

SUBMISSION ON POSSIBLE FUTURE INSTITUTIONAL LINKAGES & RELATIONS BETWEEN THE ADAPTATION FUND AND OTHER INSTITUTIONS UNDER UNFCCC

BY: EDITH KATEME-KASAJJA

In response to the specific questions provided by Richard on future possible institutional linkages and relations between the Adaptation Fund and other Institutions under the Convention, below is my response;-

- (i) It is important to refer to the discussions of the 9th SCF meeting which centred on the district understanding of institutional linkages and relations between the AF and other Institutions under the Convention.
- (ii) At the strategy meeting of the LDCs we got to learn that there is work going on at the AFB level. It is important that the work of the AFB is reviewed by the SCF to establish what is being recommended by the practitioners.
- (iii) It is important that the SCF work on this concentrates on trying to establish the various options available based on the work of the AFB and recommending one option until such a time when the analysis is finalised. It is difficult to provide answers at this point in time.
- (iv) The aim of the AF should be critically considered in concluding the option to recommend.
