

### **Questions posed by Parties**

- 1a. Considering the outcome in Cancun and the implementation of 1/CMP.6:
  - i. What pre-conditions have been met by the Cancun outcome that will enable your country (in particular Annex I Parties) to adopt a second commitment period of the Kyoto Protocol?
  - ii. What further pre-conditions are necessary for your country (in particular Annex I Parties) to adopt a second commitment period of the Kyoto Protocol?
- 1b. What is necessary for these pre-conditions identified in question 1a.ii. to be met before Durban?
- 1c. In your country's perspective, what are the fundamental technical issues that need to be resolved before Durban?
2. How do we get the political clarity needed by June?
3. LULUCF: Should there be a cap on LULUCF crediting? Yes or No?
4. Should we place a limit on carry-over? Yes or No?
5. Baskets: Are we including new gases? Yes or no?
6. Pledge to QELROs: Length of the second commitment period? Is it 5 or 8yrs?
7. Mechanisms: Should we have complementarity criteria?
8. What rules are we working with? The context needs to be made clear - within KP or not?
9. If ideal conditions are met for the rules - what would be the process to confirm commitment in Durban?
10. Without a second or third commitment period, is there any meaning for the Kyoto Protocol? What is the legal meaning of the Protocol in the absence of a commitment period?
