with

# Learning and Skills Development Services

- E-learning
- Face-to-face events (e.g. NAP and REDD+ **country training** support)
- **Skills assessments** methodologies and missions
- Support to the **education sector**

Source: NAP-GSP, 2015

# Why and how to scale it up

- Link climate change learning to national climate change policy objectives
- Change behaviours through peer-to-peer learning
- Upscaling through South-South-North cooperation
- Mobilize resources for training and skills development
