

# Pre-sessional workshop on Response Measures

*Brainstorming. Crystal Ball Gazing*

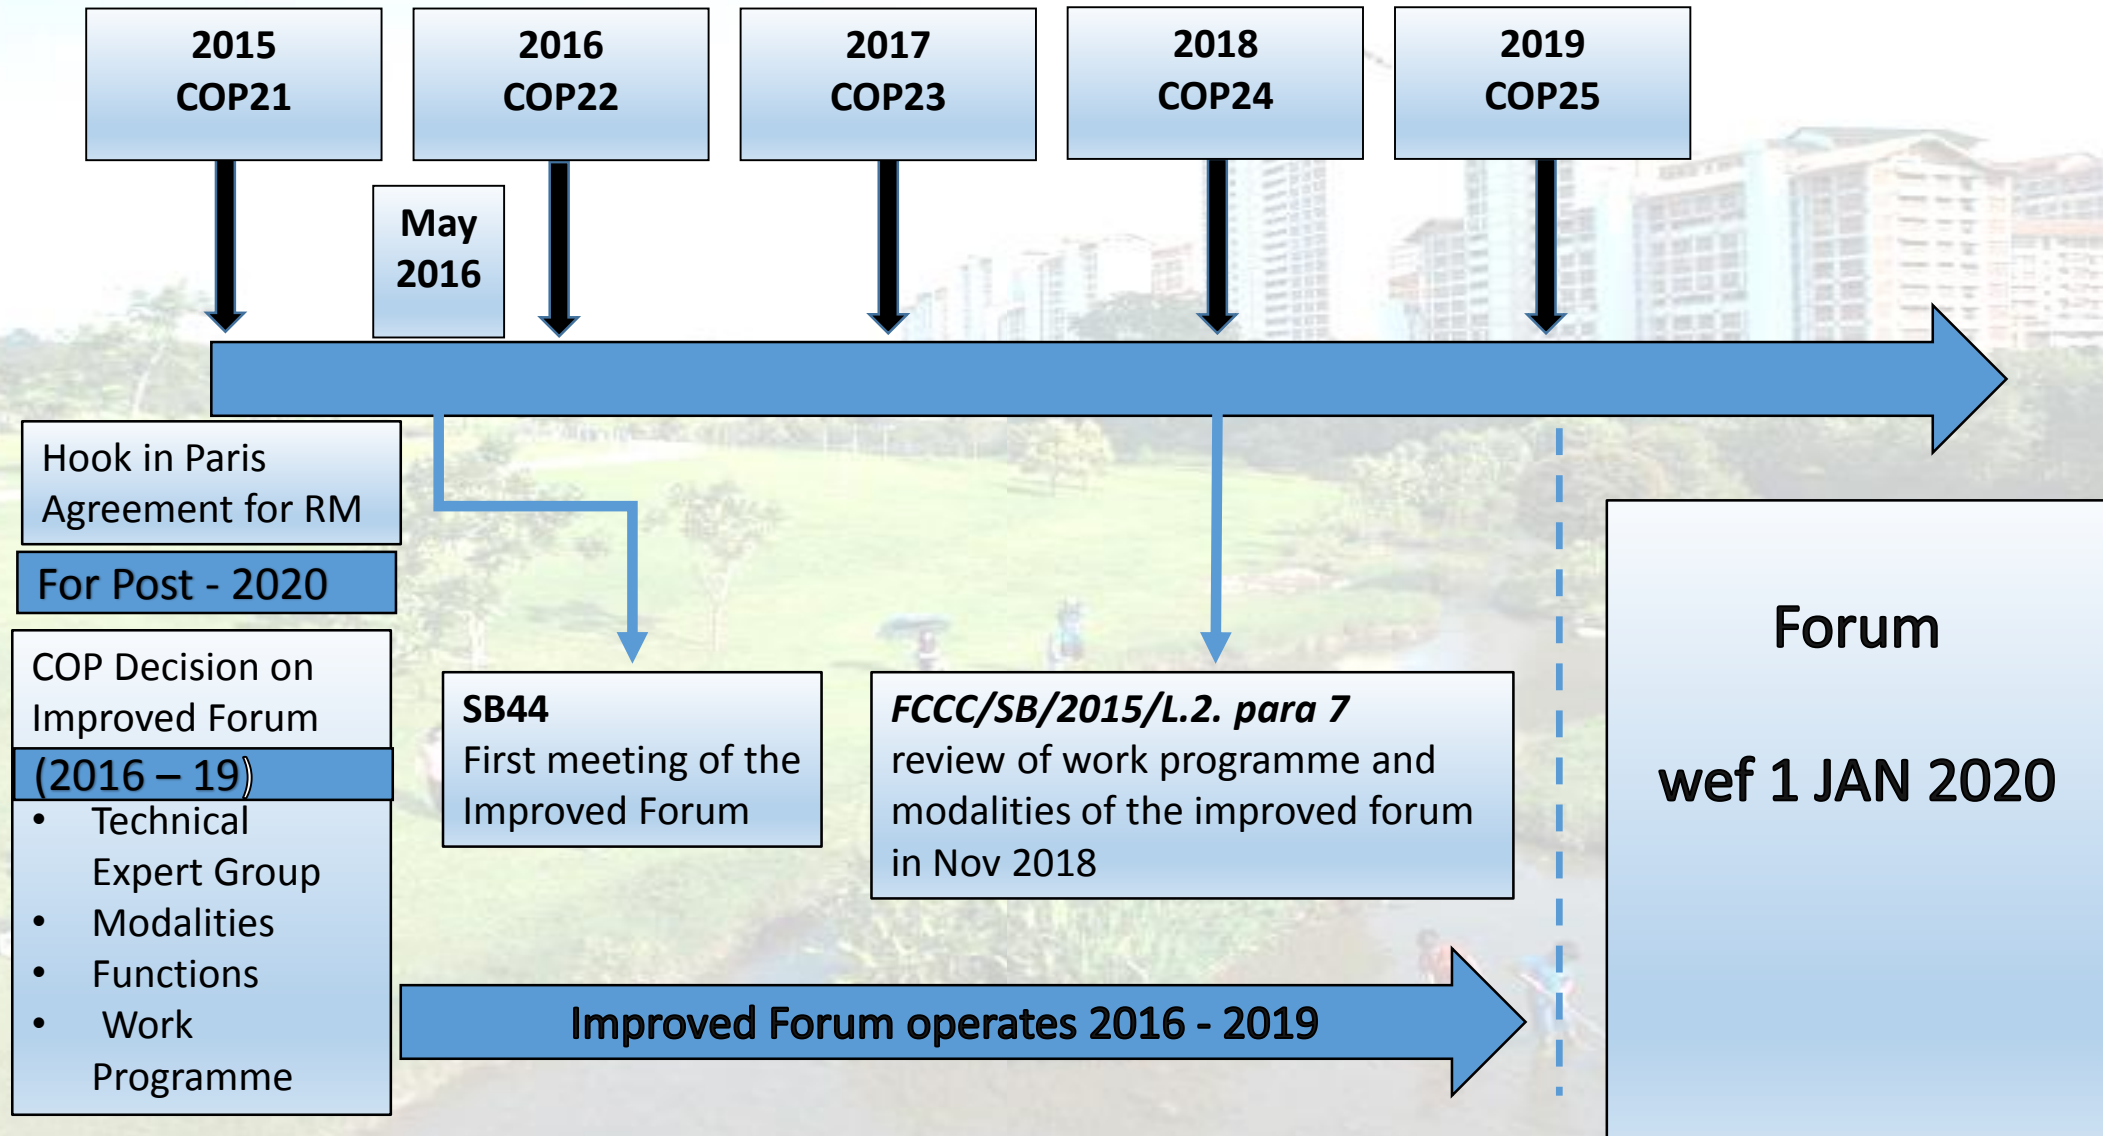

Peter Govindasamy

An aerial view of Singapore's city skyline, featuring a prominent bridge in the foreground and various skyscrapers in the background under a blue sky with light clouds.

