

Fifteenth meeting of the Standing Committee on Finance Bonn, Germany, 7–9 March 2017

Background paper on the 2017 workplan of the Standing Committee on Finance

Expected actions by the Standing Committee on Finance

The Standing Committee on Finance (SCF) will be invited to consider the mandates and further guidance received at COP 22 with a view to agreeing on its workplan for 2017, including:

- a) The organization of its work for 2017, identification of co-facilitators/focal points, and composition of working groups;
- b) The consideration of the issue of financing for forests, the follow-up activities of the SCF with regard to the recommendations emanating from the 2016 SCF forum, as well as the gender-related considerations as appropriate; and
- c) Its communication and outreach activities.

I. Possible actions for consideration by the SCF

1. **2017 workplan and the distribution of work throughout 2017.** The SCF may wish to consider the information on:
 - (a) The timeline and proposed approach for meetings and inter-sessional work of the SCF in 2017 as contained in annex I to this document;
 - (b) The tasks and activities, relevant reference documents, and timelines for the various areas of work as mandated by COP 22, as well as from previous COP decisions as outlined in annex II to this document;
 - (c) The outreach and communication activities of the SCF in 2017 as contained in annex III, which identifies a draft approach for each area of work of the SCF (see also the information on linkages between the SCF and the constituted bodies under the Convention, including possible areas of cooperation in 2017, as contained in document SCF/2017/15/8); in addition, it is proposed for the SCF to organize a side event during the forty-sixth session of the Subsidiary Bodies (SB) in order to allow the SCF to inform Parties and other interested stakeholders of the status of the implementation of its work plan.
2. **Integration of financing for forests-related considerations into its 2017 workplan**, where appropriate, taking into account all relevant decisions on forests. The SCF may wish to consider incorporating matters relating to forests in the following areas of work:
 - (a) Provision of draft guidance to the operating entities of the Financial Mechanism of the Convention to COP 23;
 - (b) Ongoing work in the context of improving the consistency and practicality of draft guidance to the operating entities of the Financial Mechanism;
 - (c) Provision of expert input to the sixth review of the Financial Mechanism;
 - (d) Work on the measurement, reporting and verification (MRV) of support and the preparation of the 2018 biennial assessment and overview of climate finance flows (BA); and
 - (e) Continuation of work on this matter in the context of the overall issue of improving coherence and coordination in the delivery of climate change financing.
3. **Follow-up activities emanating from the recommendations of the 2016 SCF forum.** The SCF may wish to identify one or more focal points who will liaise with the Executive Committee of the Warsaw International Mechanism for Loss and Damage (Executive Committee) and will take the lead in implementing the following activities:

- (a) Consider ways of contributing to a side event organized by the Executive Committee in order to further disseminate the outcomes of the forum (date pending deliberations by the Executive Committee);
 - (b) Continue its consideration of how to include financial instruments that address the risks of loss and damage in its work related to the biennial assessment and overview of climate finance flows;
 - (c) Continue exchanging information and following up developments with the Executive Committee on matters relating to financial instruments that address the risks of loss and damage as appropriate; and
 - (d) Enhance the dissemination of the outcomes of the forum through outreach activities and products.¹
4. **Gender.** The SCF may wish to take note of the following:
- (a) Forthcoming reporting requirements (subsequent to SBI 48) regarding information on progress made towards integrating a gender perspective in the SCF processes (see paragraph 9 below). Pending the deliberations at SBI 48 on the identification of entry points for integrating gender considerations in workstreams under the UNFCCC process, the SCF may wish to consider the following possible areas of work to integrate gender perspectives:
 - i. Biennial assessment and overview of climate finance flows;
 - ii. SCF forum;
 - iii. 6th Review of the Financial Mechanism; and
 - iv. Draft guidance to the operating entities.
 - (b) On-going work by the SBI in the development of a gender action plan, including the invitation by COP 22 to, inter alia, members of constituted bodies to consult through meetings, prior to SB 46, in order to provide inputs to the formulation of the gender action plan (see paragraph 10 below).
5. As only two SCF meetings have been envisaged for 2017, the SCF may wish to consider the following **modalities of work**:
- (a) Focus discussions at a higher level instead of technical details, in order to provide clear guidance on the inter-sessional technical work to be undertaken;
 - (b) Inter-sessional technical work would be conducted by the respective working group, led by the co-facilitators to be nominated by the SCF, with the support of the secretariat;
 - (c) SCF is regularly informed through emails of the status and progress on all activities, and possible matters of concern with regard to the respective area of work;
 - (d) Ensure that there are sufficient opportunities for members of the working group, as well as the SCF as a whole to provide feedback on the work and outputs of the working groups;
 - (e) Where necessary, decisions will be taken by email on a non-objection basis, allowing all members of the SCF at least 5 working days to respond if required;
 - (f) Co-facilitators/focal points, with the support of the secretariat, will conduct, as necessary, the outreach activities identified for respective areas of work;
 - (g) Working groups, with the support of the secretariat, will make use of the following communication tools to progress on inter-sessional work: conference calls or video conferences; exchange of information via mail; informal meetings in conjunction with SB sessions or other events (such as the forum); and web-based platforms.

