

## **Draft speaking notes**

### **ADP Briefing event by institutions under the Convention relevant for the provision of support**

#### **Naderev Saño, co-chair of the extended work programme on long-term finance**

**11:30 – 13:00, Thursday, 6 June, Bonn**

#### **Introduction**

- Thank you, Mr. Chair. Distinguished co-chairs, [Madame Executive Secretary,] dear colleagues and delegates.
- As you may know an important component of the extended work programme on long-term finance is interaction with ongoing processes and bodies under the convention. Hence, I am pleased to be here to brief you on behalf of my co-chair and I on the work in progress under this year's work programme.

#### **Mandate**

- As you are aware, COP18, by its decision 4/CP.18, decided to extend the work programme on long-term finance for one year to the end of 2013. The aim of the work programme in 2013 is two-fold.
- First, to inform developed country Parties in their efforts to identify pathways for mobilizing scaled-up climate finance to USD 100 billion per year by 2020, from public, private and alternative sources, in the context of meaningful mitigation actions and transparency on implementation.
- And, second, to inform Parties in enhancing their enabling environments and policy frameworks to facilitate the mobilization and effective deployment of climate finance in developing countries.
- My co-chair and I will report back to Conference of the Parties at its nineteenth session on the outcomes of the work programme.

#### **Organisation of the work and implementation update**

- To ensure an open, transparent and robust work programme from the outset, my co-chair and I have analyzed various scenarios for the modalities and came to the conclusion that the work programme in 2013 should be organized in three phases; consultations, implementation, and a concluding phase.

- We undertook a number of activities during the consultation phase with a view to primarily determine the modalities and how best to focus and advance discussions under the extended work programme on long-term finance, in the context of the aim set out in Decision 4/CP.18.
- We have considered views of Parties and thematic and expert bodies under the Convention submitted to the secretariat. We organized a Webinar involving Parties and climate finance stakeholders. And, we also held consultations with interested Parties and an information event during the week of the second session of ADP in May in Bonn.
- As you may know, the work programme has now entered the implementation phase. A kick-off meeting was held on Tuesday, 4 June and second will take place on Monday, 10 June. The meetings in Bonn are intended to identify areas of focus where this year's work programme can add value and the respective elements as they relate to the two Pillars of this year's work programme, namely:
  - To inform developed country Parties in their efforts to identify pathways for mobilizing scaled-up climate finance to USD 100 billion per year by 2020 from multiple sources; and
  - To inform Parties in enhancing their enabling environments and policy frameworks to facilitate the mobilization and effective deployment of climate finance in developing countries.
- Two expert meetings will be organized in the period July-August to discuss elements under Pillar I and I from an analytical and technical angle and a wrap-up event will be held in September, including web-based seminars in between. The first expert meeting will be held on 16-17 July in Manila, Philippines. Detailed information about these meetings will be posted on the dedicated website.

### Closing remarks

- Finally, I would like to use the opportunity of this event to encourage involvement, engagement and support during the implementation phase.
- Thank you