**“The farther back you can look,  
the farther forward you can see”**

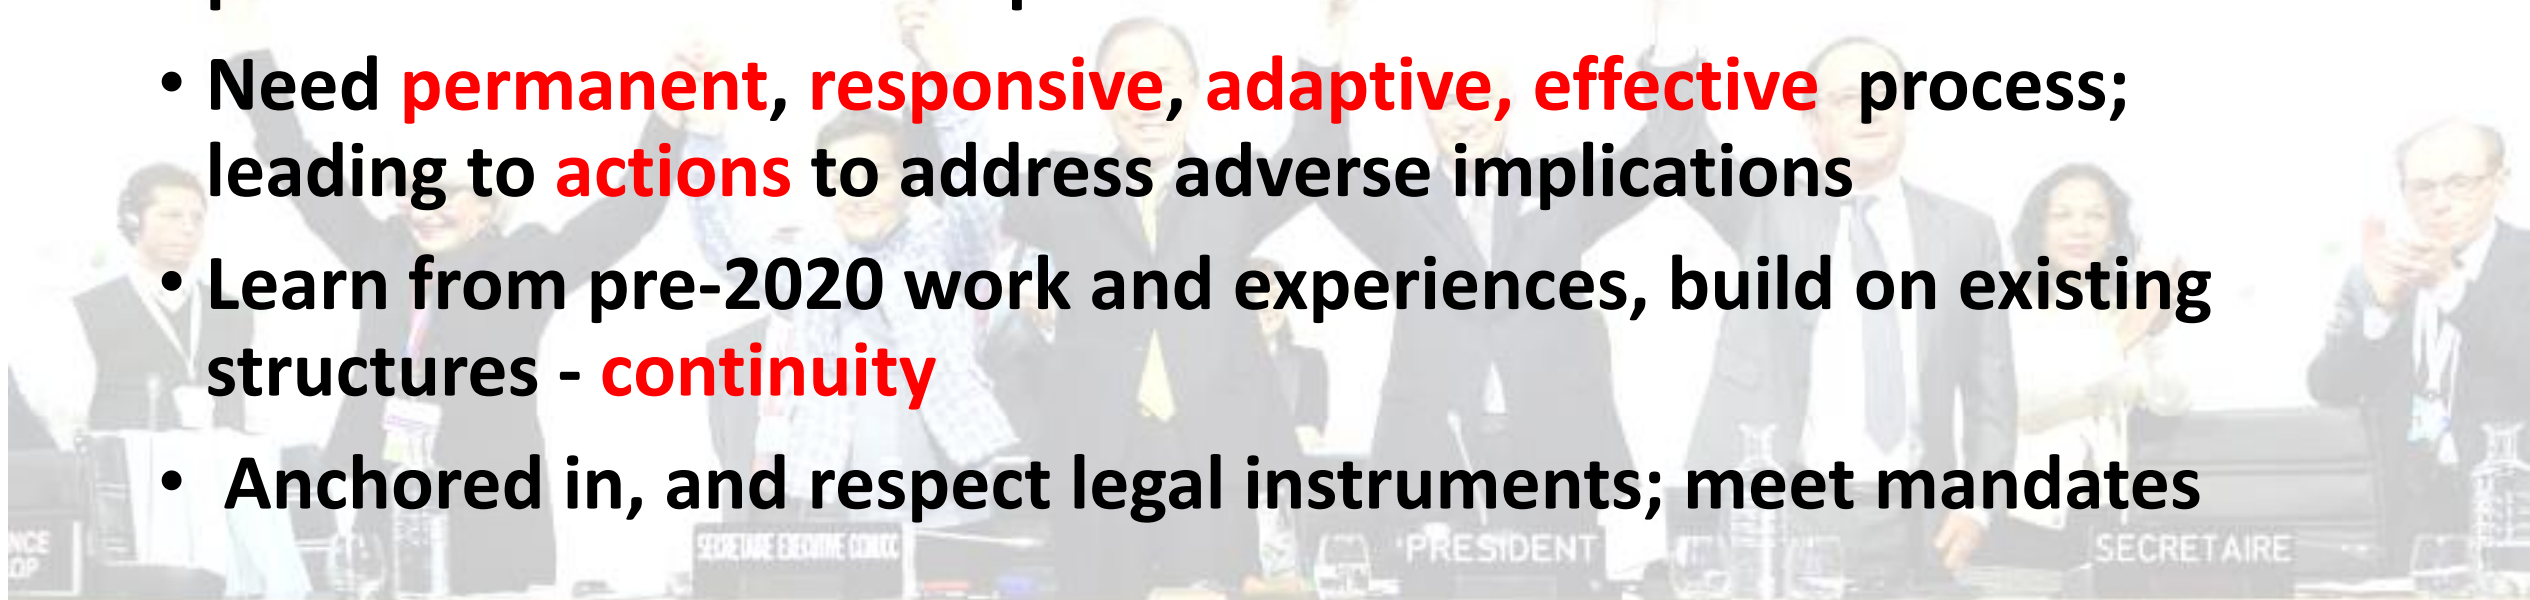

# Looking Back - RM Timelines

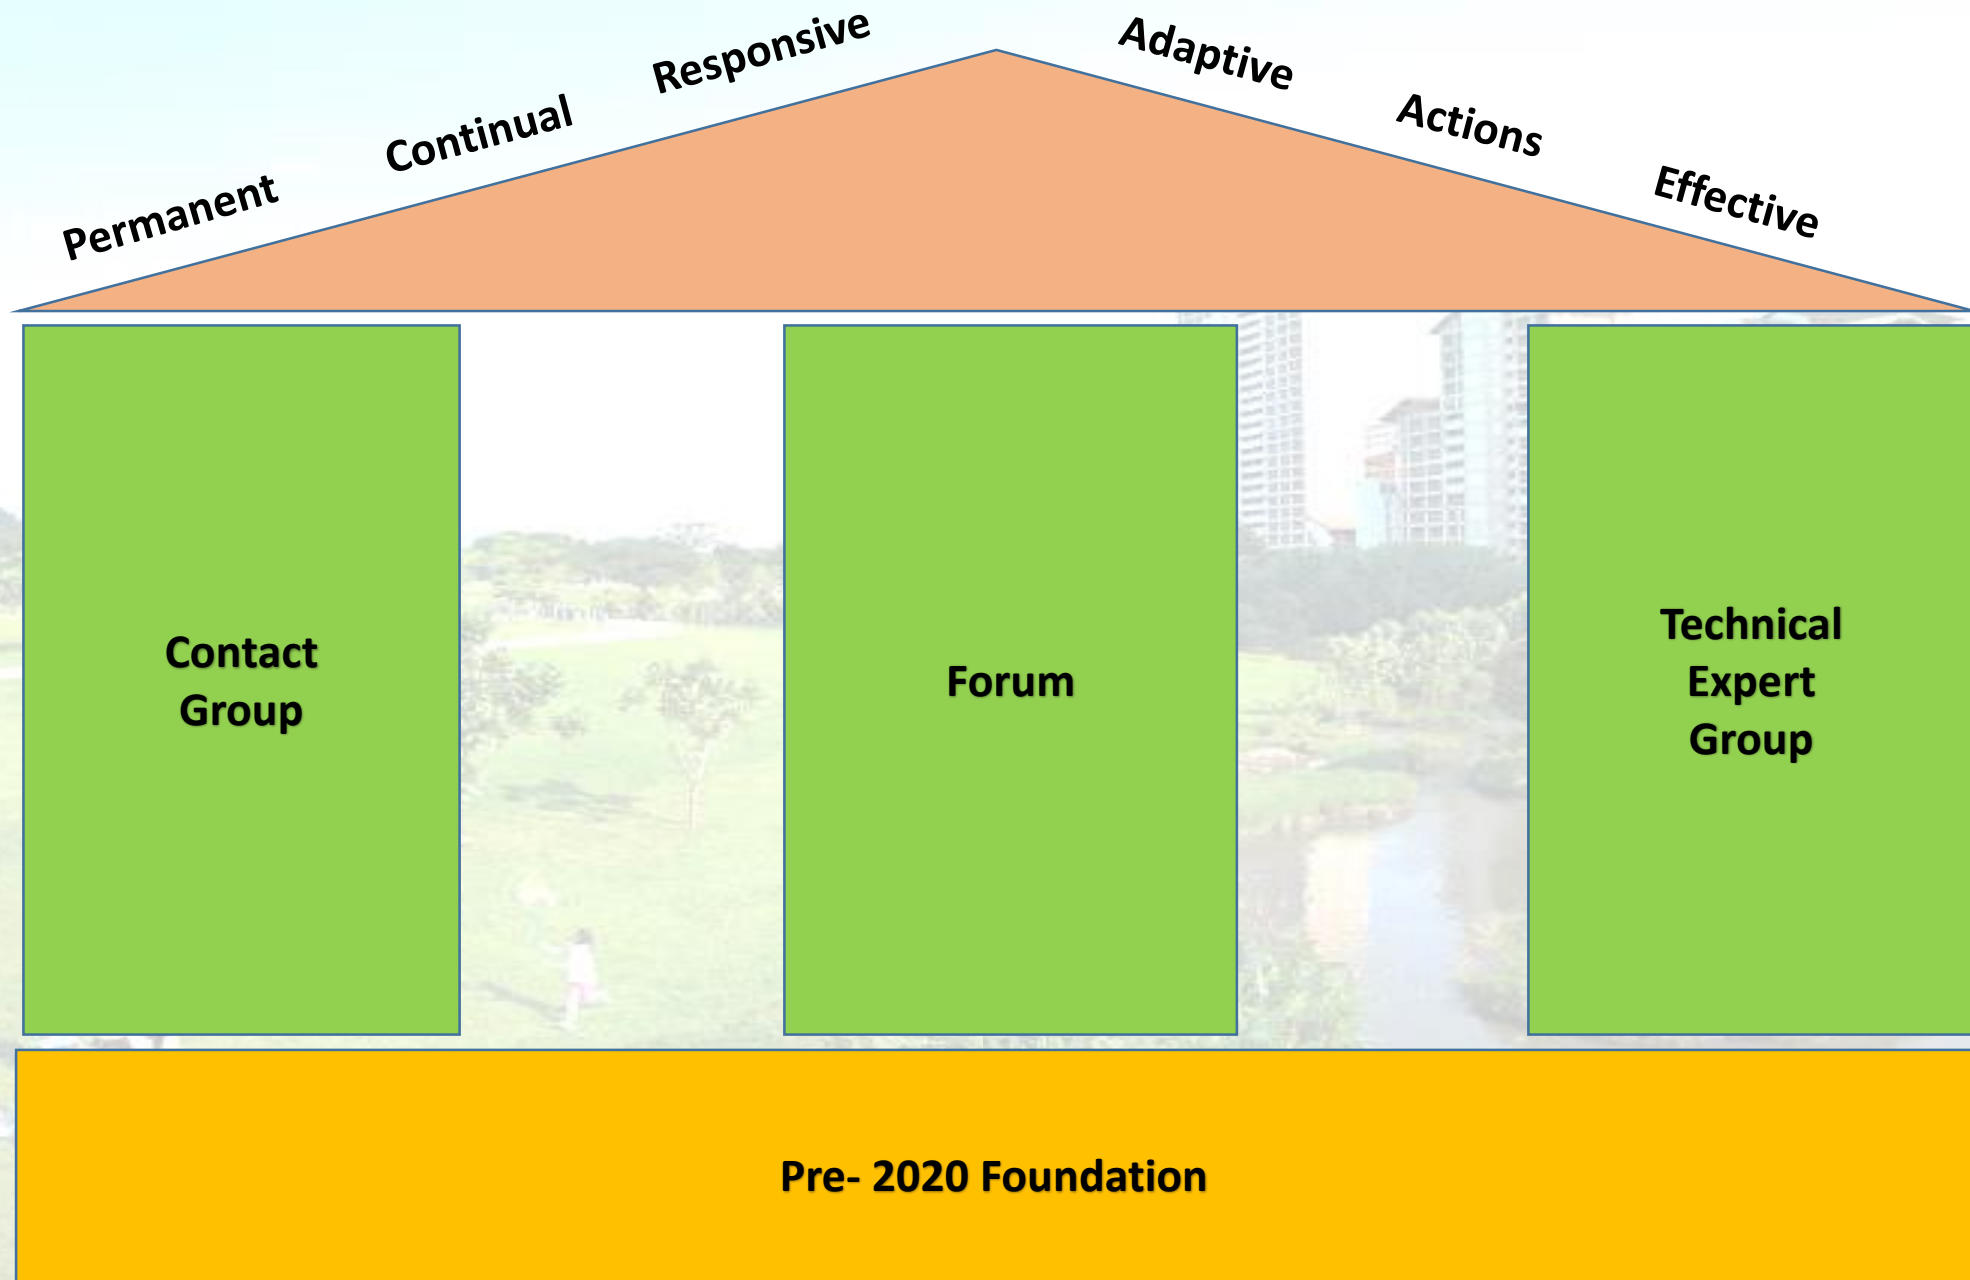

# Looking Back – Seeing Forward

- Paris Agreement: Parties “may be affected not only by climate change, but also by impacts of measures taken in response to it”
- Economic and social implications would become more pronounced with the implementation of NDCs
- Need **permanent, responsive, adaptive, effective** process; leading to **actions** to address adverse implications
- Learn from pre-2020 work and experiences, build on existing structures - **continuity**
- Anchored in, and respect legal instruments; meet mandates

