

UNFCCC in-session workshop on climate modelling, scenarios and downscaling under the Nairobi work programme on impacts, vulnerability and adaptation to climate change

**Salon Schumann, Maritim Hotel, Bonn, Germany
10:00–13:00, 7 June, 2008**

Agenda

Chair: Ms. Helen Plume, Chair of the SBSTA

Welcome and introduction

- 10:00–10:15
- Ms. Helen Plume, Chair of the SBSTA

Development of regional/subregional climate scenarios and improvement of access to, and application of climate model outputs

10:15–12:00 **Opportunities for, and experiences in applying climate model outputs and downscaled data to construct regional/subregional climate scenarios**

- Presentation 1: Improving delivery of model outputs and related capacity building, Mr. Ghassem Asrar, World Climate Research Programme
- Presentation 2: Climate modeling and downscaling under the Nairobi work programme, Mr. Jose A. Marengo, Intergovernmental Panel on Climate Change
- Q&A

Options to fill the gaps (open discussion)

- Possible further activities in this area of work under the NWP and the UNFCCC process to bridge the gaps in the development of regional and subregional climate scenarios;
- Possible action by organizations/NWP partners to assist Parties in applying model outcomes and improving access.

Availability and applicability of climate model outputs and downscaled data for policy makers

12:00–13:00 **Open discussion**

- Framing presentation, Ms. Xianfu Lu, United Nations Development Programme
 - Practical steps to improve the relevance and use of climate model outputs and downscaled data to policy makers at all levels;
 - Practical steps to enhance the accessibility of relevant data to policy makers at all levels
