

# NAMAs institutional Arrangements in Morocco

Regional workshop on promoting collaboration to  
facilitate preparation, submission and implementation of  
NAMAs

17 April 2013, Maseru

Naima Oumoussa  
SCC/ONEM/DE

# Outline

**Introduction**

**Different approaches taken**

**Institutional arrangements**

**Perspectives and challenges**

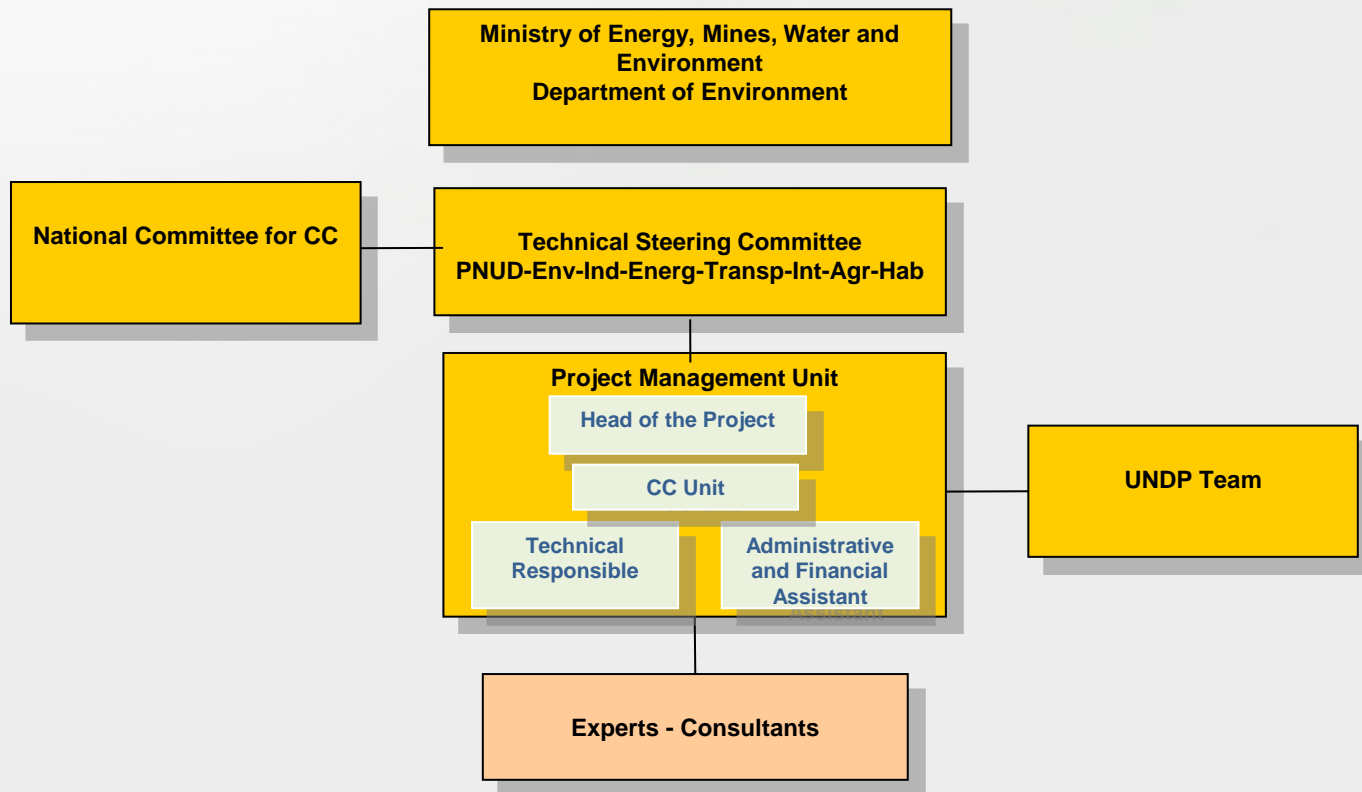

# Introduction

- ❑ CC a cross cutting issue
- ❑ Several initiatives are currently launched:
  - ❑ TNC (Mitigation & GHG Inventory)
  - ❑ LECB programme / UNDP
  - ❑ FIRM programme / UNEP
  - ❑ CCC / GIZ
  - ❑ PMR / WB
  - ❑ Agriculture NAMA / AfDB
  
- ❑ Ensuring synergy between the different programmes to optimize available resources.
- ❑ Strengthening inter-agency coordination

## 4 Approaches for Institutional arrangements

- 1) Building on existing initiatives
- 2) Involving academia and scientific community (relevant data and national emission factors)
- 3) Strengthening existing institutional structures: CNCC
- 4) Bringing together institutions working together on CC, NAMAs and LEDS: A Technical Steering Committee

# Institutional Arrangements

# Perspectives and challenges

- Shift from the project based approach to internalize the process
  - Timely delivery of NAMAs & efficiency
  - Benefit from the BURs preparation process
- Technical committee will assess and identify existing NAMAs
  - Ensure continuity, integrity of CC mitigation
  - Link NAMAs process with overall sustainable Development
  - Institutionalize MRV systems
- Political will to embed the CC mitigation in sectoral policies, through efficient coordination

*Thank you very much  
for your attention*
