

Gender and technology transfer

Jukka Uosukainen
Director, CTCN

www.ctc-n.org
ctcn@unep.org

CTCN Structure

- Launched in 2014
- Guided by COP & Advisory Board
- Hosted by UNEP & UNIDO
- Consortium of 11 independent, regional and global climate technology organizations

CTCN

Mission

CLIMATE TECHNOLOGY CENTRE & NETWORK

FCCC/CP/2011/9/Add.1 Annex VII

Terms of reference of the Climate Technology Centre and Network

I. Mission

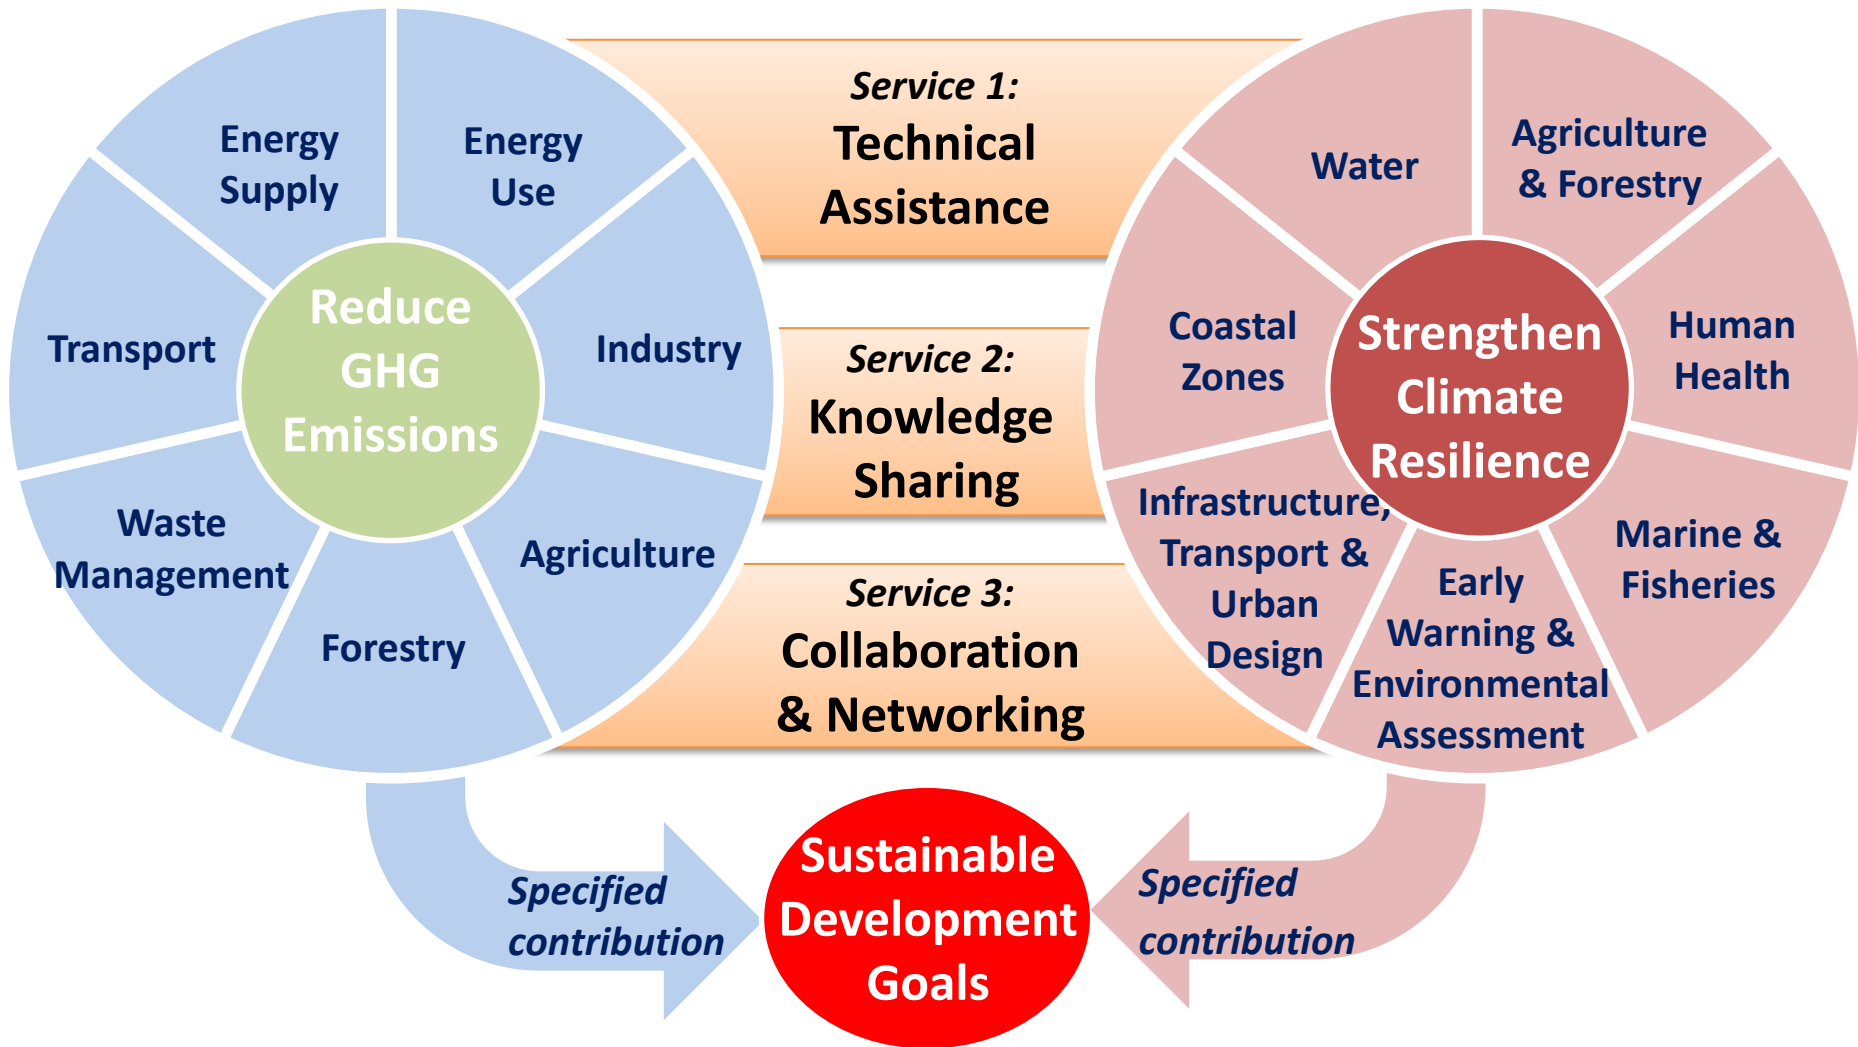

The mission of the Climate Technology Centre and Network is to stimulate technology cooperation and to enhance the development and transfer of technologies and to assist developing country Parties at their request, consistent with their respective capabilities and national circumstances and priorities, in order to build or strengthen their capacity to identify technology needs, **to facilitate the preparation and implementation of technology projects and strategies taking into account gender considerations to support action on mitigation and adaptation and enhance low emissions and climate-resilient development.**

United Nations
Framework Convention on
Climate Change

CTCN Services and Intended Impacts

CTCN Technical Assistance

Request:

- Fast and simple (3 pages)
- Submit in any UN language

Technical Assistance Provided:

- To developing countries upon request
- Value of USD 50,000 to 250,000
- State of the art and locally relevant
- To public, civil society or private entities
- For a full menu of adaptation and mitigation technologies throughout the technology cycle:
 - i. Development
 - ii. Demonstration
 - iii. Diffusion
 - iv. Commercial Maturity
- **Each technical assistance plan must detail gender considerations**

CTCN Climate Technology Webinar Series:

- CTCN partnered with EmpowerWomen.org, UNIDO, UN Women and Energia to present webinar on women and climate technology

