

## TECHNICAL EXPERT MEETING ON ENERGY EFFICIENCY

ADP 2.4 10 – 14 MARCH 2014

Wednesday 12 March 2014, 15.00 – 16.30

Thursday 13 March 2014, 10.00 – 18.00

### Provisional programme

#### OPENING

- Opening remarks by the facilitator Mr. Jun ARIMA (Japan)

#### SESSION 1: POLICIES, PRACTICES AND TECHNOLOGY – GLOBAL STATE OF PLAY

- Expert panel on energy efficiency action  
*Government experts share experiences in capitalizing on energy efficiency potential, lessons learned, challenges and plans for further scaling up energy efficiency improvements*
- Global state of play and the landscape of opportunities  
*International Energy Agency: opportunities for energy efficiency to support climate goals.  
International Partnership on Energy Efficiency Cooperation: high impact partnerships for catalyzing energy efficiency investments for improvements*
- Realizing opportunities for action on energy efficiency: Interactive discussion among experts  
*Participants develop policy options, high impact actions and initiatives and how these can be realized and strengthened.*

#### SESSION 2: IMPLEMENTING ACTIONS: FINANCE, TECHNOLOGY AND CAPACITY-BUILDING

- Expert panel on implementing energy efficiency actions  
*Experts from international institutions share opportunities for mobilizing finance, technology and capacity-building to implement energy efficiency action, with a focus on success stories and their replication potential; opportunities; barriers and how they are being overcome: Sustainable Energy for All; Partnership for Sustainable Low Carbon Transport; C40 Cities – Climate Leadership Group; Global Environment Facility; European Bank for Reconstruction and Development; World Bank; United Nations Environment Programme.*
- Realizing opportunities for action on energy efficiency: Interactive discussion among experts  
*Participants develop options to bring action to fruition, mobilize finance, technology and capacity for delivery of high mitigation potential actions, and how to overcome barriers.*

#### SESSION 3: DISCUSSION ON THE WAY FORWARD

*Participants will be invited to discuss how to take forward the results of the technical expert meeting throughout the year to deliver energy efficiency outcomes and how Lima can further advance the work plan on enhancing mitigation ambition*

#### CLOSING

- Concluding remarks by facilitator