II. Background

2017 workplan of the Standing Committee on Finance

6. The COP, in decision 8/CP.22, paragraph 2, endorsed the workplan of the SCF for 2017.² In addition, further guidance was provided to the Committee in other relevant decisions of COP 22. Annex II to this document

¹ See document FCCC/CP/2016/8, annex III, paragraph 69.

² As contained in document FCCC/CP/2016/8, annex VIII.

identifies these tasks and activities, the relevant reference documents, and the timelines for these various areas of work as mandated by COP 22, as well as from previous COP decisions.

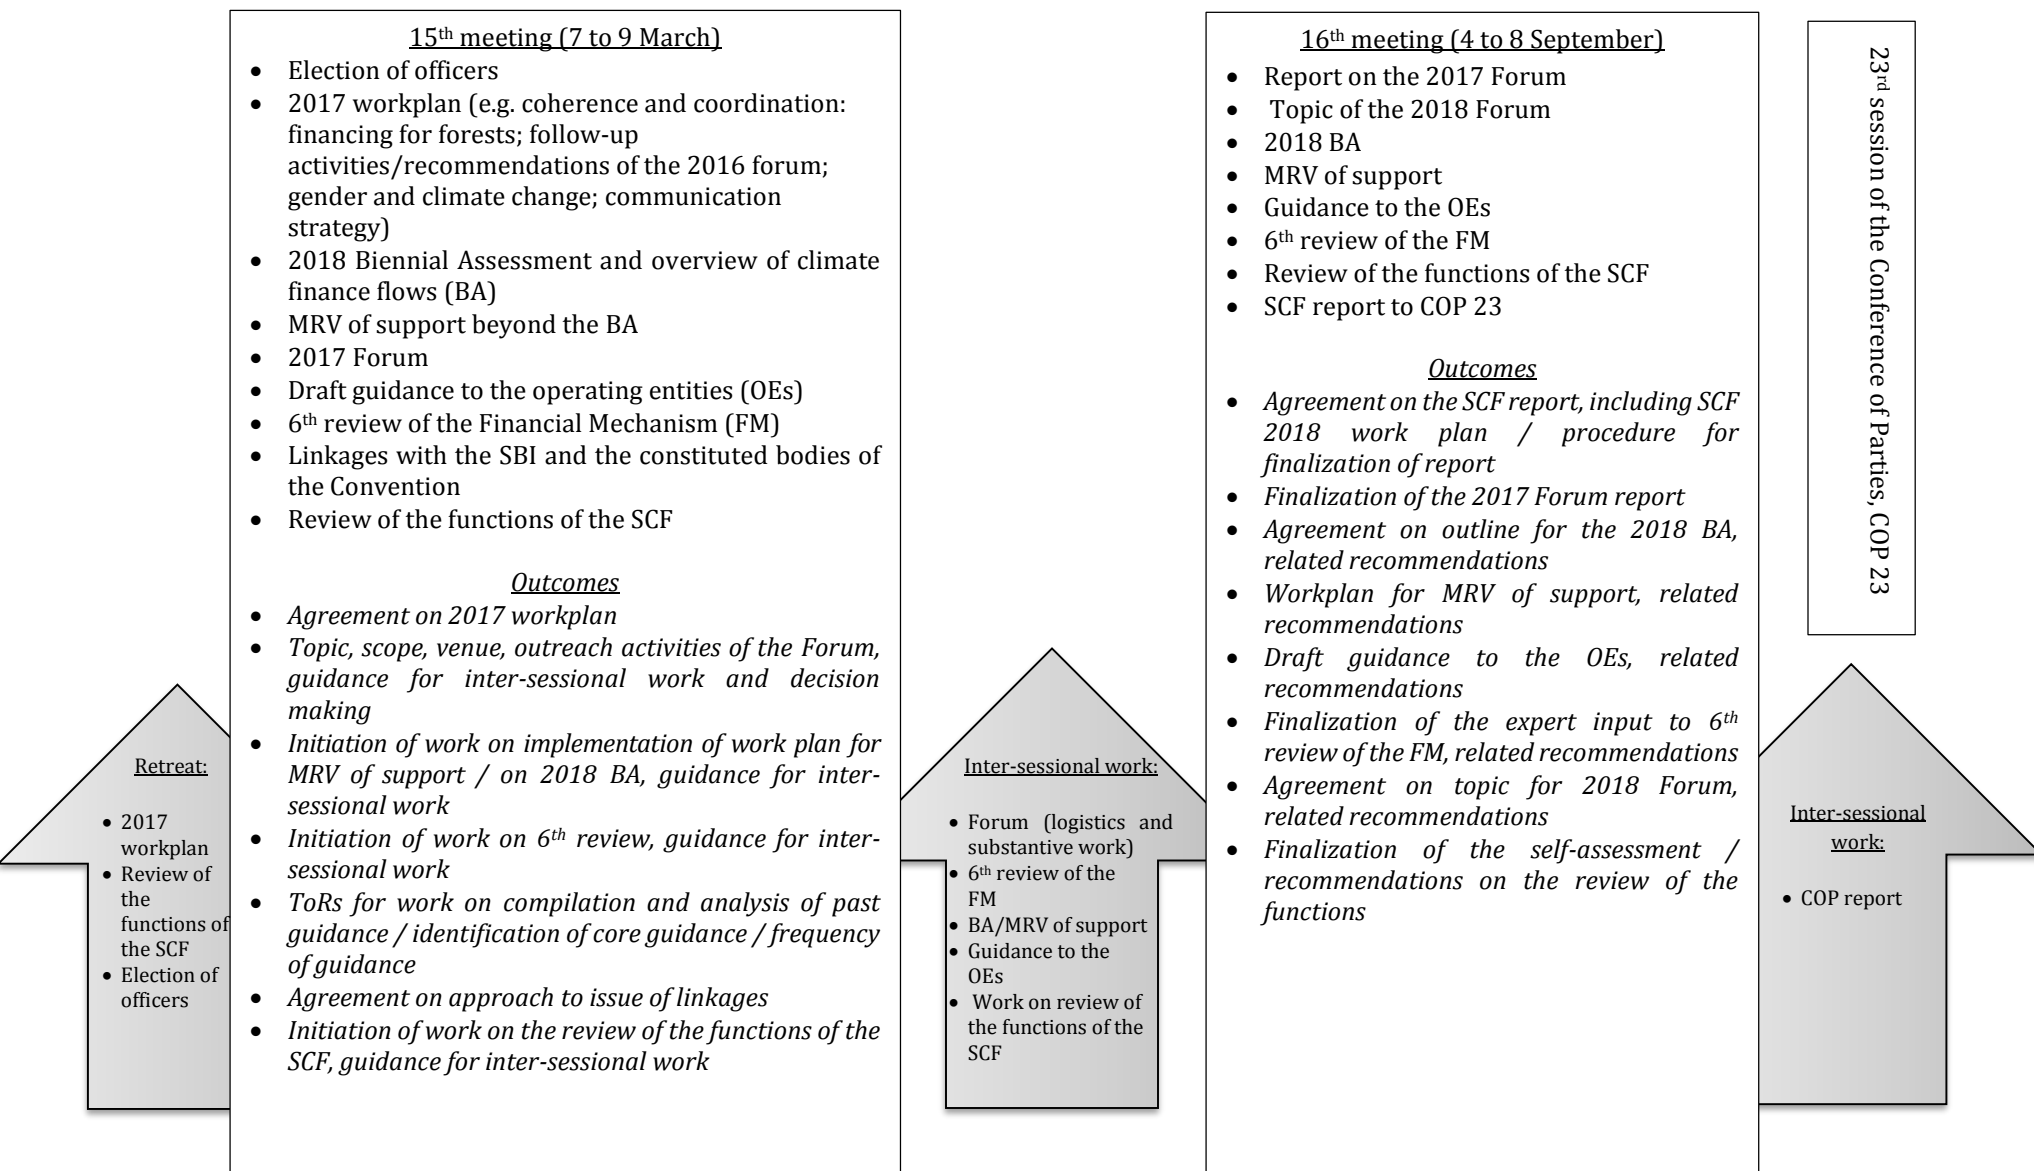

7. **Financing for forests-related considerations.** In decision 8/CP.22, and in line with the information provided by the SCF in its report to COP 22, the COP reiterated that the SCF will integrate financing for forests-related considerations into its 2017 workplan, where appropriate, and continue work on this matter in the context of the overall issue of improving coherence and coordination in the delivery of climate change financing, taking into account all relevant decisions on forests.
8. **Outcomes of the 2016 SCF forum.** The COP took note of the summary report on the 2016 forum, including the recommendations and follow-up activities of the SCF, and invited the SCF to follow up on the recommendations in its 2017 workplan.³ The following are the recommendations from the 2016 SCF forum:
