

Hilary Hove

- Senior Policy Analyst in Climate Change International at Environment Canada and has worked on the international climate change negotiations for several years.
- Hilary serves on the CGE and is one of CGE's representatives to the Interim Executive Committee of the Warsaw International Mechanism on Loss and Damage.
- Prior to joining government, she was a project officer at the International Institute for Sustainable Development focused on nationally appropriate mitigation actions in developing countries.

**Consultative Group of Experts
on National Communications from Parties not included in Annex I to the Convention
(CGE)**

**STRENGTHENING INSTITUTIONAL
CAPACITY FOR REPORTING**

**3RD MEETING OF THE DURBAN FORUM - ENHANCEMENT AND/OR
CREATION OF AN ENABLING ENVIRONMENT
BONN, GERMANY, 12 JUNE 2014**

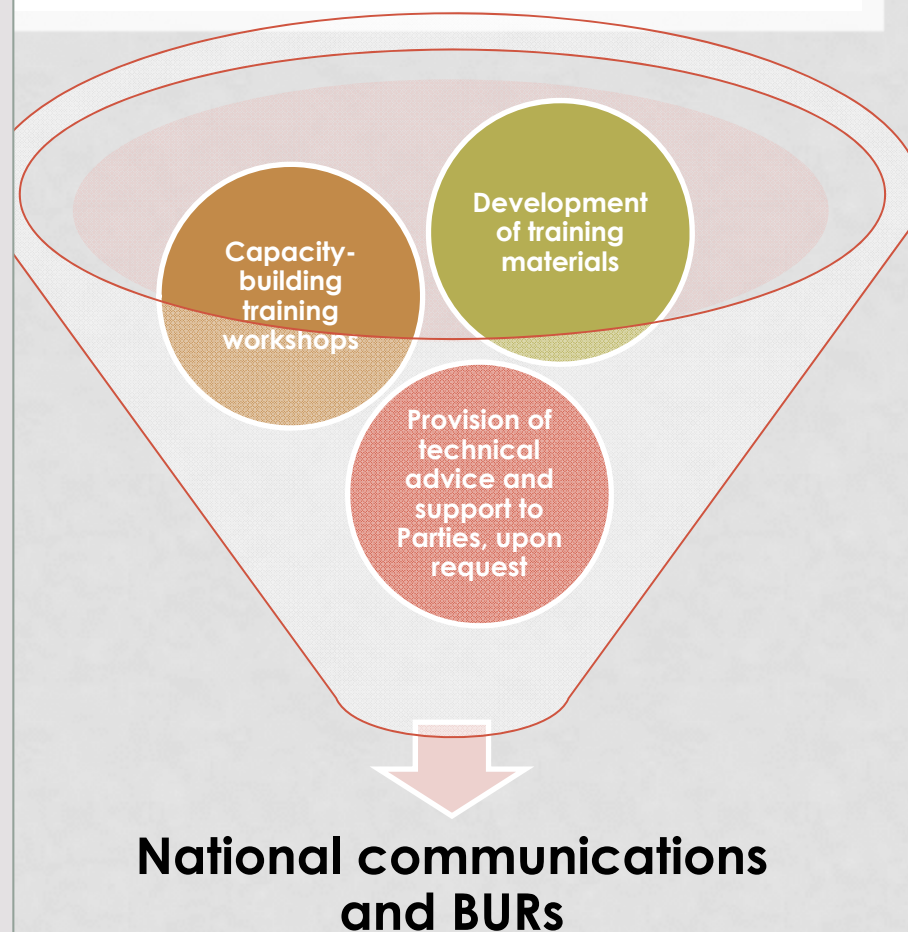

Ms. Hilary Hove, CGE Member

Introduction

- The CGE was established at COP 5;
- COP 19 continued the CGE's current mandate from 2014 to 2018 (*decision 19/CP.19*);
- The CGE has the objective of improving the process of and preparation of **national communications and biennial update reports (BURs)** by Parties non-Annex I Parties by providing **technical advice and support** to such Parties;
- The CGE will also support to the international consultation and analysis (ICA) process by:
 - Providing **guidance and periodic advice** to the secretariat to assist it in fulfilling the selection criteria for the composition of the team of technical expert (TTE);
 - Developing and organizing with the assistance of the secretariat a **training programme for the nominated technical experts** undertaking the technical analysis of BURs;
 - **Serve as technical experts** for undertaking the technical analysis of the BURs. (*decision 20/CP.19 incl. annex*)
- The CGE developed its **2014-2018 work programme** to enable it to function in accordance with its revised terms of reference (*annex to decision 19/CP.19*)

Training materials developed for strengthening institutional capacity for reporting

Updated CGE training materials for national communications

Vulnerability and adaptation (V&A) assessment: Introduces V&A frameworks for successful planning, and subsequent delivery of the V&A component;

Greenhouse gas (GHG) inventory: Building Sustainable National GHG Inventory Management Systems to put in place institutional arrangements which will allow for the smooth and regular development of GHG inventories;

Mitigation assessment: Development of a documentation toolkit to assist Parties in developing and maintaining the mitigation component of a national development plan.

Capacity-building activities aimed at strengthening institutional capacity for reporting

Preparation of national communications and BURs

- **E-learning courses:** For the preparation of national communications based on the CGE training materials
- **Capacity-building training workshops:** Over 300 national experts trained since 2011 on national GHG inventories, V&A assessment and mitigation assessment via regional hands-on training workshops, more experts participated online
- **CGE work programme 2014-2018:-** Planned regional training workshops:- **BURs (2014)**; **V&A assessment (2015)**; **BURs & GHG inventories (2016)**; and **mitigation assessment (2017)**

Support to the international consultation and analysis (ICA) process

- **Training programme for the ICA technical team of experts (TTE):** A training programme for the technical experts undertaking the technical analysis of BURs (*decision 19/CP.19 and 20/CP.19*).
- First round of the assessment of experts undertaking the TTE training programme (planned for December 2014)
