Combined Youth Statement

Preamble

We are a group of youth cognizant of and concerned about the fallibility of our degrading environment due to the impact of climate change, and conversant with the compelling need to actively engineer solutions to ensure the ecological sustainability of our current practices. Hence, in the premise of the combined Asia Youth Statement, we have put together a comprehensive position paper that addresses the identified climate challenges in the course of the various youth conferences, starting from Singapore, to showcase the determination of youth to contribute to sourcing for a solution in solidarity.

This document aims to be a culmination of all mooted suggestions throughout the course of the various youth conferences, summits, . It seeks to present to the relevant regional or global authorities a pertinent list of policies that are both compellingly
