Parties recognize that adaptation is a [global] challenge faced by all with local, subnational, national, regional and international dimensions, and that it is a key component of and contribution to the long-term global response to climate change to protect people, livelihoods and ecosystems[, taking into account the urgent and immediate needs of those developing countries that are particularly vulnerable].

2. **Option 1:** [Parties recognize that adaptation [will][may] be needed regardless of the level of mitigation reached [and that [greater aggregate levels of mitigation can reduce the need for additional adaptation efforts][the greater their collective mitigation efforts, the less adaptation is needed [in the long term]]][less adaptation will be needed if[, inter alia,] their collective mitigation efforts are greater]].]  
**Option 2:** [The [global goal][long-term vision] for adaptation shall be the basis for, inter alia:
  - (a) Assessment of the adequacy of support from developed country Parties<sup>[1]</sup> to developing country Parties<sup>[2]</sup> and a platform to undertake such an assessment through strengthened measurement, reporting, and verification of support;
  - (b) Recognition of the adaptation efforts of developing countries;
  - (c) Recognition of increased adaptation needs and associated costs in the light of mitigation efforts, taking into account that adaptation will be needed regardless of the level of mitigation reached, and also taking into account the relationship between aggregate mitigation ambition, associated climate change impacts and adaptation needs and cost, and recognizing there are limits to adaptation.]
**Option 3:** No text3. **Option 1:** Parties [acknowledge][X] that adaptation action should follow a country-driven, gender-responsive, participatory and fully transparent approach, [respecting [human rights][ the right to life][ the rights of people under occupation] and] taking into consideration vulnerable groups, communities and ecosystems, and should be based on and guided by the best available science and[, as appropriate,] traditional and indigenous [and local knowledge systems][[peoples knowledge] and [local] knowledge,] [taking into account relevant activity on adaptation of United Nations specialized organizations] with a view to integrating adaptation into relevant social, economic and environmental policies and actions, where appropriate.
