Subject: Ukraine Statement

Mr. Chair, Ukraine would like to thank all the parties for the effective and constructive work this week on complex issues of implications of review and adjustments, which is a part of agenda item 11a. At the same time, we want to register our disappointment that no chance was given to the Parties during this week to have a substantive discussion on the first part of the agenda item 11a namely Implications related to accounting and reporting issues. Due to the fact that NO time was allocated to discuss the issues on implications related to accounting and reporting issues, Parties did not have a chance to move forward on the substantive issues in the text and reach an agreement. We want to express our sincere hope, that effective time management, in accordance with relevant SBI conclusion, would provide Parties with appropriate time to have substantive discussion on draft texts and its annexes and facilitate the decision here in Lima, under CMP guidance, which would allow expedited operationalization of the second commitment period. I thank you Mr. Chair.

Ukraine Delegation
