## Operational Model II

# Global Stocktake

- **Outline**
  - Objective of proposed approach
  - Guiding Features
  - Institutional Arrangements
  - Operationalisation of the phased approach
    - Thematic consideration
    - Phases
    - Inputs
    - Processes and modalities
    - Outputs
  - Conclusion

# Global Stocktake

- **Objective of proposed approach**

Article 14 of the Paris Agreement provides for a periodic global stocktake *"of the implementation of this Agreement to assess the collective progress towards achieving the purpose of this Agreement and its long-term goals."* This stocktake should be done in a **"comprehensive and facilitative manner, considering mitigation, adaptation and the means of implementation and support, and in the light of equity and the best available science"**.

# Global Stocktake

- **Guiding Features**

- Separation of technical assessment process from political decision-making process
  - Produce a factual report from the technical assessment
- Focused attention and adequate time given to each of the thematic areas in the Paris Agreement, with numerous sources of information for each
- Involvement of wide range of stakeholders
- Open, face-to-face dialogue
- Balanced approach – Chairing, content, consideration of thematic areas
- Flexible and practical operational modalities

# Global Stocktake

- **Institutional Arrangements**

**Joint SBSTA/SBI  
Contact Group**

```
graph TD; A[Joint SBSTA/SBI Contact Group] --- B[Technical Dialogue];
```

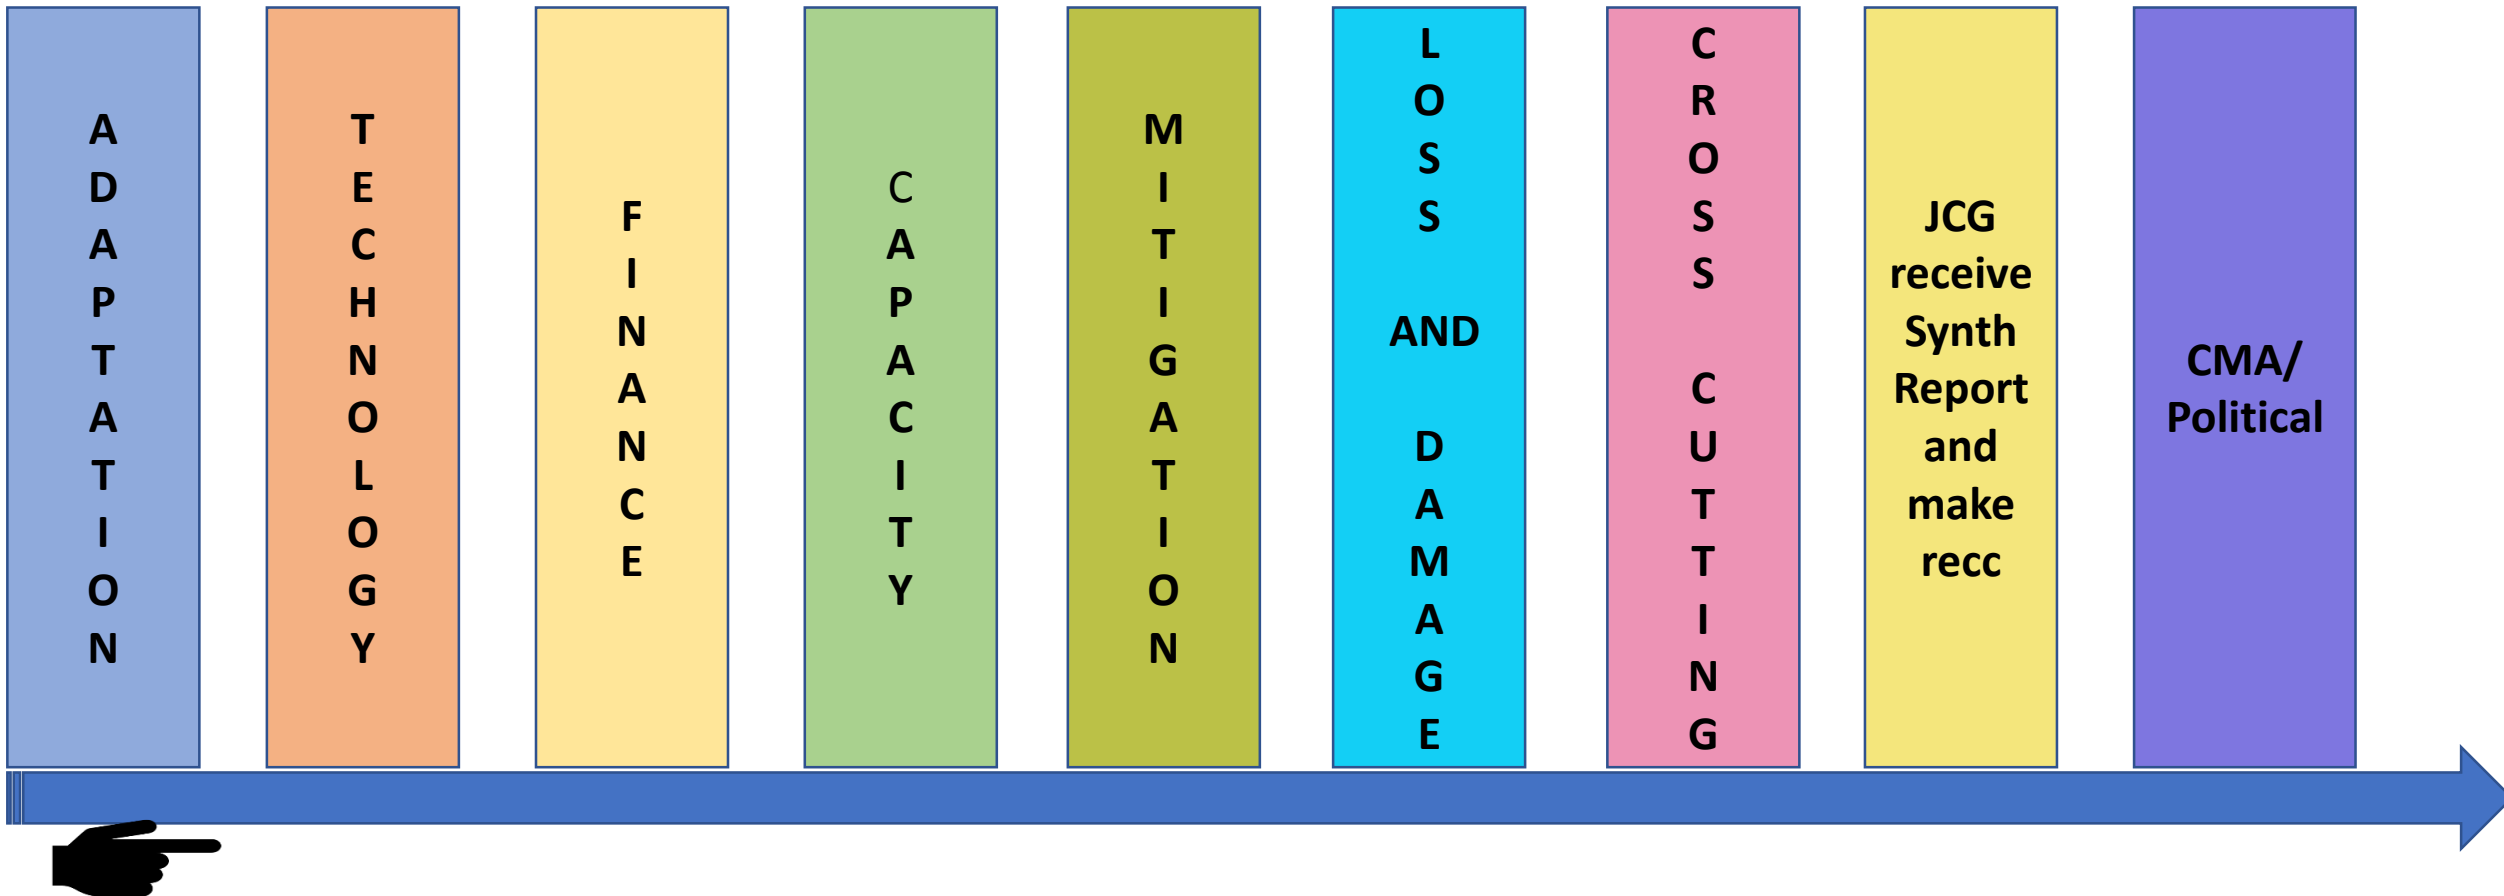

**Technical Dialogue**

- Oversight of process
- Guidance to Technical Dialogue
- Receive report from Technical Dialogue
- Make recommendations to CMA/Ministers

