

Submission by Switzerland, 21 October 2011

3.2.1. Draft Modalities and Procedures for International Assessment and Review

Non-paper by the facilitators dated 14.10.2011 @ 5 PM

Draft decision to adopt the modalities and procedures:

Recalling decisions 2/CP.1, 9/CP.2, 6/CP.3 and 33/CP.7 on review of national communications from Parties included in Annex I to the Convention (Annex I Parties), and decisions 6/CP.5, 19/CP.8, 12/CP.9 and 18/CP.10 on review of national greenhouse gas inventories from Annex I Parties,

Recalling further decision 1/CP.16, establishing an international assessment and review process (IAR) of emissions and removals related to Annex I Parties' quantified economy-wide emission reduction targets under the Subsidiary Body for Implementation (SBI), taking into account national circumstances, in a rigorous, robust and transparent manner, with a view to promoting comparability and building confidence,

Responding to the work programme launched by decision 1/CP.16 to develop modalities and procedures for the IAR process, building on existing review guidelines, processes and experiences,

Noting further that the biennial reports by Annex I Parties and the summary reports resulting from the IAR process will be an important part of the first review of the adequacy of the long-term global goal (decision 1/CP.16, part V), starting in 2013 and to be concluded by 2015,

Recognizing the need to have an efficient, cost-effective and practical IAR process which does not impose an excessive burden on Parties and on the UNFCCC Secretariat,

1. *Adopts* the modalities and procedures for international assessment and review, annexed to this decision;
2. *Decides* that Annex I Parties that have submitted their first biennial report in 2012 will undergo the IAR process according to the modalities and procedures referred to in paragraph 1 above;
3. *Decides* that the modalities and procedures referred to in paragraph 1 above will be enhanced further into guidelines, once the first round of the IAR process has been performed and on the basis of the experience gained from it.
4. *Decides* that the frequency of the subsequent rounds of the IAR process will be included in the guidelines referred to in paragraph 3 above.

Draft Modalities and Procedures for the International Assessment and Review Process:

Reference	Submission by Switzerland	Rationale
I. Para 1(a)	To provide a [non-intrusive][non-confrontational], robust, rigorous and transparent assessment of developed country Parties. progress towards the attainment of their quantified economy-wide emission reduction targets [and the implementation of commitments for the provision of financial, technological and capacity building support to developing country Parties];	<ul style="list-style-type: none"> Decision 1/CP.16 call for an IAR process of emissions and removals related to quantified economy-wide emission reduction targets, not to support
I. Para 1(f)	Delete	<ul style="list-style-type: none"> This is a specific objective of the IA process, captured in paragraph 3(d)
I. Para 1(g)	Delete	<ul style="list-style-type: none"> Identical to paragraph 1(e)
I. Para 1(j)	Delete	<ul style="list-style-type: none"> Compliance is not an objective of the IAR process Compliance only after the target year Compliance with reporting requirement expressed in paragraph 2(a)
I. Para 1(k)	To provide input to the 2013.2015 and the subsequent periodic review processes] of the long-term global goal.	<ul style="list-style-type: none"> Important to specify which Review process it is, not to be mixed with the R of IAR of the R processes of national inventories or NC
I. Para 2	In addition to the overall objectives included in paragraph 1, the specific objectives of the [technical][expert] [review][assessment] are the following:	<ul style="list-style-type: none"> Assessment
I. Para 2(a)	To provide a thorough, objective and comprehensive [technical][expert] [review][assessment] of information provided in reports referred to in paragraph 6 below for accuracy and conformity with reporting requirements;	<ul style="list-style-type: none"> Specific objective of the technical review
I. Para 2(b)	[To assess the implementation of commitments related to quantified economy-wide emission reduction targets and the provision of support;]	<ul style="list-style-type: none"> Support is not subject to IAR, according to decision 1/CP.16
I. Para 2(e)	[To ensure promote comparability of efforts among developed country Parties];	<ul style="list-style-type: none"> Wording of decision 1/CP.16
I. Para 2(f)	To assist Parties included in Annex I in improving their reporting of information and the implementation of their commitments and in assessing their progress towards their targets;	<ul style="list-style-type: none"> According to decision 1/CP.16, paragraph 42
I. Para 3	Further, the specific objectives of the international [assessment][review] are the following:	<ul style="list-style-type: none"> Assessment
I. Para 3(b)	To [assess][review] and [review][assess] the implementation of the quantified economy-wide emission reduction targets and the provision of sup-	<ul style="list-style-type: none"> Support is not subject to IAR, according to decision 1/CP.16
