## 5. Previous Expert Review Team recommendations

This section provides information on the completeness of Party's annual submission in addressing the previous annual review recommendations. If the Expert review team has made recommendations in the previous review, this section should list them and party's annual submission is checked if it covers each recommendation.

P1.5.1	N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No	FCCC/ARR/2010 /HUN was not available at the time of this review. When reviewing ERT recommendations from FCCC/ARR/2009/HUN, no recommendations were found relating to the Party's Registry. Therefor this requirement is marked as Not Applicable [N/A] for purposes of the Part 1 Assessment.
	Ref Nr: P2.4.2 From previous SIAR assessment. Hungary reported that, in accordance with the relevant EU legislation, part of the account and transaction information to be made publicly available under paragraph 47 in the annex to decision 13/CMP.1 is considered as confidential for a period of time and, consequently, will be made publicly available at specified dates in the future. However, Hungary does not include a statement to this effect on its national registry website where public information is available. It is recommended that if Hungary considers information to be confidential, then Hungary should include a statement in the website that information is considered confidential and that any changes be reported in its next annual submission.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Though not a direct recommendation from FCCC/ARR/2010/HUN, the Party addressed a recommendation from the previous year SIAR assessment. In the table in Chapter 14 on page 4 of [NIR], the Party stated that with the introduction of the client digital certificate system and the SMS based transaction signing (two-factor authentication method) the current implementation of publicly available information would need to be revised and that the revision would start right after the implementation of the SMS system and was expected to conclude in May-June 2011.