- 2 co-facilitators – from developed and developing countries
- Develop guiding questions
- Organise thematic events
- Decide on modalities as appropriate e.g. sourcing inputs, roundtable, workshop, expert input
- Prepare factual reports

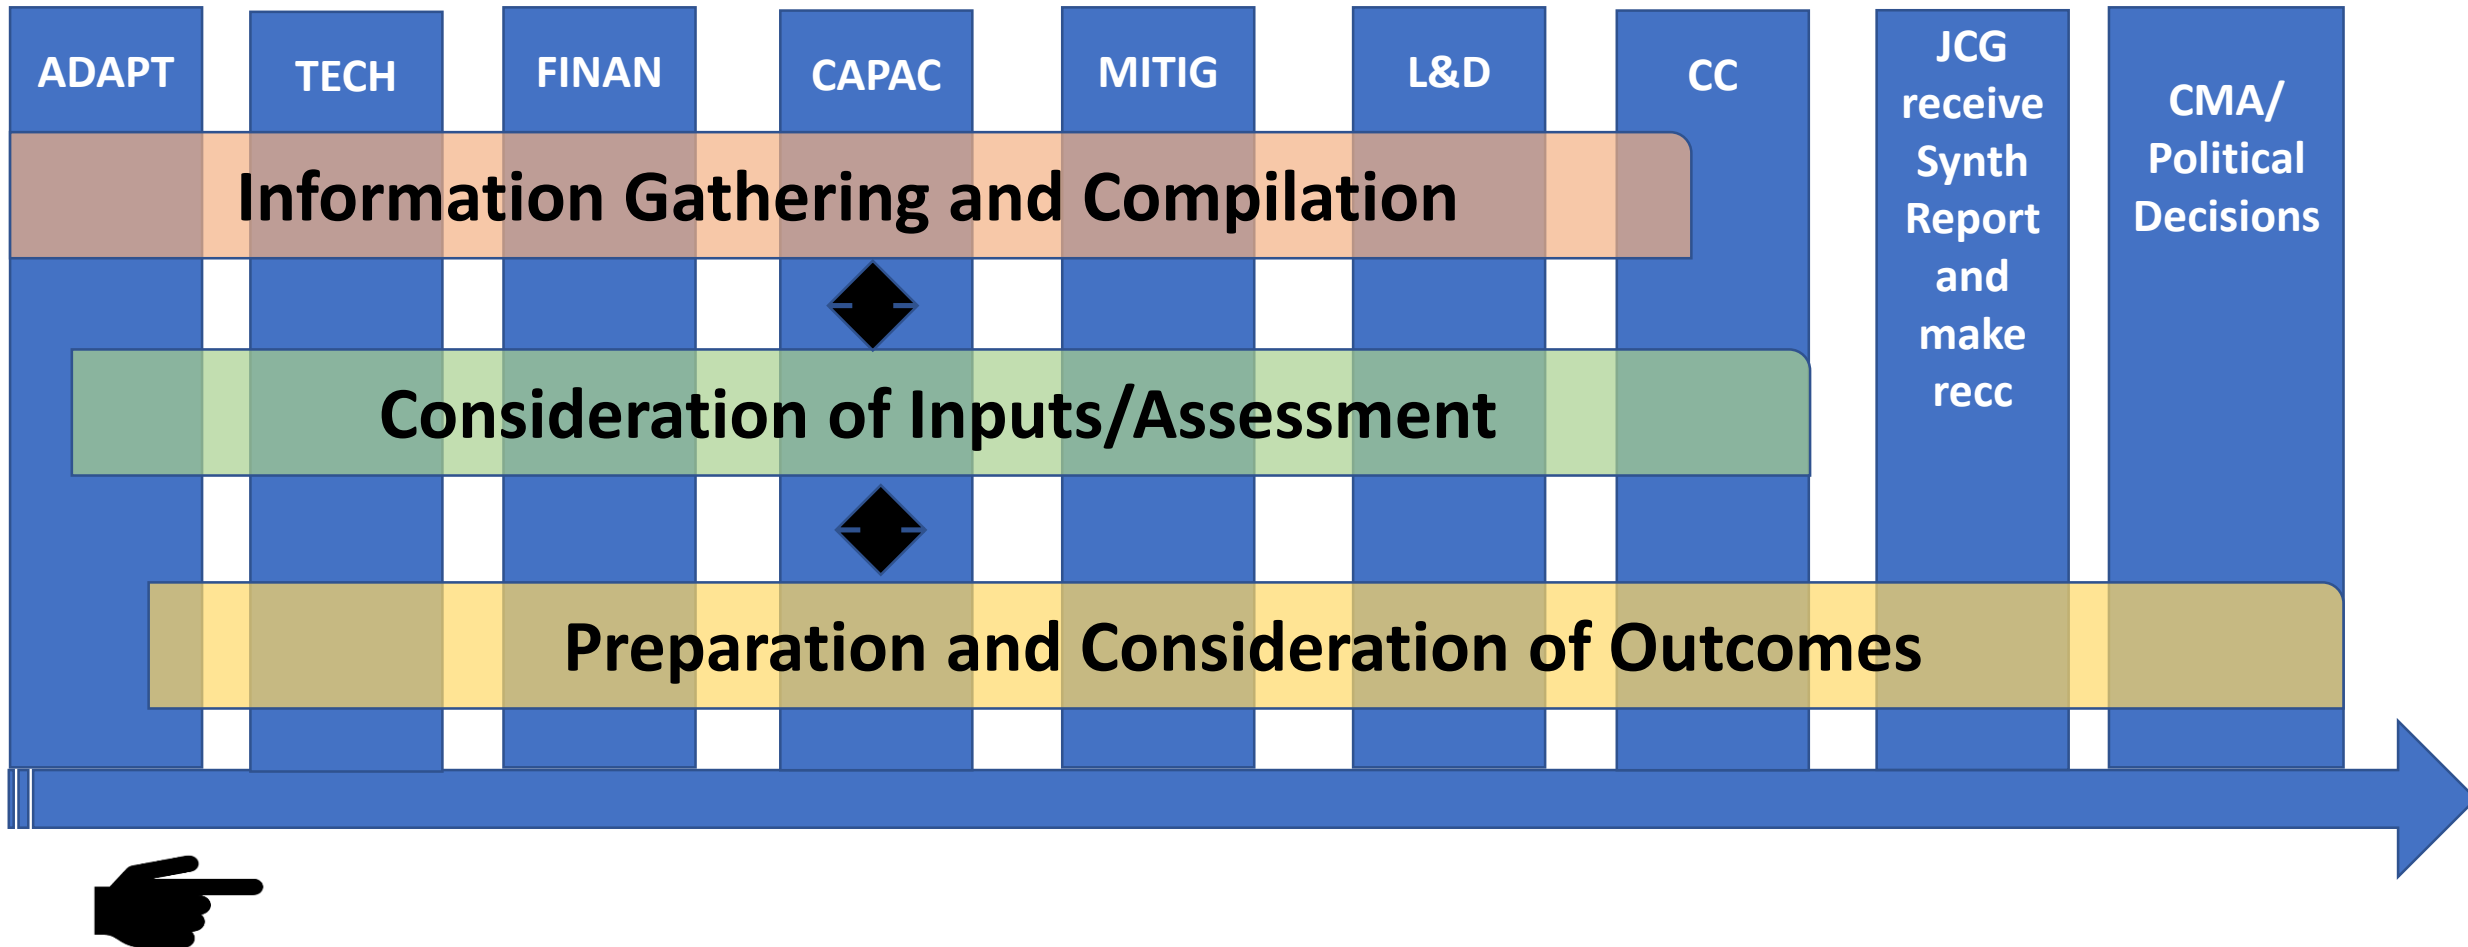

# Global Stocktake

- Operationalisation of the Phased Approach – thematic events

# Global Stocktake

- Operationalisation of the Phased Approach – phases

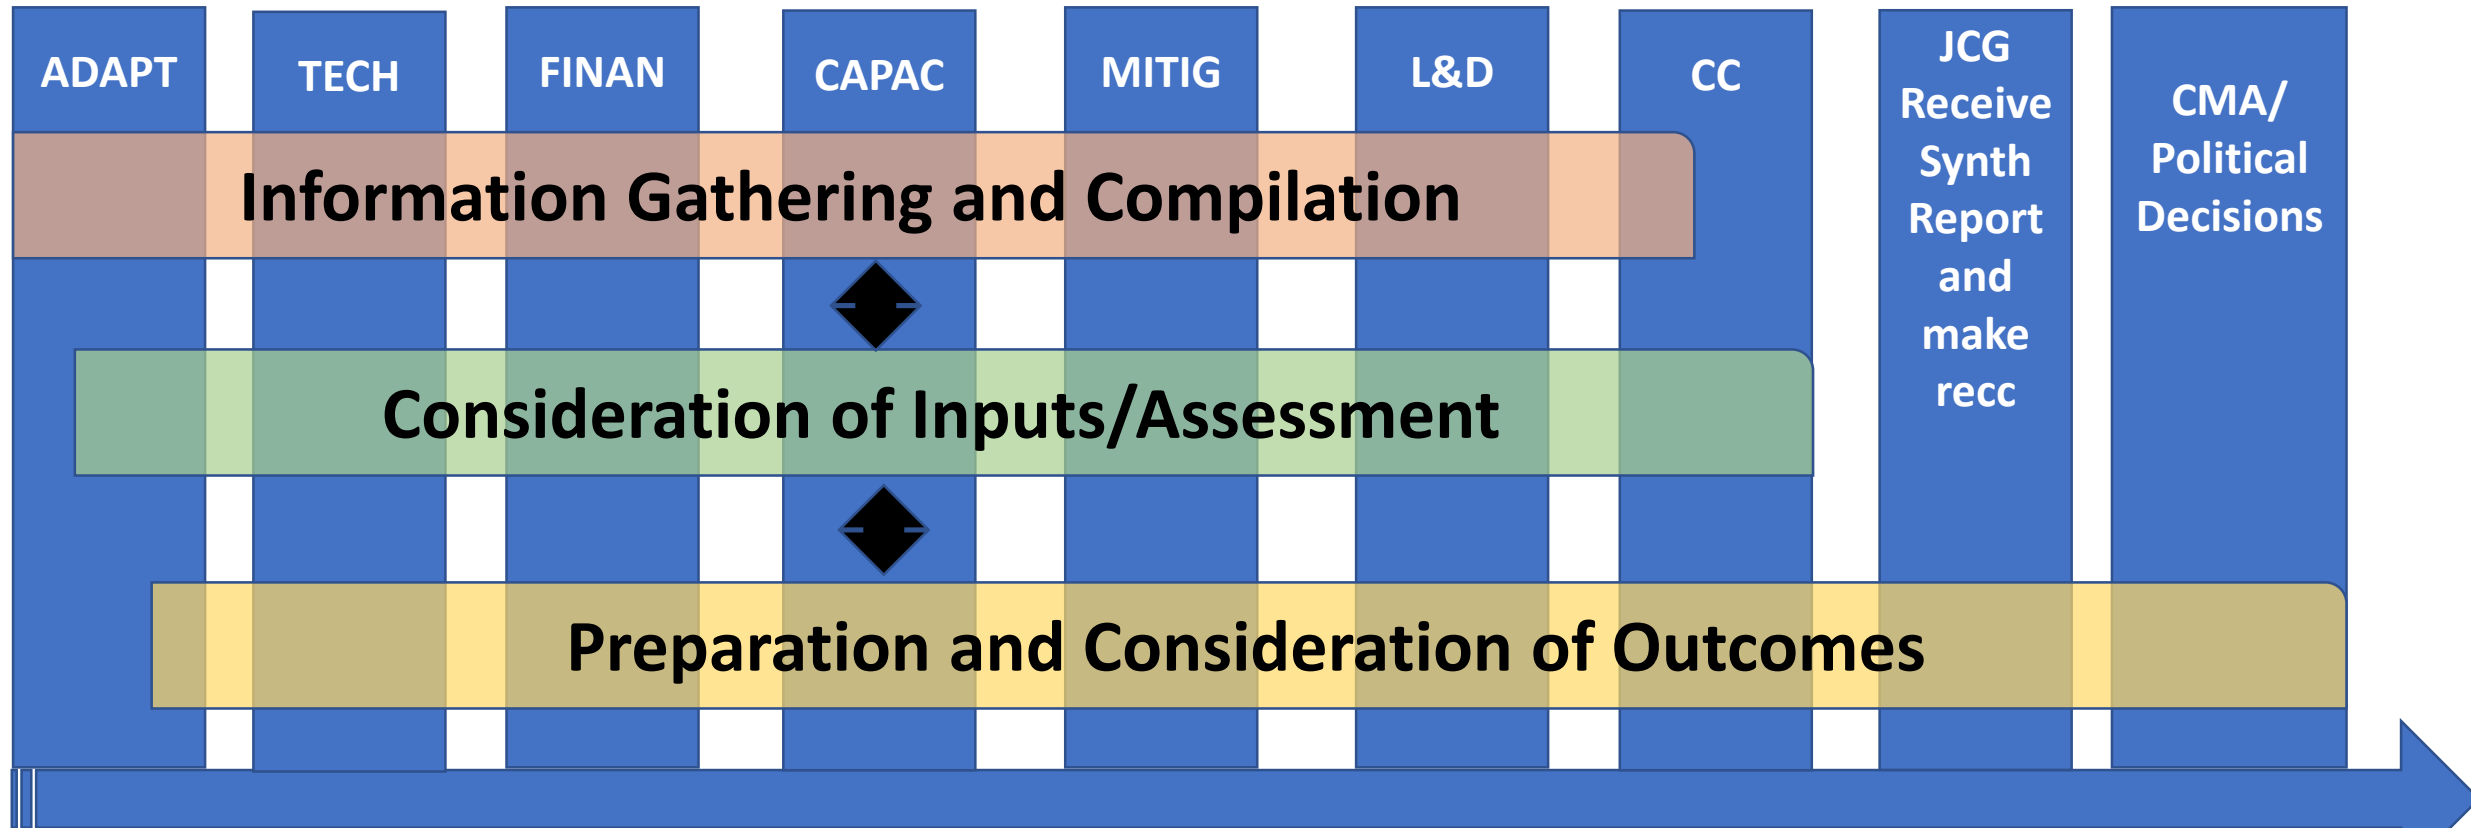

# Global Stocktake

- **Operationalisation of the Phased Approach – Key Characteristics**