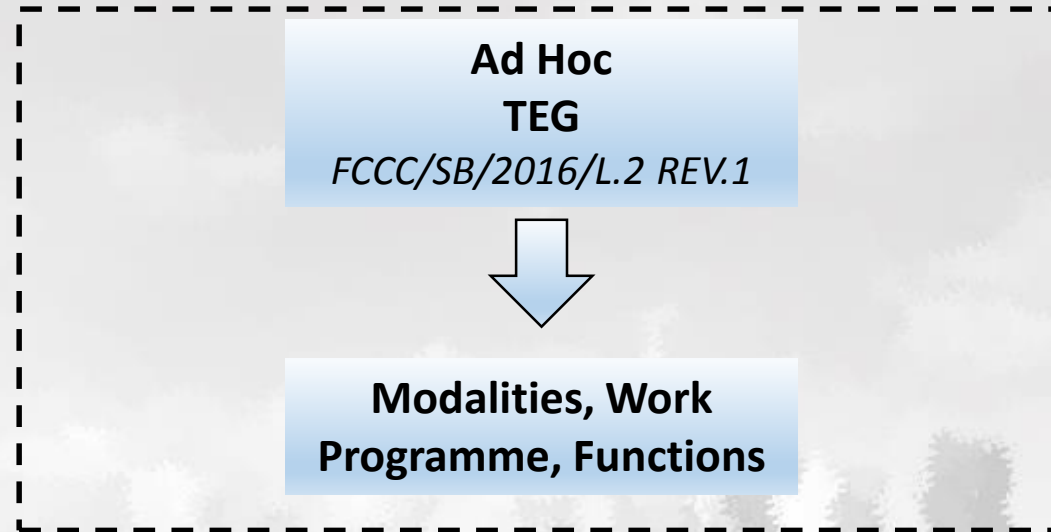

# Seeing Forward - Building the Response Measures House

# Pre-2020 Foundation

*Anchored in Legal Instruments*

FCCC/CP/2015/10/Add.2

Improved Forum meeting in the form of Contact Group

Recommendations

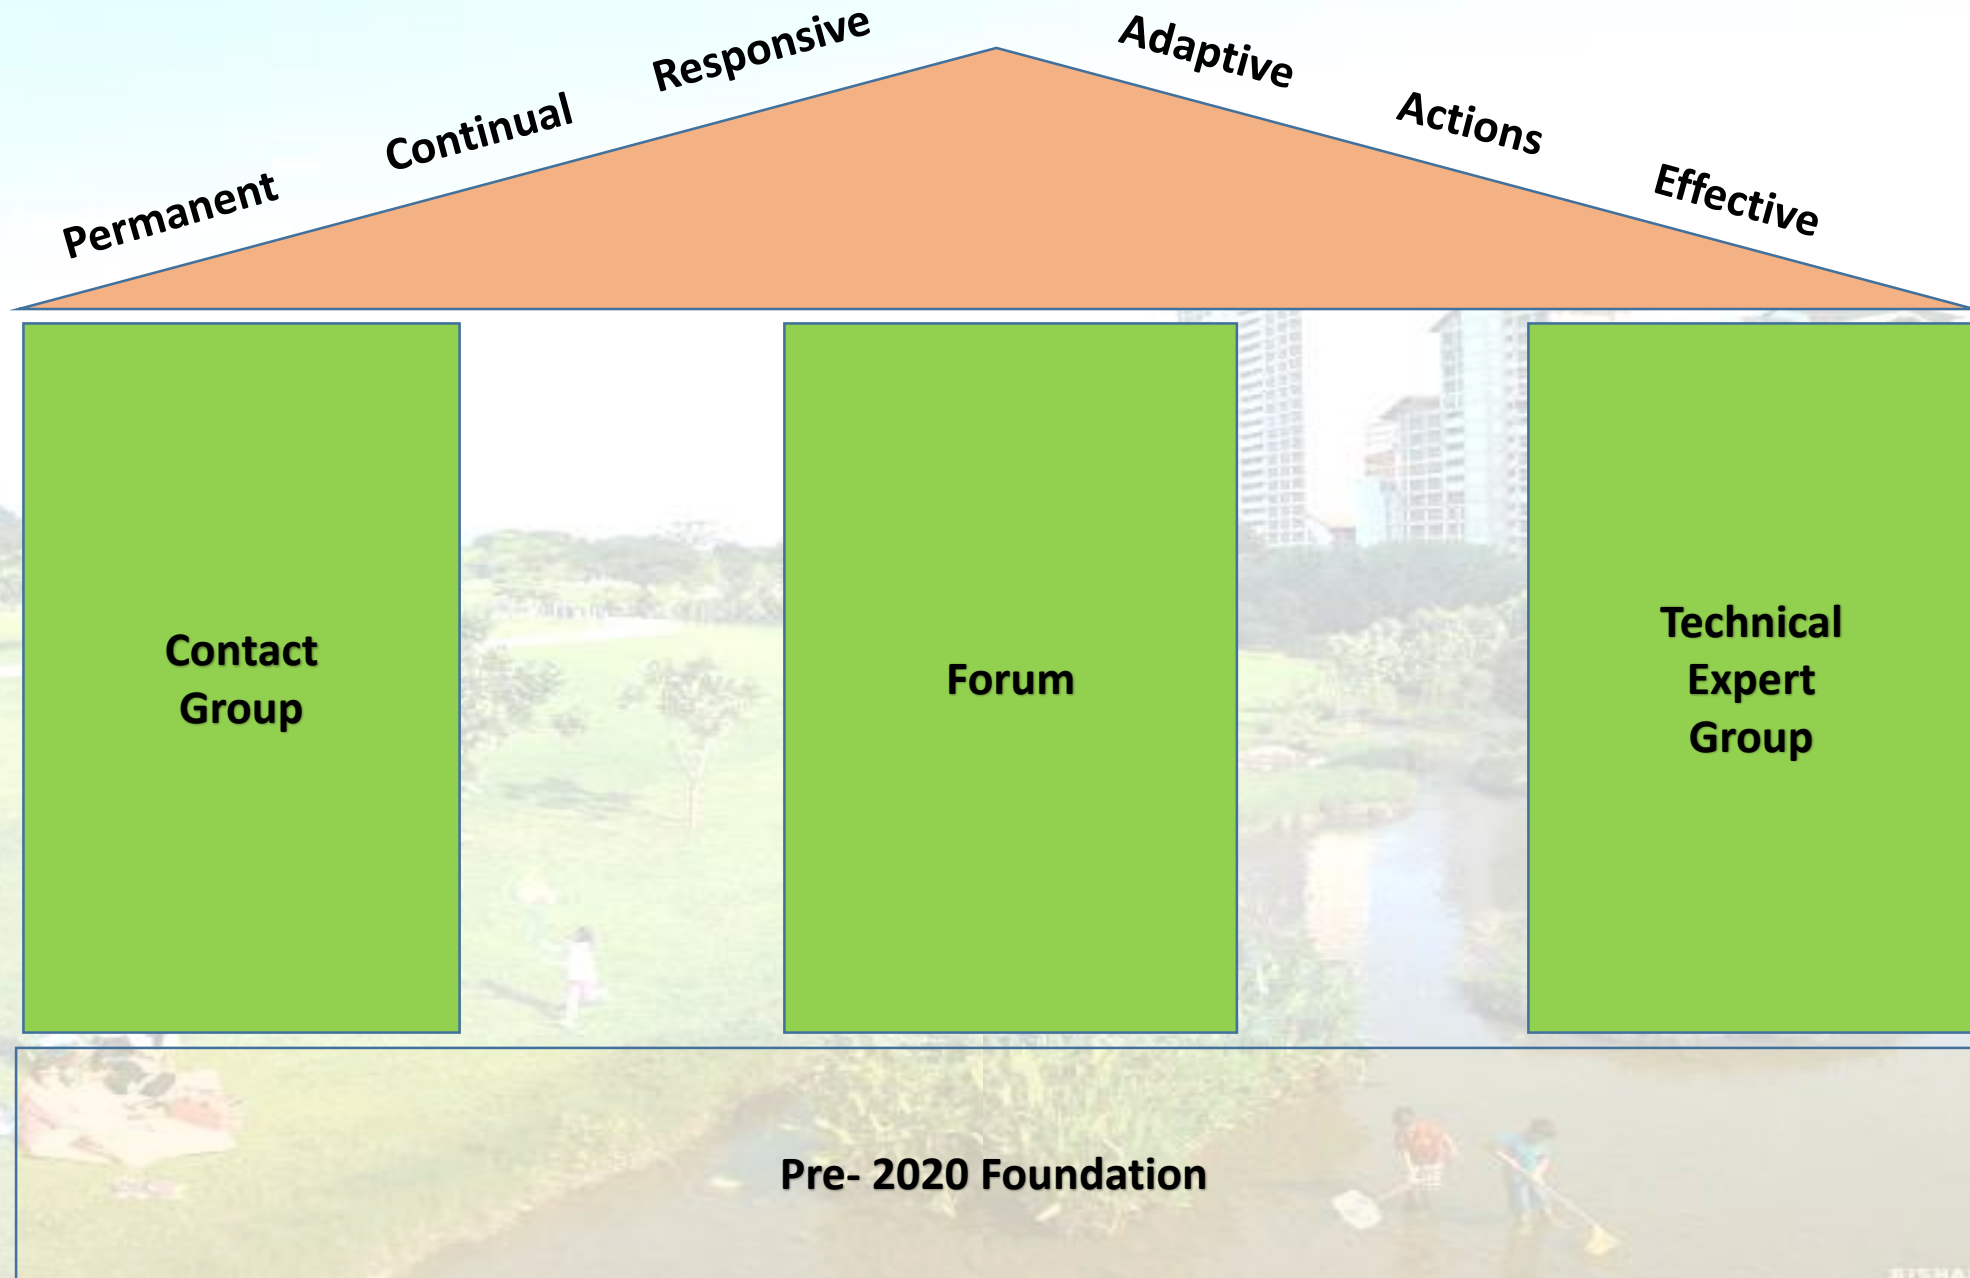

SBs

COP

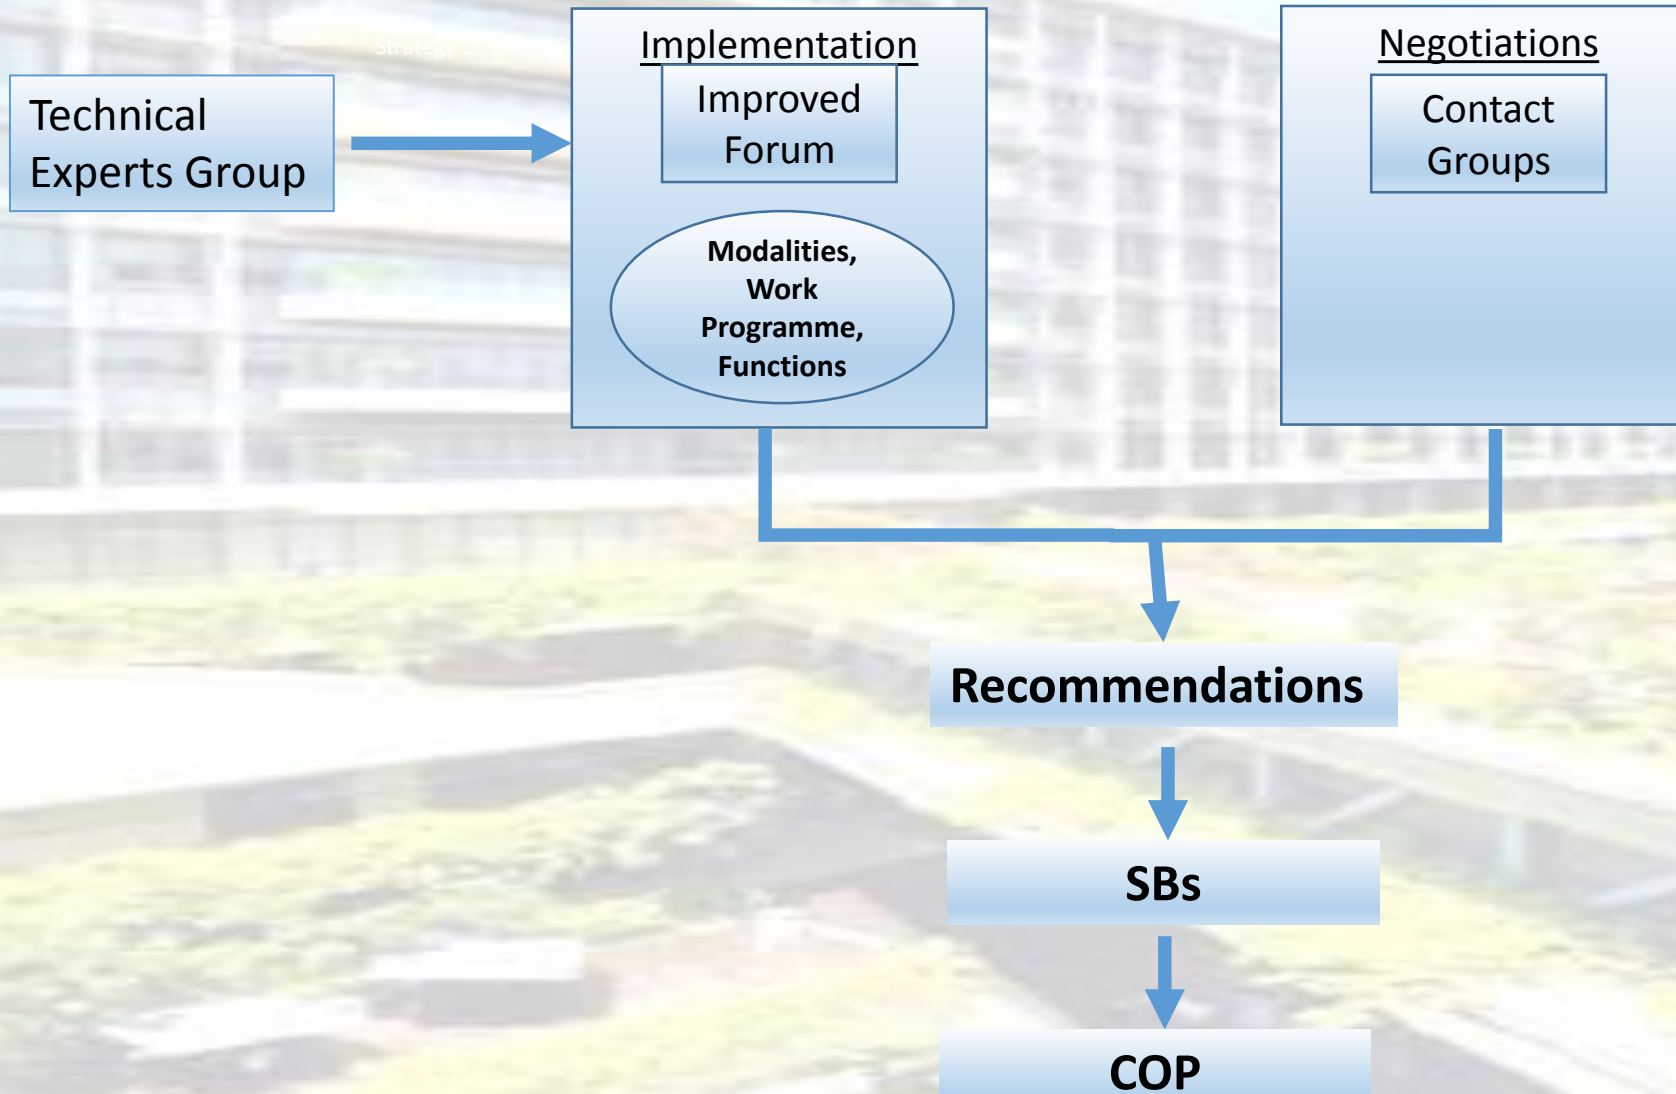

# Seeing Forward - Building the Response Measures House

# Post-2020 Response Measures House

*Modalities for the post-2020 constuct*

***Permanent, Continual, Responsive, Adaptive, Actions, Effective***

# Technical Expert Group in the Post-2020 Structure

- ❑ Number of Experts : 12
- ❑ Composition: 2 each from 5 regional groups of UN; 1 each from SIDs and LDCs
- ❑ Duration term of Experts: 3 years
- ❑ Staggered rotation (for continuity)
- ❑ Flexibility to meet as necessary to be determined by the TEG.
- ❑ Technical Experts to have relevant qualifications and expertise in scientific, technical and socio-economic fields related to Work Programme of Forum
- ❑ Membership of TEG to be nominated and approved by Parties
- ❑ Co-chairs of the TEG for fixed terms (e.g. 3 years) to be decided by TEG members
- ❑ Meetings open to attendance by accredited observer organisations and observers from Parties
- ❑ Secretariat to support activities of the TEG

