

# Status of negotiations on NAMAs

UNFCCC LAC regional workshop in promoting international collaboration to facilitate preparation, submission and implementation of NAMAs

10-13 December 2013, Mexico City

***Tshering Dolma Sherpa***  
UNFCCC secretariat

## *Nationally appropriate mitigation actions (NAMAs)*

### *Sub-paragraph 1 (b) (ii) of the Bali Action Plan*

- *Developing country Parties will undertake nationally appropriate mitigation actions in the context of “sustainable development” enabled by finance, technology and capacity building support, in a measurable, reportable and verifiable manner*

# Background

---

- COP 15 requested developing country Parties to submit to the secretariat information on their NAMAs;
- 55 Parties have submitted their NAMAs. In addition a joint submission from African Group on NAMA in agriculture sector;
- They have been compiled in document **FCCC/SBI/2013/INF.12/Rev.2**
- All the submissions on NAMAs from Parties can be found at:  
<http://unfccc.int/focus/mitigation/items/7172.php>

## 27% of LAC countries have submitted NAMAs

---

	Country	
1	Antigua and Barbuda	25% reduction below 1990 level by 2020
2	Argentina	NAMAs in energy, forestry and waste sectors supported by strong regulatory framework
3	Brazil	36.1% - 38.9% reduction below BAU in 2020
4	Chile	20% reduction below BAU in 2020, as projected in 2007
5	Colombia	<ul style="list-style-type: none"><li>• <u>Unilaterally</u>: at least 77% of energy to be generated from renewables by 2020;</li><li>• <u>With international support</u>: Reduce deforestation in Colombian Amazon rainforest to zero by 2020;</li><li>• In addition various other measures to be supported through <u>carbon markets</u></li></ul>

## 27% of LAC countries have submitted NAMAs

	Country	
6	Costa Rica	Implement long-term economy wide transformational effort to enable carbon-neutrality, which will mean significant deviation from BAU emission till 2021 and beyond.
7	Dominica	Communicated low-carbon climate-resilient development strategy and expected to undertake various measures in energy, waste and land-use sectors.
8	Mexico	30% reduction in comparison to BAU by 2020
9	Peru	Between 2010-2021: <ul style="list-style-type: none"><li>• Reduce net emissions from LULUCF through conservation of 208,500 sq. miles of primary forest;</li><li>• Renewables form 40% of total energy mix;</li><li>• Waste management – capture and use methane by building 31 landfills</li></ul>

# NAMA related COP decisions

---

## 1. SBI Work Programme

- COP at Doha established a work programme to further the understanding of the diversity of NAMAs submitted to UNFCCC.
- An in-session workshop and technical briefings were organized in Warsaw.
- This is the continuation of the process of clarification of pledges that the COP established in Cancun.
- Under this process four in-session workshops were organized to facilitate clarification of pledges. All information related to the workshops can be found at:

<http://unfccc.int/focus/mitigation/items/7172.php>

# NAMA related COP decisions

---

## 2. Registry

- Develop a registry as a web-based platform to record mitigation actions and information on support;
- Facilitate matching of finance, technology and capacity building support to mitigation actions and provide recognition to domestically supported actions;

## 3. Biennial update reports

- Developing country Parties to prepare biennial update reports containing:
  - Update of national GHG inventory
  - Information on mitigation actions
  - Support needs and received

# NAMA related COP decisions

---

## 3. Biennial update reports

➤ Guidelines for preparation of BUR were adopted in Durban (Annex III to decision 2/CP.17)

(<http://unfccc.int/documentation/deisions/items/3597.php#beg>)

➤ The Global Environmental Facility has put in place support for preparation of BURs and **Brazil, Chile, Costa Rica, Ecuador, El Salvador, Jamaica, Mexico, Paraguay, Peru and Uruguay** have initiated the process to access funds for its preparation.

## 4. International consultation and analysis

➤ Conduct international consultations and analysis of BURs under the SBI:

- Technical analysis of the BURs by a team of technical experts:
- Facilitative sharing of views under the SBI.

➤ Modalities and guidelines for conducting ICA were adopted in Durban (Annex IV to decision 2/CP.17).

---

# NAMA related COP decisions

---

## Implementation of decisions

- Open invitation to Parties to submit NAMAs
- NAMA Registry – submission of individual NAMAs for recognition or seeking support
- **NAMAs submitted to date**
  - 35% of developing countries
  - 27% of LAC countries

## Ad-hoc Working Group on Durban Platform

- UNEP Emissions Gap report: 8-12 gigatonnes of CO<sub>2</sub> eq. in 2020
- Under ADP Work stream 2 Parties have resolved to enhance pre-2020 ambition and ensure highest possible mitigation efforts by all Parties;
- Parties that have not submitted NAMAs to submit ambitious NAMAs;
- Under WS1 – initiate domestic preparation of contributions for post 2020 period.