 - (a) Encourage the Executive Committee to take the outcomes of the forum into account in its future work, in particular, in relation to action area 7 of its workplan, and promote further discussion with Parties, international organizations and expert institutions, inter alia, on innovative financing options and instruments that address the risks of loss and damage;
 - (b) Invite government institutions, the private sector and institutions working in humanitarian assistance and disaster risk management to share knowledge and enhance coordination and collaboration in order to better integrate approaches and to enhance the scaling up and replication of good practices;
 - (c) Encourage Parties, research institutions and the private sector, inter alia, the insurance industry, to advance discussions and expedite work on suitable solutions and approaches that address slow-onset events;
 - (d) Encourage Parties and institutions providing technical assistance to continue supporting capacity-building activities to countries, in particular, for assessing the risks related to climate change, data gathering and modelling, to facilitate comprehensive risk management and enable a better understanding on which to base financial instruments.

Gender and climate change

9. COP 22, in its decision on gender and climate change, requested all constituted bodies under the UNFCCC process to include in their regular reports information on progress made towards integrating a gender perspective in their processes according to the entry points identified in a technical paper to be prepared by the secretariat, identifying entry points for integrating gender considerations in workstreams under the UNFCCC process, for consideration by SBI 48 (April–May 2018) (decision 21/CP.22, paragraphs 13 and 14).
10. Furthermore, COP 22 requested the SBI to develop a gender action plan in order to support the implementation of gender-related decisions and mandates under the UNFCCC process, which may include priority areas, key activities and indicators, timelines for implementation, the responsible and key actors and indicative resource requirements for each activity, and further elaborate its process of review and monitoring. Furthermore, the COP invited Parties, members of constituted bodies, United Nations organizations, observers and other stakeholders to consult through meetings, prior to SB 46, in order to provide inputs to the formulation of the gender action plan (decision 21/CP.22, paragraphs 27 and 28).

