

AWG-LCA

Mid-week stocktaking meeting

12 August

Hotel Maritim

Bonn

UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE

Structural proposals

- Restructure the text to distinguish common responsibilities of all Parties from differentiated responsibilities of different groups of Parties
- Add annexes to reflect commitments and actions by Parties
- Maintain the separation between responsibilities of developed and developing countries
- Organize provisions according to, and referring back to relevant Articles and provisions of the Convention

Proposals related to placement

- Consideration of means of implementation (finance, technology and capacity-building):
 - Integrate provisions related to means of implementation in chapter on finance, technology and capacity-building
 - Integrate provisions related to means of implementation in chapters on finance, adaptation, mitigation and shared vision,
- Move aspects related to institutional arrangements from mitigation and adaptation chapters into a separate section (currently under chapter on Finance)

Proposals related to placement

- Move aspects relating to the global goal and mid-term targets, including ranges of emission reductions to the mitigation chapter
- Placement of objectives and guiding principles:
 - Reflect objectives, scope and guiding principles at the beginning of the chapter on mitigation and adaptation
 - Move objectives and principles to the respective section in the shared vision

Further proposals related to structure

- Reflect overlaps, relationship, and coherence with the AWG-KP
- Treatment of MRV of mitigation action and support:
 - Consider MRV of mitigation actions as related to 1 b (i), 1 b (ii) and REDD+ in one chapter integrated with MRV of support
 - Consider MRV separately for actions under 1 b (i), 1 b (ii) and REDD+

Other proposals

- Define and explain new terms
-

UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE

Matrix of institutional arrangements and their functions related to adaptation
