

PARAGUAY APPROACHES TO EXCHANGE INFORMATION RELATED TO REDD-PLUS

Bonn, Germany- September, 2014

United NationsFramework Convention on Climate Change

National WEB Information related to REDD+

1. National experience 4/5

National Forest Information System

1. National Experience 5/5

Environmental Services Certificate (ESC) Database Structure

Concluding remarks

- All this platform's will be integrated and will be access
- A link with SNIF and SIAM will be developed specially with NFMS module
 - The link will allow the integration provided from the INFONA and SEAM to develop the GHG I, the FREL
 - Also the SIS module will be integrated with the afore mentioned modules
- In order to build this platforms a key coordination process is required not only between SEAM &INFONA but with other govt agencies and civil society in order to assure the transparency
