none">• The COP decided that Durban Forum should include as inputs, inter alia, any capacity-building elements contained in the reports prepared since the most recent session of the Durban Forum by the relevant bodies established under the Convention (Decision 2/CP.17, paragraph 145)• The COP requested the secretariat to compile and synthesize the reports prepared since the most recent session of the Durban Forum by the relevant bodies established under the Convention (Decision 2/CP.17, paragraph 146)• The COP requested the secretariat to continue to compile and synthesize information on capacity-building activities, including lessons learned, provided by the relevant bodies established under the Convention (Decision 2/CP.17, paragraph 150)• The COP also requested the secretariat to prepare a summary report on the Durban Forum for consideration by the SBI (Decision 2/CP.17, paragraph 147)• The COP requested the SBI, in its consideration of the third and subsequent comprehensive reviews of the implementation of the framework for capacity-building in developing countries, to include, inter alia, the reports of relevant bodies established under the Convention as additional inputs to these reviews (Decision 2/CP.17, paragraph 151)• The COP encouraged the relevant bodies established under the Convention, including, inter alia, the Consultative Group of Experts on National Communications from Parties not included in Annex I to the Convention, the Least Developed Countries Expert Group and the Global Environment Facility as an operating entity of the financial mechanism, to continue to elaborate and carry out work on capacity-building in an integrated manner, as appropriate, within their respective mandates (Decision 2/CP.17, paragraph 152)
