

**Outcome of break out group on agenda item 7:  
Institutional linkages and relations between the Adaptation Fund  
and other institutions under the Convention**

Outcomes of the discussion:

- Broad agreement to maintain the discussion at the technical level;
- Convergence to review and complement the working paper **from a technical point of view**, incorporating additional elements highlighted during the discussion, including relevant aspects relating to the distinguishing features of the AF, and recognizing the mandates of the SCF in terms of coherence and coordination;
- Divergence around the scope and focus of the report of the SCF to the COP this year on this issue, and in particular on the appropriate level of attention on the relations between the AF and the GCF, or relations between the AF and other institutions more broadly.

Ways forward:

- Request the secretariat, under the guidance of Co-facilitators, to **revise the working paper** based on the deliberations, which will incorporate additional elements such as relationship with LDCF/SCCF, LEG, CGE, TEC etc. and the share of proceeds under the AF;
- **Schedule consultations** between the Co-chairs of the SCF and co-facilitators of this agenda item and the Chair and/or representatives of the AFB during the August/September ADP sessions;