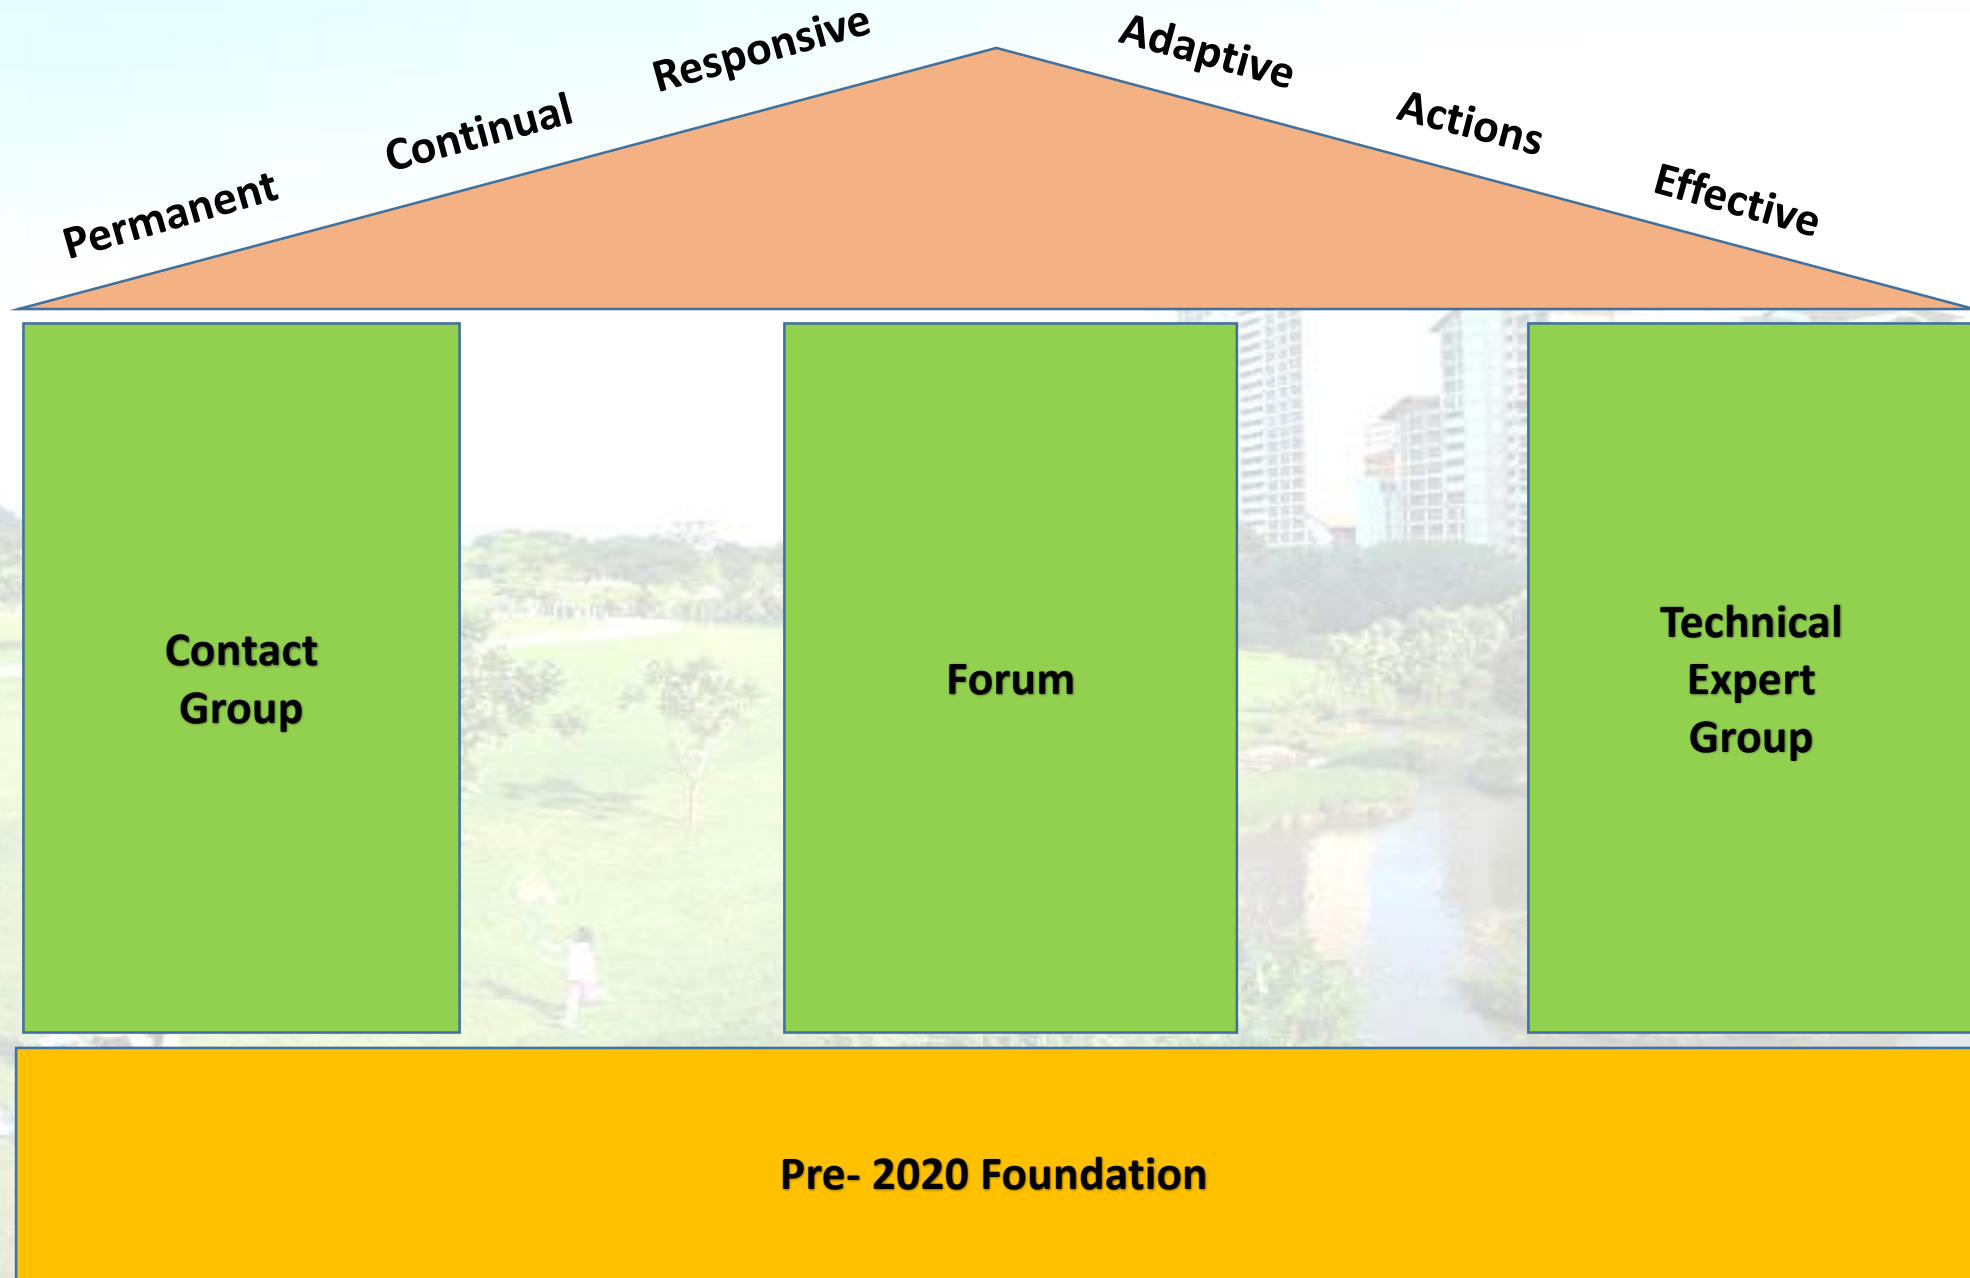

# The Forum in the post-2020 structure

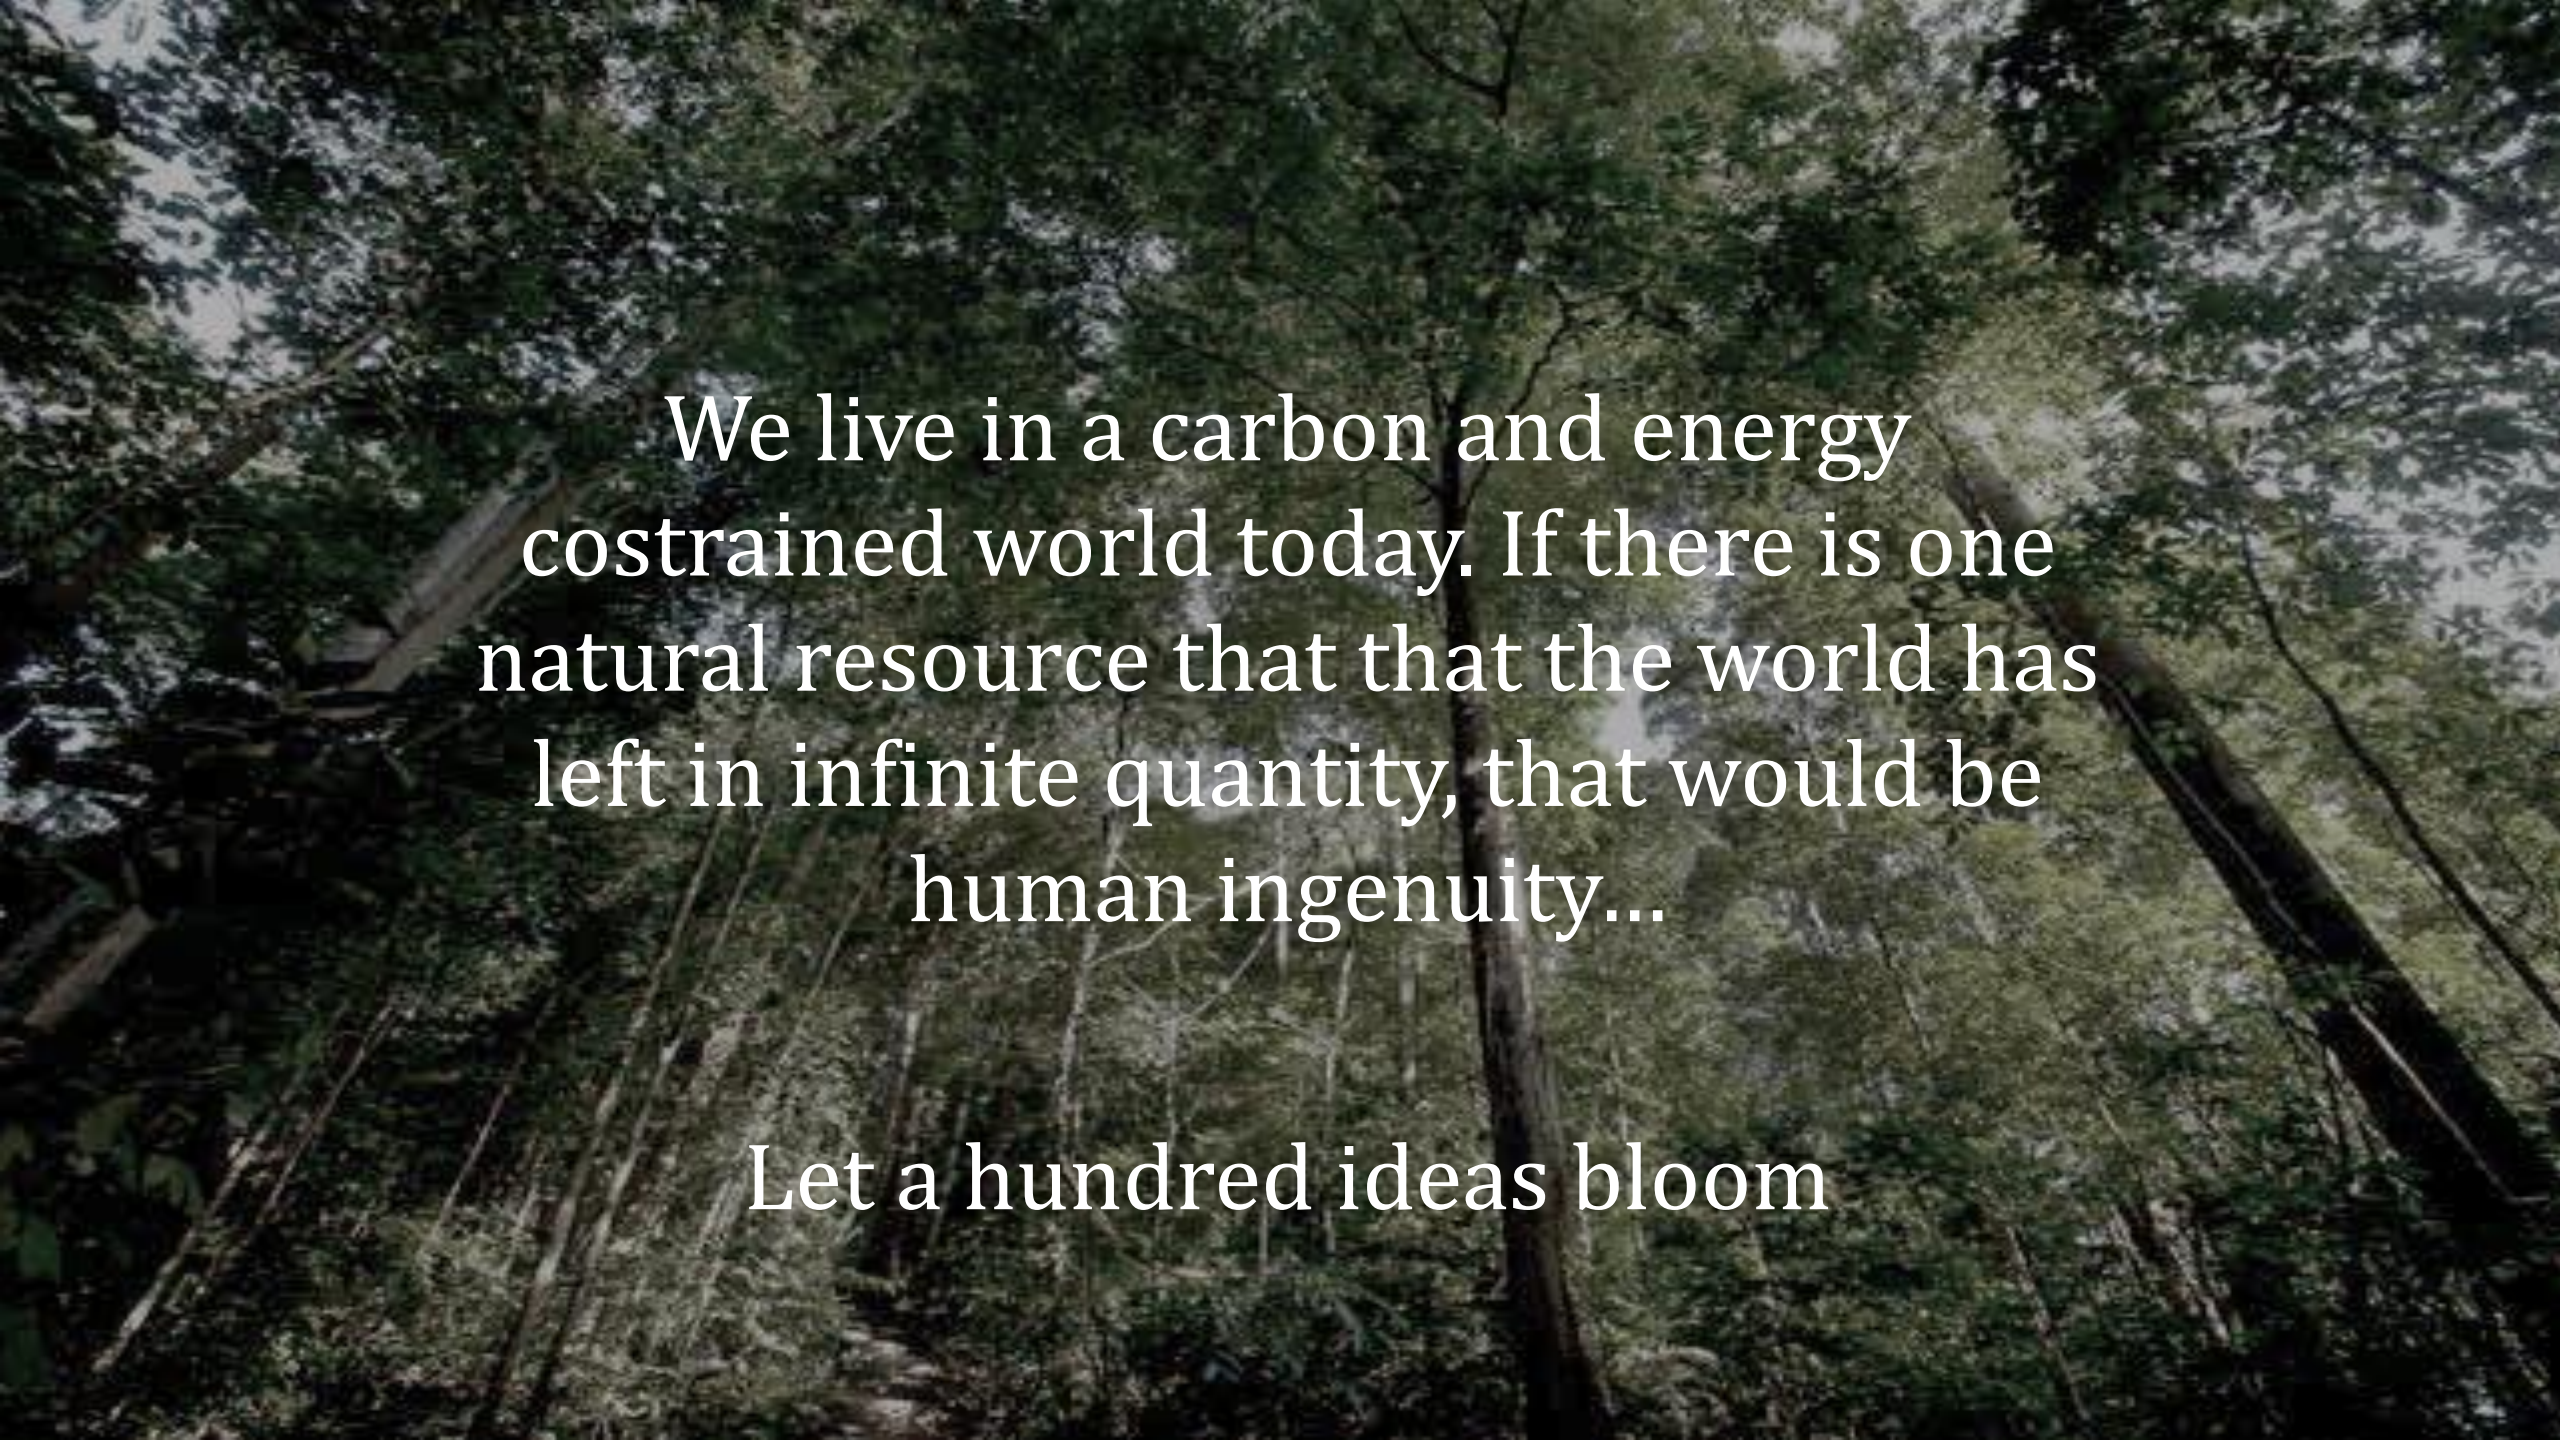

## *Modalities to deliver Work Programme*

To assess and analyze, and to identify actions to address the impact of the implementation of response measures

- Provide platform for Parties to share information, experiences, case studies, best practices
- Expert inputs from TEG
- Prepare technical studies and reports
- In-Forum, and inter-sessional (eg. regional) training workshops to build capacity for countries
- Inputs from, and cooperate, coordinate with international organizations and inter-governmental organizations
- Draw up inventory of response measures
- Develop guidelines, methodologies, and modelling tools
  
- Forum to meet in conjunction with SB sessions
- Provide recommendations on actions to SBs and COP

# Seeing Forward - Building the Response Measures House

A low-angle shot of a dense forest. The camera is positioned on the ground, looking up at the thick canopy of green leaves and dark tree trunks. Sunlight filters through the branches, creating a dappled light effect. The overall atmosphere is serene and natural.

We live in a carbon and energy  
costrained world today. If there is one  
natural resource that that the world has  
left in infinite quantity, that would be  
human ingenuity...

Let a hundred ideas bloom