  - **Information Gathering and Compilation**
    - Preparation of guiding questions by co-facilitators
    - Call for inputs from relevant sources ahead of the event
    - Transparency framework, submissions, technical papers, synthesis reports, expert analysis
    - Compilation of inputs
  - **Consideration of inputs/assessments**
    - Presentations and face-to-face discussions in relevant modalities e.g. roundtables, workshops
    - Opportunity could be provided for addressing identified gaps and for updating at later events
  - **Preparation and Consideration of Outcomes**
    - Preparation of report from each event by co-facilitators
    - Preparation of factual synthesis report by co-facilitators
    - JCG consideration of synthesis report at the end of the process ... goes to CMA for political consideration
    - Political inputs, including ministerial event

# Global Stocktake

- Operationalisation of the Phased Approach – phases

Launch in December 2021 with call for inputs into theme 1

JCG synthesis report after May SB in 2023

# Global Stocktake

- **Conclusion - Addressing Guiding Features**
  - Separation of technical assessment from political decision-making
    - Produce a factual report from the technical assessment
  - Focused attention and adequate time given to each of the thematic areas in the Paris Agreement, with numerous sources of information for each
  - Involvement of wide range of stakeholders
  - Open, face-to-face dialogue
  - Balanced approach – Chairing, content, consideration of thematic areas
  - Flexible and practical operational modalities
