	Consolidated system with other Parties?	Yes ◉ No ○	Parties involved	Switzerland, Liechtenstein

Overall Registry Assessment	Conclusion	Pass ◉ Fail ○	
	Comments / recom-mendations	The registry has fulfilled sufficient obligations regarding conformity with the Data Exchange Standards. These obligations include having adequate transaction procedures; adequate security measures to prevent and resolve unauthorized manipulations; and adequate measures for data storage and registry recovery. While the Documentation Evaluation, as reported in Addendum 1, identified some minor limitations in the state of registry readiness, these limitations are to be rectified prior to the registry commencing live operations. The registry is therefore deemed sufficiently compliant with the registry requirements defined in decisions 13/CMP.1 and 5/CMP.1, noting that registries do not have obligations regarding Operational Performance or Public Availability of Information prior to the operational phase.

Addendum 1

Initialization 1

Registry Name	National registry of Monaco		
Date of report	9/4/08	Pass	●
Reporting Period	N/A	Fail	☐
Start Date	18/6/07	N/A	☐
End Date	18/11/07		
Comments / recommendations	While the Documentation Evaluation, as reported in section 1, identified some minor limitations in the state of registry readiness, these limitations are to be rectified prior to the registry commencing live operations.		

1 Documentation Evaluation

This evaluation was carried out by the ITL Operator under the initialization process and aggregated results have been transcribed here in full.

Status	Green ☐ Amber ☑ Red ☐ N/A ☐
Total Score (max. 100)	74%
Comments / recommendations	The following limitations were identified during the documentation evaluation: 1. Further evidence is required to support the answers given for the area of Application Logging. 2. Further evidence is required to support the answers given for the area of Test Report.

The scoring approach used to evaluate the registry documentation is to assess the confidence level associated with each document, based on quality (completeness / accuracy / consistency of information supplied) and evidence (actual results supporting information supplied, if appropriate). The approach is set out below (see the ITL Initialization Process documentation for further information).

Status	Description	Score
Green	No significant concerns about the state of registry readiness are identified.	> 80
Amber	Minor limitations in the state of registry readiness are identified.	50 - 80
Red	Significant concerns about the state of registry readiness are identified.	< 50

Ref.	Test Description	Quality	Evidence	Confidence[1]
1.1	**Database and Application Backup** Detailed plan describing backup procedures for the production database and software.	86%	89%	87%
1.2	**Disaster Recovery Plan** Plan designed to enable Registry to survive in the event of catastrophic failure or disruption of the host environment and to re-establish normal business operations as quickly as possible.	76%	67%	73%
1.3	**Security Plan** Plan defined in order to protect the application and data from unrestricted and unsolicited use.	76%	78%	77%
1.4	**Application Logging Documentation** Documentation describing registry capability to maintain database logs and activity logs, provided to demonstrate conformance with Section 7 of the Data Exchange Standards.	89%	52%	63%
1.5	**Time Validation Plan** Specific procedures for validating server time on a periodic basis to allow successful data exchange.	86%	78%	83%
1.6	**Version Change Management** Procedure providing a clear migration path to upgrade from version to version of registry software and database schemas.	81%	89%	83%
1.7	**Test Plan** Plan ensuring a registry has performed basic testing and is capable of participating in the tests outlined in Annex H of the DES, which are required of a registry prior to being authorized to submit production transactions to the ITL.	90%	78%	87%
1.8	**Test Report** Report providing evidence that a registry has performed basic testing and is capable of participating in the tests outlined in Annex H of the DES, which are required of a registry prior to being authorized to submit production transactions to the ITL.	67%	19%	33%
1.9	**Operational Plan** Plan ensuring that the Registry has appropriately planned and staffed their operational requirements, so that the initial standards and requirements will be addressed on an ongoing basis.	74%	86%	78%