RE-Thinking The Role Of Climate Technology For Women's Empowerment

Date and time:

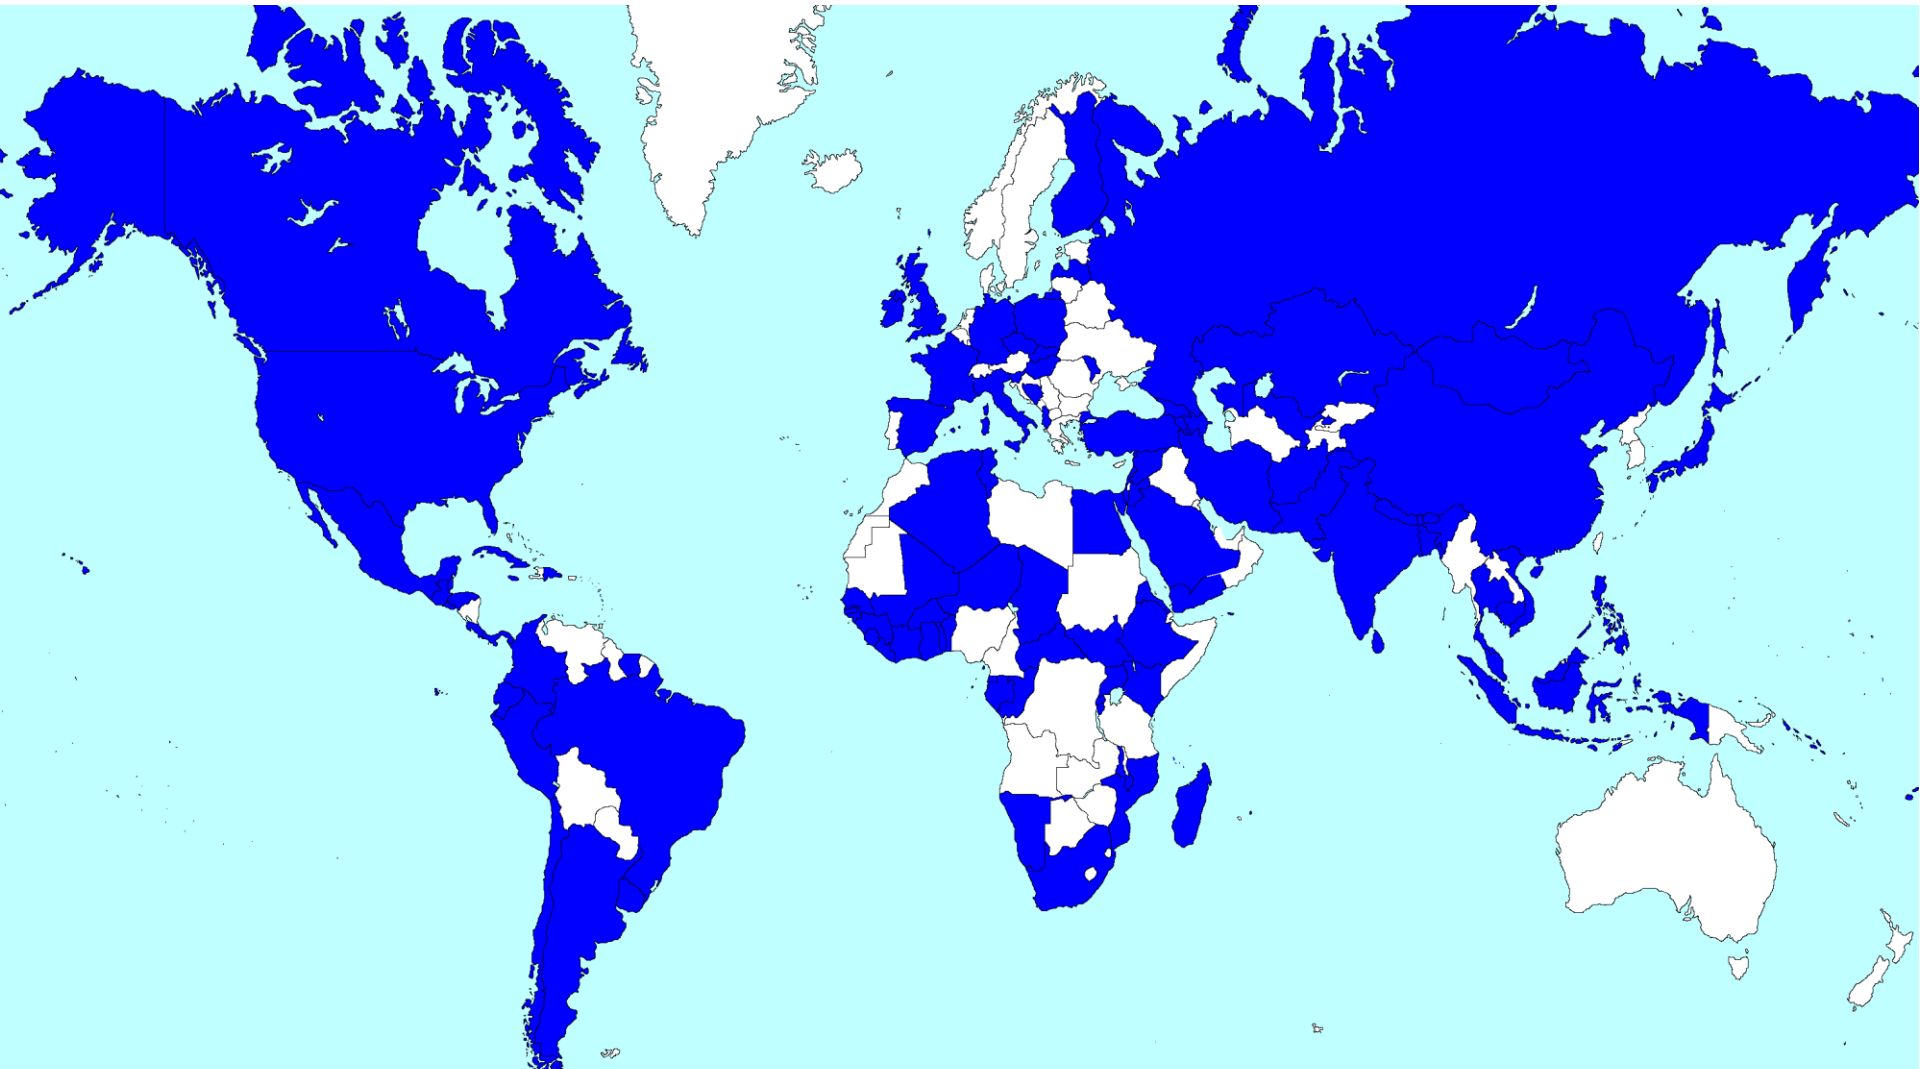

Wednesday 6 May 2015 - 8:30am to 10:30am EDT

CTCN seeks to highlight research, publications, & case studies on the gender dimension of climate technologies. Email us at CTCN@unep.org

Collaboration & Networking: National Designated Entities (NDEs)

116 NDEs have been selected by their countries as of 29 May 2015

Collaboration & Networking: Climate Technology Network

Through its Network, the CTCN mobilizes policy and technical expertise from academia, civil society, finance and private sectors to deliver technology solutions, capacity building and implementation advice to developing countries.

Engage with the CTCN

Knowledge Sharing:

- Share publications, tools, and case studies on gender dimension of climate technologies to be highlighted on ctc-n.org
- Partner with CTCN on technology webinars that highlight the role of gender in mitigation and adaptation

Technical Assistance:

- Contact your NDE in order to submit a request for CTCN technical assistance, including e.g. gender-relevant project design; building capacity; a broad range of adaptation & mitigation sectors; assistance with identifying project finance; etc.

Climate Technology Network:

- Encourage women-led technology companies, gender and climate networks/orgs to join the Network in order to:
 - Get contracted to deliver CTCN technical assistance to developing countries
 - Network with national decision makers, thought leaders, and other relevant stakeholders
 - Provide capacity building and gain greater visibility for relevant events, reports and tools

Thank you
