

Status of submission and review of reports under the Kyoto Protocol

Note by the secretariat

1. This note provides information on the status of the annual reports submitted in 2012 and 2013 under decision 15/CMP.1, from Parties included in Annex I to the Convention (Annex I Parties) that are also Parties to the Kyoto Protocol as at 2 September 2013.

2. As there were no submissions or review activities for national communications in 2013, this note is limited to information on the reviews of annual reports only. Submission of the sixth national communication by Annex I Parties is due on 1 January 2014. The note for 2014, if applicable, will include information on the status of submission and review of the sixth national communications.

I. Greenhouse gas inventory submissions 2012

3. In 2012, the secretariat received 41 annual inventory submissions from Annex I Parties (see table 2) under the Kyoto Protocol. Thirty-eight submissions listed in table 2, containing information under Article 7, paragraph 1, of the Kyoto Protocol, have been made by the Parties in accordance with decision 15/CMP.1 for the third year of the commitment period.

4. Belarus, which is Annex I Party to the Kyoto Protocol, indicated that its 2012 annual submission was under both the Convention and the Kyoto Protocol. In accordance with the COP conclusion (FCCC/CP/2001/13/Add.4, section V.C.) and following ratification of the Kyoto Protocol by Kazakhstan on 19 June 2009 and its entry into force on for Kazakhstan on 17 September 2009, Kazakhstan is considered an Annex I Party for the purposes of the Protocol but remains a non-Annex I Party for the purposes of the Convention. Kazakhstan indicated that its 2012 annual submission is made under the Convention and the Kyoto Protocol. Turkey is Annex I Party to the Kyoto Protocol. It indicated that its 2012 annual submission is made under both the Convention and the Kyoto Protocol. Since Belarus does not yet have a quantified emission limitation and reduction commitment (QELRO) for the first commitment period, and since both Turkey and Kazakhstan do not have a QELRO inscribed in Annex B to the Kyoto Protocol, their submissions are being treated as submissions under the Convention.

5. The secretariat coordinated reviews of 38 of the reports indicated in paragraph 4 above, following the Article 8 guidelines of the Kyoto Protocol. Nine of the individual reviews of these submissions, those of Belgium, Croatia, Estonia, Finland, Greece, Lithuania, Norway, Portugal, Slovakia, and the United Kingdom of Great Britain and Northern Ireland were conducted as in-country reviews and the rest were conducted as centralized reviews. Altogether, eight centralized reviews were organised between 3 September and 29 September 2012 in Bonn, Germany. In addition, the secretariat organized an expedited review for Lithuania which took place from 28 to 29 September 2012 in Vilnius and Kaunas, Lithuania. As at 2 September 2013, all the review reports have been published on the UNFCCC website.¹ All reports, with the exception of the reports of the individual review of the annual submission submitted in 2012 by Belarus, Kazakhstan and Turkey, were forwarded to the Compliance Committee.

COMPLIANCE COMMITTEE

CC/13/2013/3
3 September 2013

Note: NIR, national inventory report; CRF, common reporting format.

Numbers shown with CRF, KP, CRFKP, KPLULUCF and NIR under the columns of resubmission indicate the sequence of the submissions.

^a Belarus is a Party to the Kyoto Protocol and its quantified emission reduction commitment in Annex B (92 per cent) was established through an amendment to Annex B to the Kyoto Protocol (decision 10/CMP.2). As at 2 September 2013, this amendment had not yet been ratified by enough Parties to allow its entry into force. Since Belarus does not yet have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol, therefore its submission is being treated as a submission under the Convention.

^b In accordance with the COP conclusion (FCCC/CP/2001/13/Add.4, section V.C.) and following ratification by Kazakhstan of the Kyoto Protocol on 19 June 2009 and its entry into force on 17 September 2009, Kazakhstan is considered an Annex I Party for the purposes of the Protocol but remains to be a non-Annex I Party for the purposes of the Convention. Since Kazakhstan does not have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol, its submission is being treated as a submission under the Convention.

^c Turkey indicated that its 2012 annual submission is made under both the Convention and the Kyoto Protocol. However, since Turkey does not have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol its submission is being treated as a submission under the Convention.

II. Greenhouse gas inventory submissions 2013

6. In 2013, the secretariat received 40 annual submissions from Annex I Parties (see table 3). Thirty-seven of these submissions, containing information under Article 7, paragraph 1, of the Kyoto Protocol, have been made by the Parties in accordance with decision 15/CMP.1 for the fourth year of the commitment period. As described above, Belarus does not yet have a QELRO inscribed in Annex B to the Kyoto Protocol and Kazakhstan and Turkey do not have a QELRO inscribed in Annex B to the Kyoto Protocol. The 2013 annual submissions of those Parties are being treated as submissions under the Convention. Status reports for 41 submissions had been prepared and published on the UNFCCC website.² These status reports were also forwarded to the Compliance Committee, except for those of Belarus, Kazakhstan and Turkey.

7. The secretariat is coordinating 38 reviews of these reports following Article 8 guidelines of the Kyoto Protocol. Eleven of the individual reviews of these submissions, those of Austria, European Union, Ireland, Italy, Japan, Latvia, Liechtenstein, Monaco, Poland, Slovenia, and Sweden are scheduled as in-country reviews and the rest are scheduled as centralized reviews. Altogether, eight centralized reviews are being organized between 3 September and 6 October 2013 in Bonn, Germany. Most of the review reports are expected to be finalized and published in the period between January and April 2014.

COMPLIANCE COMMITTEE

CC/13/2013/3
3 September 2013

Note: NIR, national inventory report.

CRF, common reporting format.

Numbers shown with CRF, KP, CRFKP, KPLULUCF and NIR under the columns of resubmission indicate the sequence of the submissions.

^a Belarus is a Party to the Kyoto Protocol and its quantified emission reduction commitment in Annex B (92 per cent) was established through an amendment to Annex B to the Kyoto Protocol (decision 10/CMP.2). As at 4 October 2012, this amendment had not yet been ratified by enough Parties to allow its entry into force. Since Belarus does not yet have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol, therefore its submission is being treated as a submission under the Convention.

^b In accordance with the COP conclusion (FCCC/CP/2001/13/Add.4, section V.C.) and following ratification by Kazakhstan of the Kyoto Protocol on 19 June 2009 and its entry into force on 17 September 2009, Kazakhstan is considered an Annex I Party for the purposes of the Protocol but remains to be a non-Annex I Party for the purposes of the Convention. Since Kazakhstan does not have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol, its submission is being treated as a submission under the Convention.

^c Turkey indicated that its 2013 annual submission is made under both the Convention and the Kyoto Protocol. However, since Turkey does not have a quantified emission limitation or reduction commitment inscribed in Annex B to the Kyoto Protocol its submission is being treated as a submission under the Convention.
