

Article 6 of UNFCCC & the New Delhi Work Programme

An overview

The presentation outlined the importance of education and outreach activities in supporting Parties' efforts to combat climate change, provides an overview of the Convention's response to this reality with Article 6 of the Convention and its New Delhi work programme and highlights the objectives and expected outcomes of the SIDS workshop.

The five-year work programme will be reviewed at COP 13 in Bali, December 2007, and an extended work programme will be adopted consequently to continue to provide a framework for action at the national, regional, and international levels.
