

Towards the implementation of the Technology Mechanism

**Linkages within the Technology Mechanism and with other
institutional arrangements**

Bangkok , 5th April 2011

The country-driven approach

Country driven action!!!
Parties have needs in
defining climate technology

- strategies
- Plans
- programmes
- projects

- **EU objective:** working towards making the Technology Mechanism operational in 2012; Reach a decision in Durban / COP 17- as part of a balanced, coherent and effective package

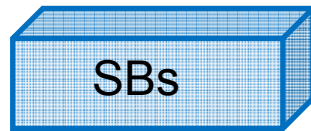

- How does the TM and its components fit together and also within the institutional structure of the Cancun Agreements?

TEC and the CTC

- TEC and CTC will relate to promote **coherence** and **synergies** (para127)
- CTC facilitates access to a network: CTC shall operate independently within its **terms of reference** and take into account the **strategic guidance** provided by TEC.
- CTC and TEC report on an **interim basis** to the SBs on its performance and activities and the performance of their respective functions
- TEC recommendations to be provided directly to the Conference of the Parties; COP decides which **recommendations** it will take into account

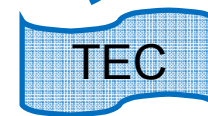

Relationship TEC and the CTC and reporting lines

Interim Reporting line

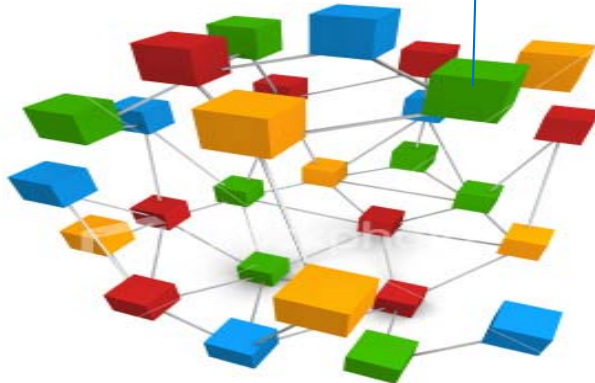

Strategic guidance

Interim Reporting line

Flow of information on activities of the Network

TEC recommendations to be provided directly to the Conference of the Parties

Relationship with other institutional arrangements

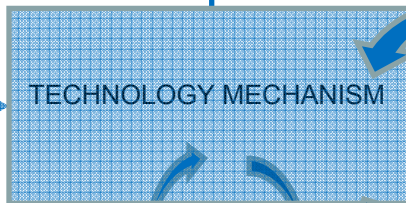

- Clear separation between **strategic policy level** advice (from the TEC) and operational aspects related to the work of the entities entrusted with the financial mechanism
- Ensure that the Technology Mechanism is not stand alone; enhance synergies with other **institutional arrangements**;

Relationship with other institutional arrangements

information flow,
recommendations

Global /regional information
on gaps and needs on DTT

Optimize complementarity and synergies: Interaction through consultations and where relevant, joint activities

Promoting action on DTT in support of mitigation and adaptation

Parties and IGIs
NGO's
Private sector

Guidance from the COP