Annex III Draft approach to outreach and communication activities of the SCF in 2017

Mandate/element(s) of work	Internal Collaborations	External collaborations
<i>The preparation of the 2018 Biennial Assessment and Overview of Climate Finance flows</i>		
<p>At COP 17, Parties mandated the SCF to prepare a biennial assessment and overview of climate finance flows (BA), to include information on the geographical and thematic balance of such flows, drawing on available sources of information, including national communications and biennial reports (BRs) of both developed and developing country Parties, information provided in the registry, information provided by Parties on assessments of their needs, reports prepared by the operating entities of the Financial Mechanism, and information available from other entities providing climate change finance (decision 2/CP.17, para 121 (f)).</p>	<p><i>Synergies with the constituted bodies, expert groups & processes, and proposed areas of collaboration</i></p> <p>The SCF intends to reach out to the constituted bodies including the Adaptation Committee (AC), Executive Committee of the Warsaw International Mechanism for Loss and Damage (Executive Committee), Technology Executive Committee (TEC) and Paris Committee on Capacity-building (PCCB) in order to solicit their input on discussions relevant to thematic flows in the BA. The SCF also intends to collaborate with the Lead Reviewers of biennial reports and national communications to solicit input on the challenges and gaps in the reporting on support.</p> <p><i>Outreach and communications</i></p> <p>Members of the constituted bodies and expert groups may participate in the meetings of the SCF, the technical meetings and webinars, as appropriate.</p> <p><i>Responsibilities</i></p> <p>The BA working group, with the support from the secretariat, would lead the necessary activities.</p>	<p>The preparation of the BA involves collecting data from external sources of information. External contributors such as MDBs, national, bilateral, and regional DFIs, international organizations, think-tanks and research institutions would be invited to provide data and peer-review the chapters of the technical report.</p> <ul style="list-style-type: none"> • Current collaborations with all types of DFIs, IOs, think-tanks and civil society should be sustained. New collaborations could be initiated with organizations that are involved in tracking and reporting domestic climate finance to increase data coverage as well as to compile available information on investment needs and plans related to Parties' nationally determined contributions and national adaptation plans. • In addition, new strategic collaborations could be initiated with international institutions that are developing and implementing frameworks for climate-related financial disclosures to inform the 2018 BA with regard to the issue of tracking global progress on the goal outlined in Article 2 of the Paris Agreement. Such collaborations would include, but not limited to: Task Force on Climate-related Financial Disclosures established by the Financial Stability Board with mandate from G20; The Portfolio Decarbonisation Coalition founded by UNEP Finance Initiative, Carbon Disclosure Project, and pension funds; networks of institutional investors and insurance such as UN Principles for Responsible Investment, The Global Investor Coalition on Climate Change, Principles for Sustainable Insurance; UNEP inquiry into the Design of Sustainable Financial System; etc. <p><i>Outreach and communications</i></p> <p>The SCF will extend targeted invitations to external stakeholders to all SCF meetings and the BA related technical meetings, as appropriate.</p> <p><i>Responsibilities</i></p> <p>The BA working group, with the support from the secretariat, would lead the necessary activities.</p>
<i>Measurement, reporting, and verification (MRV) of support beyond the Biennial Assessment and Overview of Climate Finance</i>		
<p>At COP 19 and COP 20, Parties invited the SCF to consider ways to increase its work on MRV of support beyond the BA in accordance with its workplan.</p>	<p><i>Synergies with the constituted bodies, expert groups & processes, and proposed areas of collaboration</i></p> <p>The SCF will consider enhancing its engagement with the APA and SBSTA to communicate recommendations from the 2016 BA.</p> <p><i>Outreach and communications</i></p>	<p><i>Stakeholders, and proposed areas of collaboration</i></p> <p>The SCF intends to engage with various institutions and experts involved in MRV of support on issues included in its 2016-2017 workplan.</p> <p><i>Outreach and communications</i></p>

