

Session 2 – Sharing experiences

Where have you seen the greatest value integrating local and ITK practices in climate change adaptation?

Your name:

Ammar Musmmar

Where, specifically, in the world did you see the greatest value from integrating local and ITK?

Europe

Which region?

Europe

When? In what year(s)?

2000

Who were the local and indigenous communities / ITK holders?

governments

What was the natural hazard and impact on communities?

desertification

Who were the adaptation practitioners?

NGO's

What processes were used for identifying and integrating local and ITK in adaptation?

workshops

In what phases of the adaptation process was local and ITK integrated?

Observation, Monitoring and Evaluation

At which level was local and ITK integrated in adaptation planning?

Sub-national regional level

Why was the integration of the local and ITK so valuable?

Why did you choose this story?
