

Submission by Kyrgyzstan

Views from Kyrgyzstan on potential future areas of work of the Nairobi work programme

As specified in the Decision 6/CP.17 of SBSTA, in which Parties and relevant organizations are invited to submit to the secretariat, by 17 September 2012, their views on potential future areas of work of the Nairobi work programme, on behalf of the Government of the State Agency on Environmental Protection and Forestry of the Kyrgyz it is proposed to establish an area of work on “mountains and climate change” in view of the special attention needed by mountain ecosystems to adapt to the effect of climate change. Mountains provide vital goods and services to more than half of the world’s population but they are fragile ecosystems that require specific protection and management.