Mandate/element(s) of work	Internal Collaborations	External collaborations
<p>In 2015, the SCF developed a two-year workplan (2016–2017) to enable improved MRV of support under the Convention. (FCCC/CP/2015/8, Annex VII). COP 21 and COP 22 have emphasised cooperation with relevant stakeholders and experts as well as consideration to ongoing work under the Convention and further action envisaged under the Paris Agreement in the context of its existing workplan.</p>	<p>SCF members may actively participate in the APA discussions on the transparency framework for support as well as in the SBSTA discussions on accounting modalities on finance, including through interaction with the APA and SBSTA co-facilitators to introduce BA key findings and recommendations, as appropriate.</p> <p><i>Responsibilities</i></p> <p>The MRV working group, with the support from the secretariat, would lead the necessary activities.</p>	<p>The SCF may utilize the opportunity of the technical meeting in 2017 for the preparation of the BA to also collaborate with external stakeholders on MRV-related issues beyond the BA.</p> <p><i>Responsibilities</i></p> <p>The MRV working group, with the support from the secretariat, would lead the necessary activities.</p>
2017 Forum of the Standing Committee on Finance		
<p>In accordance with decision 8/CP.22, paragraph 9, the COP invited the SCF to continue its deliberations on the topic of its 2017 forum at its first meeting in 2017.</p>	<p>Communication and outreach strategy to be determined once SCF has agreed on its topic for the 2017 forum.</p>	<p>Communication and outreach strategy to be determined once SCF has agreed on its topic for the 2017 forum.</p>
2016 forum follow up activities		
<p>At COP 22, Parties invited the SCF to follow up on the recommendations emanating from its 2016 forum, which included the below follow-up activities of the SCF in 2017:</p> <p>a) Consider ways of contributing to a side event organized by the Executive Committee in order to further disseminate the outcomes of the forum (date pending deliberations by the Executive Committee);</p> <p>b) Continue its consideration of how to include financial instruments that address the risks of loss and damage in its work related to the biennial</p>	<p>The SCF may wish to identify one or more focal points who would take the lead in implementing the activities as outlined in a) to d), including through close liaising with the Executive Committee and in particular with relation to the following:</p> <p>a) Once the Executive Committee has provided further information on the date and outline of the side event, to prepare the respective SCF input with the support of the secretariat.</p> <p>b) In the preparation of the 2018 BA to ensure early thinking on how to present information on financial instruments that address the risks of loss and damage.</p> <p>c) With regard to ensuring exchanging information with the Executive Committee on matters relating to financial instruments that address the risks of loss and damage, liase with the Executive Committee, as appropriate, inter alia, through cross-participation in respective meetings or sharing meeting reports and other relevant documents.</p>	<p>The SCF may wish to consider taking part in outreach activities to disseminate the outcomes of the 2016 forum by, inter alia, contributing to the side event organised by the Executive Committee or an SCF side event to take place on the sidelines of the fourty-sixth session of the subsidiary bodies (May 2017).</p>

<i>Review of the functions of the Standing Committee on Finance</i>		
As one source of information for the review of the functions of the SCF, the SCF is to prepare a self-assessment report and recommendations on improving its efficiency and effectiveness ¹¹	The SCF may wish to make use of a survey amongst its members, including past members if it agree accordingly, including on matters related to progress made by the SCF so far, as well as lessons learned in line with the terms of reference for the review (decision 9/CP.22, annex). Work on the self-assessment report would be taken forward by the working group of the SCF, led by the co-facilitators of this group with the support of the secretariat.	The SCF may wish to call for inputs by Parties, observers, constituted bodies, operating entities and other external stakeholders in order to seek inputs and views on various issues to be addressed in the context of its self-assessment report, including on matters related to progress made and in line with the terms of reference for the review.
