

Dr. Till Pistorius

Since 2014, Dr. Till Pistorius has worked as senior consultant and team leader for various projects in the climate division of the UNIQUE forestry and land use GmbH, based in Freiburg / Germany.

He has more than 12 years of work experience in environmental and forest governance at national and international policy levels. Since 2006, he has supported the German Federal Ministry of the Environment (BMUB) with scientific analyses and consultancy on forest- and land use sector issues negotiated under the UNFCCC and the CBD – in particular on REDD+, Forest Landscape Restoration, LULUCF, AFOLU and the CDM.

During the last years at his current position, the emphasis of his work shifted from policy and governance to the on-the-ground implementation of REDD+ and Forest Landscape Restoration.

Dr. Pistorius has a broad academic background – he holds a BSc in Business Administration, a university diploma in forest sciences, a PhD in forestry and recently he habilitated on the governance of REDD+.
