5. Previous Expert Review Team recommendations

This section provides information on the completeness of Party's annual submission in addressing the previous annual review recommendations. If the Expert review team has made recommendations in the previous review, this section should list them and party's annual submission is checked if it covers each recommendation.

Ref Nr	Recommendation from previous Annual Review report (with ref)	Has Party covered the recommendation in its submission?	Comment
P1.5.1	Include in the NIR, in response to the findings of the standard independent assessment report, all additional information provided during the review (FCCC/ARR/2013/ISL)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Along with the party's [RESPONSE], the Party addressed the recommendation by including the response to findings of the standard independent assessment report in [NIR2].
P1.5.2	The assessor notes that Iceland is relying upon public information per 13/CMP.1 Annex paragraph 44, with specific reference to paragraph [45], [46], [47], [48], which is not under the party's direct control. The assessor recommends that Iceland include public information directly on the website of the national registry or via a link from the registry website to another website controlled by the Party. The assessor recommends that the publicly available information be up to date (i.e. updated as close to real time as possible, but at least updated on a monthly basis). (This recommendation is from the 2013 SIAR)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	The Party addressed the recommendation by including the public information directly on the website of the national registry. The Party provides reference to this publicly available information in [NIR], Chapter 12.4.

P1.5.3	<p>The assessor notes that Iceland is not fully reporting changes in the national registry related to change of test results. While the Party has resubmitted these items during the assessment cycle, the provided test report reveals an incomplete test was performed. This is evidenced by the limited number of Kyoto processes covered and absence of DES compliance demonstration through Annex H testing. Compliance with the DES requirements is essential to maintain confidence that national registry continues to perform the functions set out in the annex to decision 13/CMP.1 and the annex to decision 5/CMP.1. Therefore, the assessor strongly recommends that the Party test each release thoroughly against the DES as part of each major release cycle and provide the complete results in its annual NIR.</p> <p>(This recommendation is from the 2013 SIAR)</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<p>The Party included additional information in response to the 2013 SIAR in the [NIR], Chapter 14 and Annex VIII and Annex IX.</p>
P1.5.4	<p>The assessor notes that Iceland is not fully reporting changes in the national registry related to the description of database structure. While the Party has resubmitted the simplified data model during the assessment cycle, the information contained within is deemed incomplete. This is evidenced by the lack of description of each entity in the diagram and the lack of availability of some diagram entities as mandated in the Data Exchange Standard. The assessor recommends that following major changes, the party provide a data model which contains all DES required entities complete with descriptions in its annual NIR.</p> <p>(This recommendation is from the 2013 SIAR)</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<p>The Party included additional information in response to the 2013 SIAR in the [NIR], Chapter 14 and Annex VII.</p>
P1.5.x		<input type="checkbox"/> Yes <input type="checkbox"/> No
